Open letter to M&M shit bars and company:

What the fuckers won't do for a buck or a fix.
My inner kid was "Abandoned in the Wasteland" of commercial Media MindFuck.
Took 21 years of recovery to get me back, Lucky to be alive.

eminem deals rat poison drugs to little kids and disappears up his own asshole, a sick kid relating to a nation of sick kids.

Sing that eminem : "m&m is shit" and get real.

N.A. and the 12 step programs is A.lways A.round when your ready to get honest and come home.

Unconditional love
