Hi Gino :

So far i'm writing / producing this one, i want you to help get the money, you get 15% of what i make in the end. O.K.? : I learned today that Madonna is into the Kabbalah ...guess what she may be interested in financing this film.

This does not mean she will act in it, just cosign so we can loan the money, say 100k, from the bank. It gets bigger later.

Pls. ask her on our behalf, verbatim, next time you see her or before and remind her that "... it was my idea to put Madonna and Wren Beatty together for Dick Tracey...". "It was a good idea" someone said, ask her if it was ? Maybe she's mad at me for that idea , i don't know? maybe she didn't know??? tell her, Guess what, I'm a crazy poet and a mystic "White Wrapper (t.m.)" or some thing...i'm not into violence and bondage .

...remeber that??? I sent another fax a long time ago to her agent, about "...getting burnt once is enough", or some such thing .".(does not help to get bitter in this buisness. So i apologize for taking her inventory and yours.) They probably dumped the fax by now. So listen here's what we do. We ask her to help us set up a foundation called "Z.P.G. Now (t.m.)" with her money and take some interest in informing women about " Herbal Birth Control (t.m.)" and that's what my film "Vested Interest (c)2000 "M.F.T." is about. Now don't give me ..."I'll do the best I can" story ...JUST DO IT. Do it your way, or any way but get it done, O.K.? Ask Your H.P. to guide you, this one is bigger than both of us and it's for everyone. Don't ask me what H.P. stands for ...if you don't know by now.

gk / unconditional love

Hi Rudy:

re.: George Kasey (t.m.) proposal for first feature and broadcast agreement request via voice mail 21:30h., Nov.27.2000.

As per our message on your voicemail, we would like to request a broadcast agreement with TVO for a feature documentary on the subject of "Herbal Birth Control (t.m.)" and "Z.P.G.Now (t.m.)" working title "Vested Interest (© "M.F.T.")"

For security purposes, in terms of our intellectual property rights, we are not prepared to divulge any further information about the content at this time, other than to say that the focus of the project will be an analysis of how vital information in the controversy re. Roe v. Wade has been suppressed and will be brought to the public attention.

We may suggest that the book "Eve's Herbs" by John M. Riddle, Harvard University Press 1997, may give an indication of one resource we intend to include. For further info. pls. contact us at your convenience.

Thank you
