# SUMMARY

## A. Campaign Background

Employment and Social Development Canada (ESDC) supports the Minister of Seniors and is the Government of Canada's department responsible for developing, managing, and delivering a wide range of social programs and services for seniors. The Services for Seniors campaign was tailored to support ESDC's mission to build a stronger and more competitive Canada, as well as to support Canadians in making choices that help them live productive and rewarding lives. This campaign was a continuation of the 2018-2019, 2019-2020, 2020-2021, and 2021-2022 campaigns, led by ESDC in collaboration with the Anti-Fraud Centre, Canada Revenue Agency, Competition Bureau, the Financial Consumer Agency of Canada, Health Canada, and Veteran's Affairs Canada.

The *Services for Seniors* advertising campaign featured the Government of Canada's programs and services that either directly or indirectly benefit seniors, including changes to Canada Pension Plan (CPP) and Old Age Security (OAS). Canadians who are 55 or older and preparing for or living in retirement was the primary target audience for the campaign.

Because the advertising exceeded \$1 million public opinion research is required by Treasury Board using the Advertising Campaign Evaluation Tool (ACET), with additional validating and benchmarking questions following the ACET instrument. Data collection to evaluate the campaign supports the Government of Canada's goal of effectively gauging Canadians' awareness and knowledge of its initiatives and determining the effectiveness of the campaign.

The research included two components:

1. Baseline Evaluation, using the standardized ACET online survey, with the primary audience to assess pre-campaign awareness of the subject matter, including:
  - Aided and unaided awareness of general Government of Canada advertising, along with advertising related to the campaign topic; and
  - Aided and unaided awareness of the subject matter

2. Post-Campaign Evaluation, using the standardized ACET Post-Campaign online survey, with the primary audience to assess:
  - The unaided and aided awareness of the Services for Seniors advertisements and general Government of Canada advertising;
  - The message recall;
  - Whether the advertisements were:
    - Attention catching
    - Relevant
    - Difficult to follow
    - About an important topic
    - Provide new information
    - Effective in promoting the call to action
  - Aided and unaided awareness of the subject matter.

## B. Methodology

Two bilingual, national online surveys were conducted: one as a baseline, in advance of the campaign, and one at the end of the campaign<sup>1</sup> to measure awareness and assess the impact of the campaign. The baseline survey included 2,018 Canadians 55 years or older and was conducted between October 4<sup>th</sup> and October 24<sup>th</sup>, 2022. The post-campaign survey included 2,025 Canadians, also 55 years or older and was conducted between February 4<sup>th</sup> and February 17<sup>th</sup>, 2023. Each survey instrument used the Advertising Campaign Evaluation Tool (ACET) issued by the Communications and Consultations Secretariat of the Privy Council Office (PCO), along with additional campaign-specific questions testing impact on perceptions and behaviour targeted through the campaign. Each sample included randomly selected respondents from all provinces and territories in Canada.

Each survey sample relied on EKOS' Probit panel, which is assembled using a random digit dial process for sampling from a blended land-line cellphone frame and provides full coverage of Canadians with telephone access. The distribution of the recruitment process is meant to mirror the actual population in Canada (as defined by Statistics Canada). As such, our more than 120,000-member panel can be considered representative of the general public in Canada (meaning that the incidence of a given target population within our panel very closely resembles the public at large) and margins of error can be applied.

---

<sup>1</sup> The post-campaign survey started collection about a week before the end of the advertising campaign.

Appendix A provides the details of the methodology for the baseline and post-campaign surveys. The baseline and post-campaign questionnaires are found in Appendix B and C.

## C. Contract Value

The value of the contract is \$68,359.35 including HST.

## D. Political Neutrality Certification

I hereby certify as Senior Officer of EKOS Research Associates Inc. that the deliverables fully comply with the Government of Canada political neutrality requirements outlined in the Policy on Communications and Federal Identity and the Directive on the Management of Communications.

Specifically, the deliverables do not include information on electoral voting intentions, political party preferences, standings with the electorate, or ratings of the performance of a political party or its leaders.

Signed by:
