GAP SCORES represent the percentage of the population who, on the one hand, believe an item is 'highly important' (i.e., they offered a score of 8-10 on a 1-10 point importance scale), but who, on the other hand, do not offer an elevated rating on that same item (i.e., they either offered a score of 1-7 on a 1-10 point excellent/poor scale, or they responded 'Don't know/Refuse').

TABLE D1:
