## INTRODUCTION

Health Canada (PHAC) commissioned Elemental Data Collection to administer a Pre/Post online survey to study the current vaccination awareness levels among the Canadian public. This program was also used to understand the effectiveness of its current vaccination awareness media campaign. Online surveys were conducted in two waves from September 26<sup>th</sup>, 2023, to October 7<sup>th</sup>, 2023, in the pre-wave and February 16<sup>th</sup>, 2024, to February 27<sup>th</sup>, 2024, in the post-wave for a total sample of 4,740 Canadians, 18 years of age and older.

The following sections outline the methodology used to conduct the study, including the research objectives, sample design and data collection procedures.

### 1.1 Background

Vaccination is recognized as one of the greatest public health achievements of the last century, likely saving more lives in the last 50 years than any other health intervention. For continued success, however, high population vaccination coverage rates need to be attained and sustained. Immunization not only protects the individual, but also, in many instances, provides community protection against vaccine-preventable diseases through herd immunity. Sadly, reported uptake rates are falling short of national and international targets. An increasing number of parents are choosing to delay and/or refuse some or all vaccines leading to faltering community protection. Clusters of unvaccinated individuals have provided fertile ground for recent major outbreaks of vaccine preventable diseases such as measles, mumps, rubella, poliomyelitis and pertussis.

Vaccines are a cost-effective tool to control and eliminate life-threatening diseases that were once very common in Canada. Since the introduction of vaccines and routine vaccination programs, the incidence of pertussis, measles and polio has been reduced by 96%, 99% and 100%, respectively. Childhood vaccines save an estimated 2–3 million lives worldwide every year, which has contributed substantially to the reduction in global infant mortality rate from 65 per 1,000 live births in 1990 to 29 in 2018. Yet, vaccine-preventable disease (VPD) cases are still reported every year, primarily among infants and seniors who have not been vaccinated. Maintaining a high vaccine coverage rate is essential to maintaining low disease rates.

As part of its efforts on addressing gaps in childhood vaccine coverage rates in Canada, the Public Health Agency of Canada (PHAC) has developed awareness campaigns for years on the importance and safety of routine childhood vaccines for children aged 0-6.

## **1.2 Research Objectives**

Through the use of a survey, PHAC is now executing a childhood routine vaccination campaign, which targets Canadian parents, caregivers, people planning a pregnancy and expectant parents, and those planning an adoption and adoptive parents. The campaign aims to increase awareness among vaccine-hesitant parents, caregivers, people planning a pregnancy and expectant parents in Canada of the importance of vaccination and keeping up-to-date, as well as contribute to decreasing hesitancy towards childhood vaccinations in Canada by providing factual credible information addressing key concerns towards vaccinations.

## **1.3 Contract Value**

The total contract value of this research was \$62,629.57, including HST.

## **1.4 Political Neutrality Statement**

I hereby certify as a Representative of Elemental Data Collection that the deliverables fully comply with the Government of Canada political neutrality requirements outlined in the Communications Policy of the Government of Canada and Procedures for Planning and Contracting Public Opinion Research. Specifically, the deliverables do not include information on electoral voting intentions, political party preferences, standings with the electorate, or ratings of the performance of a political party or its leaders.

## METHODOLOGICAL SUMMARY

### 2.1 Survey Methodology

Both a pre and post campaign online survey were conducted with a proportionate stratified sample of 4,740 Canadians, 18 years of age and older. Based on a sample of this size, the overall results are expected to provide results accurate to within  $\pm 1.42\%$ , 19 times out of 20 (adjusted to take into account sample stratification). Details regarding the methodology are outlined below.

### 2.2 Sample Design and Selection

Quotas were set to ensure that each of the two waves of the project would target n=2,370 completes with a minimum of 500 respondents each wave to be parents of children under 6/expecting parents.

Strata	Completed Interviews	Margin of Error (%)
Atlantic Provinces	337	$\pm 5.34$
Quebec	1,098	$\pm 2.96$
Ontario	1,809	$\pm 2.30$
Prairies ( <i>includes Nunavut</i> )	318	$\pm 5.50$
Alberta ( <i>includes Northwest Territories</i> )	522	$\pm 4.29$
British Columbia ( <i>includes Yukon</i> )	656	$\pm 3.83$
Canada	4,740	$\pm 1.42$

Based on a sample of this size, the results can be considered accurate to within  $\pm 1.42\%$ , 19 times out of 20.

Screening questions were used to ensure that all respondents were eligible (i.e., Industry, Canadians at least 18 years of age at the time of the survey). Also – additional questions were asked to track whether respondents were parents of children under 6 or were expecting.

### 2.3 Fieldwork

The online surveys was administered to 4,740 respondents, from September 26<sup>th</sup>, 2023, to October 7<sup>th</sup>, 2023, in the pre-wave and February 16<sup>th</sup>, 2024, to February 27<sup>th</sup>, 2024, in the post-wave, using computer-assisted web interviewing (CAWI) technology. The data collection was carried out by Elemental Data Collection in Ottawa, Ontario. Online interviews were conducted in the respondent's official language of choice. The average length of time required to complete an interview was 6 minutes.

The sponsorship of the study was revealed as the Government of Canada. All survey respondents were informed that participation is voluntary and that information collected is protected under the authority of privacy legislation.

## 2.4 Response Rate

In total, 50,729 Canadian online respondents were approached. The overall response rate for this survey was 10.48%. This is consistent with typical response rates for online surveys of the general public conducted over this length of field period. The table below presents the detailed information.

Online Disposition Table		TOTAL	Pre-Wave	Post Wave
Total	50729	26217	24512	
Unresolved (U)	43507	22485	21022	
In-scope - Non-responding (IS)	1908	1076	832	
<i>Termination</i>	778	456	322	
<i>Refusal</i>	1130	620	510	
In-scope - Responding units (R)	5314	2656	2658	
<i>Completed Interview</i>	4740	2370	2370	
NQ - Age	15	9	6	
NQ - Industry	559	277	282	
Response Rate	10.48%	10.13%	10.84%	

The response rates were calculated using the formula:  $R=R/(U+IS+R)$ .

## 2.5 Data Analysis

Weighting adjustments were applied to the survey data to ensure that the results were representative of the Canadian population aged 18 years of age and older. Specifically, the survey results were weighted by region, gender and age according to the most recent Statistics Canada census of the population.

The following table presents a breakdown of actual and weighted completions by regional strata.

Strata	Unweighted Sample Size	Weighted Sample Size
Atlantic Provinces	337	319
Quebec	1,098	1,090
Ontario	1,809	1,830
Prairies/Nunavut	318	308
Alberta/Northwest	522	528
British Columbia/Yukon	656	665
<b>Total</b>	<b>4,740</b>	<b>4,740</b>

## 2.6 Non-response Analysis

A non-response analysis was conducted to assess the potential for non-response bias. Non-response is the result of a unit of the sample not participating in the survey—either refusing to take part in the survey (a refusal) or not being reached during the data collection period (non-contact). Non-response results in biases in the survey sample when there are differences between respondents and non-respondents.

To undertake the analysis for this survey, the unweighted sample distribution by gender, age, household income, employment status and level of education was compared to the actual population (based on 2021 Census figures from Statistics Canada).

	Survey Sample (Unweighted)	Population (Census 2021)	% diff (+/-)	Survey Sample (weighted)
18-34	18.71%	26.69%	-7.32%	26.71%
35-54	35.89%	32.19%	1.10%	32.20%
55+	45.40%	41.11%	6.23%	41.09%
Male	47.06%	48.76%	1.24%	48.68%
Female	52.94%	51.24%	-1.24%	51.15%
Under \$20,000	6.41%	4.74%	1.80%	6.70%
\$20,000 to under \$40,000	16.76%	14.64%	-0.95%	16.52%
\$40,000 to under \$80,000	33.12%	28.41%	-0.98%	33.02%
\$80,000 and over	43.70%	52.21%	0.13%	43.76%
Employed	56.37%	57.10%	3.76%	59.07%
Unemployed	4.54%	6.56%	-1.99%	4.61%
Not In labour force	39.09%	36.34%	-1.77%	36.32%
No certificate, degree or diploma	3.21%	16.15%	-10.05%	3.20%
High school certificate or equivalent	19.79%	26.69%	-8.64%	19.81%
Apprenticeship or trades certificate or diploma	7.45%	8.71%	-2.86%	7.13%
College, CEGEP or other non-university certificate or diploma	23.00%	18.84%	3.27%	22.65%
University degree, certificate or diploma	46.56%	29.61%	18.27%	47.21%

As is typically found with online surveys in Canada, the final sample over-represents those with higher levels of education. Also consistent with most online surveys of the general public, age is a source of sample bias in the survey although it is much smaller than with telephone surveys. As the table indicates, younger Canadians are slightly under-represented and older Canadians are slightly over-represented in the survey sample. The survey results were weighted to address these variations. Weighting serves to reduce bias should it be present, but not to eliminate it completely. It is very unlikely that this small sampling bias introduced any meaningful bias to the survey results.

## 2.7 Data Weighting

In order to ensure that the final survey sample was proportional to the current distribution of the Canadian public, the data required a weighting factor to be included. Elemental employed a process called sample balancing (also known as RIM weighting) to ensure that we could adjust the weighting factor to accurately reflect the geographical, gender and age breakouts of the current population distribution.

English Survey

### ADVERTISING CAMPAIGN EVALUATION TOOL POST-CAMPAIGN SURVEY- CHILDHOOD VACCINATION ADVERTISING CAMPAIGN

#### INTRODUCTION

Thank you for taking a few minutes to complete this survey on current issues that matter to Canadians. Si vous préférez répondre à ce sondage en français, veuillez cliquer sur [français \[SWITCH TO FRENCH VERSION\]](#).

**Your participation is voluntary and your responses will be kept entirely confidential.** The survey takes about 11 minutes to complete.

[START SURVEY](#)

[Click here](#) if you wish to verify the authenticity of this survey. To view our privacy policy, [click here](#). (see below)

Elemental Data Collection adheres to the privacy laws regarding respondent confidentiality within our industry. Unless otherwise stated, all of our research data is collected and presented in aggregate format so that no responses can be linked or tracked back to specific respondents. Respondents can be rest assured that any personal information that is shared with us will remain strictly confidential unless permission has been granted to share their responses.

The principles and our compliance are as follows:

Accountability – if you have been a respondent in one of our studies and have any questions related to your personal information, you may contact our Privacy Officer using the form at the bottom of this page.

Identifying the Purpose of the Research – before you agree to participate in any research study, you will be advised of why the study is being conducted and how any of your information will be collected and used.

Consent – in the rare instance that your personal information needs to be connected to your responses to fulfill the objectives of the study and transferred to the client, you will specifically be asked at the time of data collection if you grant permission. For any study we conduct, you have the option of not participating.

Limiting Collection – we will only collect the data we need to meet our study objectives.

Limiting Use, Disclosure and Retention – personal information will be retained only as long as it serves a purpose and need.

Accuracy – in all aspects of data collection and analysis, we strive for the highest accuracy and quality possible.

Safeguards – any personal information from participation in research studies is protected using physical and technological barriers.

Openness – any questions regarding our Privacy Policy and related procedures can be directed to our Privacy Officer.

Individual Access – a respondent who has participated in one of our studies may have access to his or her personal information within 30 days of filing a request with our Privacy Officer.

Challenging Compliance – our compliance and Privacy Policy may be challenged or questioned at any time by contacting our Privacy Officer.

A full detailed explanation of the standards and policies that Elemental Data Collection Inc. adheres to can be found on the CRIC (Canadian Insights Research Council) website. Furthermore, Elemental Data Collection Inc. abides by the Standards for the Conduct of Government of Canada Public Opinion Research – Telephone and Online Surveys which additionally outlines our privacy responsibilities [here](#).

a) Does anyone in your household work for any of the following organizations?

**SELECT ALL THAT APPLY**

- a marketing research firm
- a magazine or newspaper
- an advertising agency or graphic design firm
- a political party
- a radio or television station
- a public relations company
- the federal or provincial government
- none of these organizations

**IF “NONE OF THESE ORGANIZATIONS” CONTINUE, OTHERWISE THANK AND TERMINATE.**

b) What is your gender?

- Male
- Female
- Other
- Prefer not to answer

c) In what year were you born?

YYYY

**ADMISSIBLE RANGE 1900-2006**

**IF > 2006, THANK AND TERMINATE**

**ASK D IF QUESTION C IS LEFT BLANK**

d) In which of the following age categories do you belong?

**SELECT ONE ONLY**

- less than 18 years old
- 18 to 24
- 25 to 34
- 35 to 44
- 45 to 54
- 55 to 64
- 65 or older

**IF “LESS THAN 18 YEARS OLD” OR “BLANK”, THANK AND TERMINATE**

e) In which province or territory do you live?

**SELECT ONE ONLY**

- Alberta
- British Columbia
- Manitoba
- New Brunswick
- Newfoundland and Labrador
- Northwest Territories
- Nova Scotia
- Nunavut
- Ontario
- Prince Edward Island
- Quebec
- Saskatchewan
- Yukon

**IF NO PROVINCE OR TERRITORY IS SELECTED, THANK AND TERMINATE**

**SCREENER QUESTION TO IDENTIFY IF HAVE CHILDREN AGED 5 AND UNDER**

S1. Are you the parent or legal guardian of a child age 5 years old or younger?

Yes (please enter number of children) **[NUMERIC TEXT BOX]**

No

S2. Please enter the age of your child(ren) below. If your child is under 1 years old, please enter 0

Child 1 **[NUMERIC TEXT BOX, RANGE 0-5]**

Child 2 **[NUMERIC TEXT BOX, RANGE 0-5]**

**[INSERT CHILD BOXES FOR NUMBER OF CHILDREN AT S1, CHILD 1, CHILD 2, CHILD 3, ETC.]**

**SCREENER QUESTIONS TO IDENTIFY IF PREGNANT OR THINKING OF GETTING PREGNANT IN NEXT 12 MONTHS**

**[IF FEMALE or OTHER AND S1=NO, ASK S3]**

S3. Are you currently pregnant?

Yes

No

**[ASK S4 IF S3=NO]**

S4. Are you expecting to become pregnant within the next 12 months?

Yes

No

**GROUPING**

**RESPONDENTS SHOULD ONLY COUNT IN ONE GROUP**

**n=2,370 surveys to include n=500 from groups 1 & 2, n=1,870 from group 3**

1. Parents and caregivers of children 0-5— S1=YES
2. Pregnant people and those planning to become pregnant— S3=YES or S4=YES
3. Genpop— S1=NO and S3=NO and S4=NO

**CORE QUESTIONS****ASK ALL RESPONDENTS****Q1:**

Over the past six months, have you seen, read or heard any advertising from the Government of Canada?

- yes
- no

=> GO TO T1A

---

**Q3:**

Think about the most recent Government of Canada ad that comes to mind. What do you remember about this ad?

**CAMPAIGN-SPECIFIC QUESTIONS****ASK ALL RESPONDENTS****T1A:**

Over the past six months, have you seen, read or heard any Government of Canada advertising about recommended childhood vaccinations?

Recommended childhood vaccines include vaccines to prevent tetanus, diphtheria, pertussis (whooping cough), polio and measles, mumps, influenza, rubella (MMR) as well as haemophilus influenza type B (Hib). They also include recommended vaccines to prevent chicken pox (varicella), but do not include the COVID vaccine or the vaccines you get in advance of travelling.

- Yes
- No

=> GO TO T1D

---

**T1B:**

Where have you seen, read or heard this ad about childhood vaccinations?

**SELECT ALL THAT APPLY**

Printed publications	
Insert in mailout	
Online / digital	
Digital/Streaming TV (e.g. Netflix, Disney+)	Digital/Streaming radio (e.g. Spotify, Podcast)
In a mobile app	Internet website
Online news sites	Web search (e.g. Google, Bing)
Pinterest	YouTube
Out-of-home (indoor and outdoor signage)	
Cinema	Highway billboard
Digital billboard	Shopping mall digital screen
Doctor's office	Pharmacy
Elevator	Transit (e.g. Inside/outside bus/subway or bus shelter)
Mandatory option(s):	
Other, specify:	Cinema or movie theatre

**T1C:**

What do you remember about this ad?

**ASK ALL RESPONDENTS****CAMPAIGN SPECIFIC ATTITUDINAL AND BEHAVIOURAL QUESTIONS MAY BE ADDED HERE****T1D:**

On a scale of 1 to 5 where 1 is not at all, 5 is completely, and the midpoint 3 is moderately, how much do you trust recommended childhood vaccinations?

- 1 Not at all
- 2
- 3 Moderately
- 4
- 5 Completely
- Don't know

**T1E:**

Which of the following statements most accurately reflects your views on vaccines for your child(ren)? [Gen pop: remove "your"]

- I (will) accept all recommended vaccines and have no doubts or concerns [ASK T1G]
- I (will) accept all recommended vaccines but have doubts and concerns [ASK T1G]
- I (will or have) refuse(d) or delay(ed) getting some vaccines [ASK T1F, hesitant about]
- I have not decided yet about plans for vaccinating my child [ASK T1F, hesitant about] [Show only for Groups 1 & 2]
- I will or have refuse(d) **some** recommended vaccines [ASK T1F, opposed to]
- I will or have refuse(d) **all** recommended vaccines [ASK T1F, opposed to]
- Don't know

**T1F:**

What is/are the main reason(s) you are [hesitant about/opposed to] getting your child(ren) vaccinated? (Please select all that apply) [Gen pop: remove "your"]

- Concerns about side effects
- Lack of information on vaccine ingredients
- Distrust in pharmaceutical companies
- Belief in natural immunity being better
- Information shared by friends/family
- Other (please specify)

**T1G:**

What is/are the main reason(s) for getting your child(ren) vaccinated? (Please select all that apply) [Gen pop: remove "your"]

- Recommendations from healthcare professionals, like doctors
- Confidence in Canada's Health Canada's safety standards for vaccines
- Knowing herd immunity benefits my community
- Clear information available of vaccines ingredients
- Proven record of vaccines reducing or preventing disease
- Information shared by friends/family
- Other (please specify)

**T1H:**

In the past 12 months, have you looked for information about childhood vaccinations?

- Yes
- No
- Don't recall
- Don't know

**T1I:**

How much do you agree or disagree with each of the following statements, in general...

**[COLUMNS]**

- Strongly agree
- Somewhat agree
- Somewhat disagree
- Strongly disagree
- Don't know
- Prefer not to answer

**[ROWS, RANDOMIZE]**

- Childhood vaccines are safe.
- Childhood vaccines are effective.
- Childhood vaccines are important for my child's health. [Gen pop: remove "my", insert "children's"]

**T1J:**

What impact, if any, did the COVID-19 pandemic have on your level of concern regarding:

**[COLUMNS]**

A lot less concerned now  
 Somewhat less concerned now  
 About the same as before  
 Somewhat more concerned now  
 A lot more concerned now  
 I do not recall  
 I don't know  
 I prefer not to answer

**[ROWS, RANDOMIZE]**

Recommended childhood vaccinations

The risk of other infectious diseases (ex. Measles, mumps, meningitis, diphtheria, etc.)

**T1K: [Ask only to respondents in Group 1 or 2]**

Did the COVID-19 pandemic affect your likelihood of getting the recommended childhood vaccines for your child(ren)? Would you say you are:

- More likely to get the recommended childhood vaccines
- Less likely to get the recommended childhood vaccines
- Does not affect your likelihood of getting the recommended childhood vaccines

**Votre participation est volontaire et toutes vos réponses demeureront confidentielles.** Le sondage prend environ 11 minutes à compléter.

**DÉBUT DU SONDAGE**

Cliquez ici si vous souhaitez vérifier l'authenticité du présent sondage et ici pour lire notre politique de confidentialité.

Elemental Data Collection respecte les lois sur la protection des renseignements personnels qui régissent la confidentialité des répondants au sein de notre industrie. Sauf indication contraire, toutes nos données de recherche sont recueillies et présentées sous forme agrégée; aucune réponse n'est donc associée à des répondants en particulier ni ne permet de les identifier. Les répondants peuvent être assurés que tous les renseignements personnels qu'ils nous transmettent demeureront strictement confidentiels, à moins qu'ils nous aient autorisés à communiquer leurs réponses.

Voici les principes auxquels nous adhérons:

Responsabilité – si vous avez participé à l'une de nos études et avez des questions au sujet de vos renseignements personnels, vous pouvez communiquer avec notre responsable de la protection des renseignements personnels en remplissant le formulaire figurant au bas de cette page.

Détermination des fins de la recherche – avant que vous ne consentiez à participer à une étude de recherche, nous vous dirons à quelles fins l'étude est réalisée et comment vos renseignements seront recueillis et utilisés.

Consentement – cela est rare, mais nous devons parfois associer vos renseignements personnels à vos réponses pour répondre aux objectifs de l'étude et les transmettre au client, auquel cas nous vous demanderons expressément votre autorisation au moment de la collecte de données. Chaque fois que nous réalisons une étude, vous avez la possibilité de ne pas y participer.

Limitation de la collecte – nous recueillons seulement les données dont nous avons besoin pour satisfaire aux objectifs de nos études.

Limitation de l'utilisation, de la communication et de la conservation – nous ne conservons les renseignements personnels qu'aussi longtemps que nécessaire pour répondre aux fins auxquelles ils ont été recueillis.

Exactitude – nous visons à garantir les plus hauts niveaux d'exactitude et de qualité possibles dans tous les aspects de la collecte et de l'analyse de données.

Mesures de sécurité – nous protégeons tous les renseignements personnels recueillis dans le cadre de nos études de recherche au moyen de mesures de sécurité physiques et technologiques.

Transparence – toutes les questions concernant notre politique de confidentialité et les procédures qui s'y rapportent peuvent être adressées à notre responsable de la protection des renseignements personnels.

Accès aux renseignements personnels – toute personne qui a participé à l'une de nos études peut avoir accès à ses renseignements personnels dans les trente (30) jours suivant la présentation d'une demande à cet effet à notre responsable de la protection des renseignements personnels.

Possibilité de porter plainte à l'égard du non-respect des principes – il est possible en tout temps de porter plainte ou de remettre en question notre politique de confidentialité et notre conformité à celle-ci en communiquant avec notre responsable de la protection des renseignements personnels.

Une explication détaillée de l'ensemble des normes et des politiques auxquelles Elemental Data Collection Inc. adhère se trouve sur le site Web du Conseil de recherche et d'intelligence marketing canadien (CRIC) CRIC (Conseil de recherche et d'intelligence marketing canadien) site web. De plus, Elemental Data Collection Inc. respecte les normes pour la conduite des recherches sur l'opinion publique du gouvernement du Canada. – Telephone and en ligne Enquêtes qui décrivent en outre nos responsabilités en matière de confidentialité ici.

De quoi vous souvenez-vous à propos de cette publicité?

**POSER À TOUS LES RÉPONDANTS.****ON PEUT AJOUTER ICI DES QUESTIONS PRÉCISES À LA CAMPAGNE POUR ÉVALUER LES ATTITUDES ET LES COMPORTEMENTS.****T1D:**

Au moyen d'une échelle de cinq points, où « 1 » signifie pas du tout, « 5 », tout à fait, et le point milieu, « 3 », modérément, dans quelle mesure faites-vous confiance aux vaccins recommandés pour les enfants?

- 1 Pas du tout
- 2
- 3 Modérément
- 4
- 5 Tout à fait
- Je ne sais pas

**T1E :** Lequel des énoncés suivants représente le mieux votre position au sujet des vaccins pour votre (ou vos) enfant(s)] [Population générale : remplacer « votre (ou vos) enfant(s) » par « enfants »]

- J'accepte ou j'accepterai tous les vaccins recommandés et je n'ai pas de doutes ni de préoccupations concernant la vaccination [ASK T1F]
- J'accepte ou j'accepterai tous les vaccins recommandés, mais j'ai des doutes et préoccupations concernant la vaccination [ASK T1F]
- J'ai refusé ou je refuserai ou j'ai retardé ou retarderai l'administration de certains vaccins [ASK T1G]
- Je n'ai pas encore pris de décision face à la vaccination pour mon (mes) enfant(s) [ASK T1G]
- J'ai refusé ou je refuserai **certains** des vaccins recommandés [ASK T1G]
- J'ai refusé ou je refuserai **tous** les vaccins recommandés[ASK T1G]
- Je ne sais pas

**T1F :**

Quelle est (quelles sont) la (les) principale(s) raison(s) pour laquelle (lesquelles) vous [avez des hésitations par rapport à/êtes contre] la vaccination de votre (vos) enfant(s)? (Veuillez choisir toutes les réponses qui s'appliquent.) [Population générale : remplacer « de votre (vos) enfant(s) » par « des enfants »)

- Préoccupations au sujet des effets secondaires
- Manque d'information sur les ingrédients des vaccins
- Méfiance à l'égard des sociétés pharmaceutiques
- Croyance que l'immunité naturelle est meilleure
- Informations transmises par des amis ou membres de la famille
- Autre raison (veuillez préciser)

**T1G :**

Quelle est (quelles sont) la (les) principale(s) raison(s) de faire vacciner votre (vos) enfant(s)? (Veuillez choisir toutes les réponses qui s'appliquent.) [Population générale : remplacer « votre (vos) enfant(s) » par « les enfants »)

- Recommandations de professionnels de la santé, tels que des médecins
- Confiance dans les normes d'innocuité des vaccins de Santé Canada appliquées au Canada
- Avantages de l'immunité collective pour ma communauté
- Renseignements clairs sur les ingrédients des vaccins
- Efficacité éprouvée des vaccins pour prévenir et atténuer les maladies
- Informations transmises par des amis ou membres de la famille
- Autre raison (veuillez préciser)

**T1H :**

Au cours des douze derniers mois, avez-vous cherché des renseignements au sujet des vaccins pour enfants?

- Oui
- Non
- Je ne m'en souviens pas
- Je ne sais pas

**T1I :**

Veuillez indiquer à quel point vous êtes d'accord ou en désaccord avec chaque énoncé. En général...

**[COLONNES]**

Tout à fait d'accord  
Plutôt d'accord  
Plutôt en désaccord  
Pas du tout d'accord  
Je ne sais pas  
Je préfère ne pas répondre

**[LIGNES, ORDRE ALÉATOIRE]**

...les vaccins pour enfants sont sécuritaires.  
...les vaccins pour enfants sont efficaces.  
...les vaccins pour enfants sont importants pour protéger la santé de mon enfant. [Population générale : remplacer « de mon enfant » par « des enfants »]

**T1J :**

Quel impact la pandémie de COVID-19 a-t-elle eu, s'il y a lieu, sur votre niveau de préoccupation à l'égard de :

**[COLONNES]**

Je suis beaucoup moins préoccupé(e) maintenant  
Je suis un peu moins préoccupé(e) maintenant  
Mes préoccupations sont semblables à auparavant  
Je suis un peu plus préoccupé(e) maintenant  
Je suis beaucoup plus préoccupé(e) maintenant  
Je ne m'en souviens pas  
Je ne sais pas  
Je préfère ne pas répondre

**[LIGNES, ORDRE ALÉATOIRE]**

Les vaccins recommandés pour les enfants  
Le risque que posent les autres maladies infectieuses (p. ex., rougeole, oreillons, méningite, diphtérie, etc.)

**T1K : [Ne poser la question qu'aux répondants du groupe 1 ou 2]**

La pandémie de COVID-19 a-t-elle influencé la probabilité que vous fassiez administrer à votre (vos) enfant(s) les vaccins recommandés pour les enfants? Diriez-vous que :

Vous êtes plus susceptible de lui (leur) faire administrer les vaccins recommandés pour les enfants  
Vous êtes moins susceptible de lui (leur) faire administrer les vaccins recommandés pour les enfants  
La pandémie n'a pas changé la mesure dans laquelle vous êtes susceptible de lui (leur) faire administrer les vaccins recommandés pour les enfants
