To Whom It May Concern:

As a pediatrician with special interests in preventative naturopathic and herbal medicine for the wellness of children, it was my great pleasure to become acquainted with the works of George Kasey, founding member of Anti-Nutrients Anonymous - AKA "Junk Food" (Sucrose) Addicts Anonymous. A Twelve Step Program for recovery from Sucrose and other anti-nutrient addictions.

The breadth and scope of the corpus of Mr. Kasey's inquiry into the philosophy of preventative healing that include innovative thinking in the fields of Environmental Anthropology, Ethics of Technology - or Technethics, Population Control Theory and Media Ethics, are indeed astounding.

He is an independent and innovative educator, with a profound ability to transfer the ancient traditional teachings of east and west, to the willing adept.

I am grateful to have had the experience of working and studying with him.

For further information please feel free to contact me.

Sincerely,

Jianhua Qin
