MFT\_VFU Bcc et al:

Dear Readers of MFT,VFU Students and Mentors and Member MediaA/ANA (JFA) et al:

MFT\_VFU has uploaded MFTv32n1 via BeInSync peer to peer access service so that you will be able to interact with updates for new study material and MediaA/ANA12 Step meeting info. and so on.

Please note that various privileges in three categories have been assigned to your e-mail address. These are: viewer, participant, administrator.

We are currently negotiating for lecture/meeting space at OIS and the price is 50\$ per two hour period. We would like to have foundation course "**Artificial Ignorance and Media Ethics**" meetings once per week for the entire semester. We will also have 12 step meetings for **ANA** (Anti-nutrients Anonymous AKA Sugar "Junk Food" Anonymous) and **MediaA** (Media Anonymous) for members after the study periods.

We need you to send in your course registration donations as a seventh tradition now. The suggested donation for the foundation course is one thousand dollars US, however any amount will be gratefully accepted. In Huxley's "**Brave New World**" the problem was not that the citizens on **Soma** were laughing and not able to think, but that they did not know why they were laughing and they could not think.

We do not provide accredited university approved credits at VFU, but we do guarantee that at the end of the foundation course you will know "why you are laughing and what it was that was preventing you from thinking."

Please be advised that the course will be canceled if we do not cover our operating costs and promotional expenses.

The donation form is on:

Thank you

gk/MFT\_VFU, MediaA, ANA founding member trusted servant

ps.: if you think you know why you are laughing now and that you are capable of thinking now, think again.
