TEST PITS

Look, I don't care  
how you interpret it.  
Every design to  
break the earth's skin  
deserves a couple good tests,  
the deeper the better.  
You can say  
you're checking for soil  
structure, bedrock  
or groundwater,  
or you can admit  
that you wish  
to consult the gods down there.
