## **Introduction to the *Public Accounts of Canada***

### **Nature of the *Public Accounts of Canada***

The *Public Accounts of Canada* is the report of the Government of Canada prepared annually by the Receiver General, as required by section 64 of the *Financial Administration Act*. It covers the fiscal year of the Government, which ends on March 31.

The information contained in the report originates from two sources of data:

- the summarized financial transactions presented in the accounts of Canada, maintained by the Receiver General; and
- the detailed records, maintained by departments and agencies.

Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

### **Format of the *Public Accounts of Canada***

The *Public Accounts of Canada* is produced in three volumes.

**Volume I** presents the audited consolidated financial statements of the Government, as well as additional financial information and analyses;

**Volume II** presents the financial operations of the Government, segregated by ministry; and

**Volume III** presents supplementary information and analyses.

The content of Volume II is summarized as follows:

#### **Summary Tables and Appendices (Section 1)**

Section 1 includes summary tables which provide the summaries of the financial transactions contained in the ministerial sections.

Section 1 also includes, as appendices, the full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all authorities available from previous years, of all non-lapsing authorities granted/repealed in the current year, and of all authorities for the spending of proceeds from the disposal of surplus Crown assets.

## Ministerial Sections (Sections 2 to 25)

There is one section for each ministry. The department and agencies, for which a Minister is responsible to Parliament, are grouped together to provide a total ministry presentation. Each ministerial section provides a statement of the strategic outcomes and program descriptions. Each ministerial section also includes, where applicable, a uniform set of statements to present each ministry's financial operations. These statements are:

- *Ministry Summary*  
Displays by department and agencies the source and disposition of each budgetary and non-budgetary authority granted by Parliament in Appropriation Acts and other statutes.
- *Budgetary Details by Allotment*  
Displays by department and agencies a distribution of budgetary appropriations by allotment as approved by Treasury Board pursuant to section 31 of the *Financial Administration Act*, together with related current year expenditures. Relevant details provided in this statement is explained below:
  - Frozen allotments are created when departments and agencies are directed to lapse funds or when access to funds is restricted until a specific condition is met. Frozen allotments are created for a variety of reasons including the reprofiling of initiatives to future years.
  - Special Purpose Allotments are used to restrict the use of funds to specific programs or initiatives. These restrictions prevent departments and agencies from reallocating special purpose funding to other priorities.
  - Lapsed or (overexpended) is calculated as the total authority available for use in the current year less the total of a) the amount used in the current year and b) the amount available for use in subsequent years. The calculated lapse, also known as “gross lapse”, includes funding placed in a Frozen Allotment or in a Special Purpose Allotment.
- *Programs*  
Displays by department and agencies the total authorities available for use and the authorities used in the current year for each program under each type of expenditure (operating, capital, transfer payments and non-budgetary).
- *Transfer Payments*  
Displays by department and agencies the source and disposition of authorities for each transfer payment.
- *Details of Respendable Amounts*  
Displays by department and agencies the nature of revenues and receipts which increase the amounts which may be spent from appropriations having net voting authority.
- *Revenues*  
Displays by department and agencies the nature of revenues under each main revenue classification.

The statements in the ministerial sections are designed so that the relevant totals and sub-totals may be traced directly to a preceding statement and then to the Summary Tables in Section 1 (e.g. data in the *Transfer Payments* statement can be traced to the *Programs* statement which in turn can be traced to the *Ministry Summary* statement; data in the *Ministry Summary* statement can be traced to the *Summary Tables* (5, 6 and 7) in Section 1).

Volume II is designed to reflect as closely as possible the form and content of Part II of the Main Estimates. Certain Summary Tables and Appendices and the *Ministry Summary* in the Ministerial Sections display the source and disposition of spending authorities. The level of details provided for the source and disposition of authorities is explained below:

- **Source of Authorities**

- *Available from previous years*

Spending authorities allowed to be brought forward from the previous year. Includes only those authorities where there is a specified dollar limit on total spending, or on the accumulated outstanding balance of items where revenues and receipts are available for spending. Usually these items represent revolving funds, proceeds from the disposal of surplus Crown assets or loans authorities. These amounts are available for spending without further approval from Parliament.

- *Main and Supplementary Estimates*

Include the spending authorities requested in the Estimates as well as forecasts included in the Estimates of spending under authorities granted in various other statutes including Appropriation Acts of previous years.

- *Adjustments, warrants and transfers*

Include:

- transfers from or to other ministries such as Treasury Board Votes 5, 10, 15, 25, 30 and 33 or changes in ministry responsibility;
- transfers within the ministry from one vote to another (under Parliamentary authority), or between transfer payments;
- any unexpended amounts from or to other ministries as deemed appropriations pursuant to section 31.1 of the Financial Administration Act;
- changes to statutory amounts due to adjustments of spending forecasts included in the Estimates, due to cancellation or amendment to statutes or due to adjustments of Crown corporations borrowing authorities;
- amounts of previous years' over expenditures paid or settled in the current year and proceeds from the disposal of surplus Crown assets;
- Governor General Special Warrants to cover payments that are required when Parliament is dissolved for a general election.

- *Total available for use*

Authorities available for spending during the current year (net of forecasted revenues and receipts available for spending).

- **Disposition of Authorities**

- *Used in the current year*

Amounts spent in the current year (net of actual revenues and receipts available for spending).

- *Lapsed (variance under)*

The amount of the lapse is the total authority available for use in the current year less the total of a) amount used in the current year and b) the amount available for use in subsequent years.

- *Overexpended (variance over)*

Excess of spending over authorities granted.

- *Available for use in subsequent years*

Unused spending authorities which have not lapsed and which are carried forward to a subsequent year.

- *Used in the previous year*

Amounts spent in the previous year (net of actual revenues and receipts available for spending). For authorities or transfer payments that no longer exist in the current year, the related total net expenditures of the previous year are reported as a single amount in line with the notation “Appropriations (items) not required for the current year”.

<sup>1</sup> Transfer payments for employment insurance are reported in Table 2a.

<sup>2</sup> Includes the guaranteed income supplement and the spouse's allowance.

<sup>3</sup> Includes transfer payments for Canada child benefits.

Table 2a

## Recapitulation of external expenses by type

Table 2a reconciles total ministerial net expenditures (Table 2) with external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments and the elimination of internal expenses.

(in thousands of dollars)

Note: If no amount is shown, either the expenditures were less than \$500 or none were reported.

**Table 3**  
**Ministerial expenditures by standard object**

Table 3 presents expenditures by standard object for each ministry on both a gross and net basis. The difference between gross and net expenditures is revenues netted against expenditures. The standard object presentation of expenditures is related to the goods and services acquired, and transfer payments made by the Government. The "Total gross expenditures" column represents the total of expenditures charged to standard objects 1 to 12 inclusively. The "Total ministerial net expenditures" column represents the result of total gross expenditures less total revenues netted against expenditures. The "Total ministerial net expenditures" column discloses the total expenditures reported for each ministry in the ministerial sections of this volume.

Table 3a reconciles total ministerial net expenditures with external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I.

(in thousands of dollars)

**Table 3a****Reconciliation of external expenditures by standard object to expenses**

Table 3a reconciles total ministerial net expenditures (Table 3) with total external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments, and the elimination of internal expenses and internal revenues netted against expenses.

(in thousands of dollars)

**Table 4****Ministerial revenues**

Table 4 presents revenues for each ministry. The “Total ministerial revenues” column represents revenues from all sources. This column represents tax and other revenues from both external and internal sources. It discloses total ministerial revenues as reported in the “Revenues” statement in each ministerial section of this volume.

Table 4a reconciles total ministerial revenues with external revenues reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I.

Note: If no amount is shown, either the revenues were less than \$500 or none were reported.

<sup>1</sup> Additional details are provided in Section 10 of Volume III. The total amount includes \$997,787 of return on investments, \$1,999,904 related to foreign exchange revenues (\$1,996,259 for Exchange Fund Account and \$3,645 for International Monetary Fund), and \$3,077,664 related to enterprise Crown corporations. The amounts related to foreign exchange revenues and Crown corporation revenues have been respectively reclassified in Table 4a of this volume.<sup>2</sup> Details of Sales of goods and services are presented in Table 4b of this volume.<sup>3</sup> Includes domestic coinage for \$137,903 and net gain on exchange for \$178,275. The amount of \$178,275 has been reclassified to foreign exchange revenues in Table 4a of this volume.<sup>4</sup> The transition payments for implementing salary payments in arrears were transferred to a central account administered by Pay Operations and Service Management Directorate which is not a department listed in the *Financial Administration Act*, but it is a directorate within the department Public Works and Government Services Canada performing a central administration support function for the whole of government.

**Table 4a****Recapitulation of external revenues by source**

Table 4a reconciles total ministerial revenues (Table 4) with external revenues reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume 1. The reconciling items include the revenues from the consolidated specified purpose accounts, the accrual of accounts receivable and the adjustment of the Exchange Fund Account to recognize the international reserves held in the Account, the accrual and deferral of other revenues, the revenues of Crown corporations and other entities, tax credits and repayments and the elimination of internal revenues.

**Table 7****Source and disposition of authorities by type (voted and statutory)**

Table 7 presents the source and disposition of budgetary and non-budgetary authorities by ministry and by type of authority (voted and statutory). The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the “Ministry Summary” statement in each ministerial section of this volume.

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the “Main Estimates” and additional requests are called “Supplementary Estimates”. With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in Appropriation Acts and are generally referred to as “annual” or “voted” authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these “statutory” authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Voted authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as “non-lapsing”.

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

## Appendix 5

## Authorities for the spending of proceeds from the disposal of surplus Crown assets

Appendix 5 provides details, by ministry, of the source and disposition of authorities related to the spending of proceeds from the disposal of surplus Crown assets.

Pursuant to sections 13(2) and 14 of the *Surplus Crown Assets Act*, departments as defined in section 2 of the *Financial Administration Act* (excluding the House of Commons, the Senate, the Library of Parliament, the Office of the Conflict of Interest and Ethics Commissioner, the Senate Ethics Officer and the International Joint Commission) are authorized to establish a spending authority equal to the proceeds received from the disposal of surplus Crown assets. The proceeds received in any fiscal year that have not been spent in that fiscal year are carried forward to the next fiscal year for use in that fiscal year only. The amount carried forward is however subject to a maximum limit.

- **Program**—Internal Services

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Material services; Acquisition services; and Travel and other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

## **Department of Agriculture and Agri-Food**

### **Strategic outcome 1**

A competitive and market-oriented agriculture, agri-food and agri-based products sector that proactively manages risk.

#### **Program 1.1**—Business Risk Management

Agriculture and Agri-Food Canada has a comprehensive suite of Business Risk Management programs to better equip producers with the tools and capacity to manage business risks. This suite provides support for income losses, a disaster-relief framework and insurance to protect farmers against production losses due to uncontrollable natural hazards, as well as research, development, implementation, and administration of new agricultural risk management tools. In addition to the Business Risk Management suite, Agriculture and Agri-Food Canada provides producers with the ability to market their products when conditions and prices may be more favourable through loan guarantee programs.

#### **Program 1.2**—Market Access, Negotiations, Sector Competitiveness, and Assurance Systems

Agriculture and Agri-Food Canada supports and equips industry for commercial success in order to maximize the sector's long-term profitability and competitiveness. In pursuing this objective, and in close collaboration with the Canadian agriculture, agri-food and agri-based products sector, Agriculture and Agri-Food Canada works to enhance access to markets, facilitates industry-led activities aimed at developing international markets and assurance systems, and provides information to help position industry to capitalize on market opportunities both at home and abroad. Assurance systems include systems, standards and tools for food safety, biosecurity, traceability, surveillance, animal welfare, and other market attributes.

#### **Program 1.3**—Farm Products Council of Canada

Established under the Farm Products Agencies Act, the Farm Products Council of Canada is an oversight body that reports to Parliament through the Minister of Agriculture and Agri-Food (the Minister). The Farm Products Agencies Act provides for the creation of national marketing agencies, which are not subject to the Competition Act, as well as promotion and research agencies. The Farm Products Council of Canada supervises these agencies, and works with them to ensure that the supply management system for poultry and eggs and promotion-research activities for beef cattle work in the balanced interest of all stakeholders, from producers to consumers, and can evolve to respond to current and future challenges. The Farm Products Council of Canada also provides advice and recommendations to the Minister, collaborates with provincial supervisory boards and actively works with the Department and Agriculture and Agri-Food Portfolio organizations.

## **Strategic outcome 2**

An innovative and sustainable agriculture, agri-food and agri-based products sector.

### **Program 2.1—Science, Innovation, Adoption and Sustainability**

Agriculture and Agri-Food Canada contributes to innovation and sustainability of the agriculture, agri-food and agri-based products sector through science and associated activities designed to improve profitability in new and existing products, services, processes, and markets. Agriculture and Agri-Food Canada provides research, development and knowledge transfer that enhance the sector's resiliency, foster new areas of opportunity for the sector and support sector competitiveness, as well as coordinated and informed decision making. Agriculture and Agri-Food Canada promotes integrated planning, engaging industry, government and academia, and collaborative action to accelerate the flow of science and technology along the innovation continuum in support of industry-defined strategies for future success. Farmers, agri-entrepreneurs and agri-based enterprises are supported in their efforts to adopt new technologies and commercialize new products and services. Pathfinding and transformational research help to define future sustainable opportunities and prepare the sector for emerging opportunities and challenges.

### **Program 2.2—Industry Capacity**

This program helps build the capacity of the sector and businesses to sustainably succeed in a market-driven and competitive world. The program encourages the use of sound business management practices, while also enabling businesses in the sector to understand their financial situation, be profitable and invest where needed. It provides for enhanced participation by young or new entrants, First Nations clients, and clients in specific sub-sectors in transition. The program also supports the sector and its businesses to improve access to key infrastructure.

### **Program 2.3—Canadian Pari-Mutuel Agency**

Section 204 of the Criminal Code of Canada designates the Minister of Agriculture and Agri-Food responsible for making the regulations that direct the lawful conduct of pari-mutuel betting in Canada on horse racing. The Canadian Pari-Mutuel Agency is a special operating agency within Agriculture and Agri-Food Canada that approves and supervises pari-mutuel betting conducted at racetracks and betting theatres across Canada, with the objective of ensuring that betting is conducted in a way that is fair to the betting public. Costs associated with the activities of the Canadian Pari-Mutuel Agency are recovered through a levy on every dollar bet in Canada on horse races. The levy is currently set at eight-tenths of a cent of every dollar bet. Canadian Pari-Mutuel Agency's strategic plans are focused on regulating and supervising pari-mutuel betting on horse races in the most modern, effective and transparent manner.

## **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

- **Program 3.1—Internal Services**

See introductory text.

## **Canadian Dairy Commission**

### **Strategic outcome 1**

To enhance the vitality of the Canadian dairy industry for the benefit of all stakeholders.

**Program 1.1**—Administer milk supply management system

Set support prices for butter and skim milk powder. Determine and recommend National quota for industrial milk production. Facilitate within the dairy industry. Administer Domestic Seasonality (supply and demand) Program.

**Canadian Grain Commission**

**Strategic outcome 1**

Canada's grain is safe, reliable and marketable and Canadian grain producers are properly compensated for grain deliveries to licensed grain companies.

**Program 1.1**—Grain Quality Research Program

The *Canada Grain Act* requires the Canadian Grain Commission to undertake, sponsor and promote research related to grains. The Canadian Grain Commission conducts research in support of Canada's grain quality assurance system to address emerging issues and facilitate the effective marketing of Canadian grain in domestic and international markets. The Canadian Grain Commission's Grain Research Laboratory researches factors affecting the quality and safety of grain and grain-based products as well as procedures and technologies to quantify those factors. Research in the Grain Research Laboratory forms the basis of grade specifications. This program benefits not only the agricultural sector, but also Canadians as consumers of grain products. Close collaboration with Canadian and international scientific, academic, analytical, grain industry organizations, as well as other Canadian government departments (e.g., Agriculture and Agri-Food Canada, Canadian Food Inspection Agency, Health Canada) ensures that the Canadian Grain Commission remains abreast of new research developments and is able to adapt research priorities to emerging challenges. The grain quality research program is funded by a combination of revolving fund revenue and appropriations.

**Program 1.2**—Quality Assurance Program

The Canadian Grain Commission's quality assurance program is delivered pursuant to the *Canada Grain Act* and the Canada Grain Regulations. This program assures consistent and reliable grain quality that meets the needs of international and domestic markets. Grain quality refers to end-use processing quality, grain safety and cleanliness, and, in some cases, the composition of varieties in shipments of grain. Provision of grain inspection, grain safety, grain sanitation, grading and analytical services, as well as strong scientific and technical support programs and services are integral components to the overall delivery of an effective quality assurance program. The program includes a complaints resolution process for resolving customer complaints and disputes with respect to grain quality assurance. An effective grain quality assurance program is a key factor in permitting Canadian exporters to market successfully in competitive international grain markets and is essential for producers to realize maximum value from their grain. The quality assurance program is funded by revolving fund revenue.

**Program 1.3**—Quantity Assurance Program

The Canadian Grain Commission's quantity assurance program is delivered pursuant to the *Canada Grain Act* and the Canada Grain Regulations. The services delivered under this program facilitate the official weighing of export shipments of grain discharged from terminal elevators and the issuance of accompanying quantity assurance documentation. This program ensures international grain buyers and end users that Canadian export grain shipments are accurately weighed and that the weighed product is delivered to conveyances as reported on Canadian Grain Commission documentation. The program includes validation of weighing process documentation and weighing device records, establishing and maintaining a weighing systems certification program, and providing input into weighing equipment requirements to ensure accurate weighing of grain shipments from terminal elevators. The quantity assurance program is funded by revolving fund revenue.

#### **Program 1.4—Producer Protection Program**

Pursuant to the *Canada Grain Act* and Canada Grain Regulations, the Canadian Grain Commission has implemented a number of programs and safeguards to ensure that grain producers are properly compensated for grain delivered to licensed grain companies. These include the licensing and security program, allocation of available producer cars for producers and producer groups that wish to ship their own grain, and producer liaison measures including education and a grain grade reinspection system. In addition, the Canadian Grain Commission collects and updates grain quality data and grain handling information to facilitate producer sales and marketing decisions. The producer protection program is funded by revolving fund revenue.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

#### **Farm Credit Canada**

#### **Strategic outcome 1**

Farm Credit Canada supports the federal government's vision for continued growth and prosperity in the agriculture industry.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Canadian Heritage**

**Strategic outcome 1**

Canadians share, express and appreciate their Canadian identity.

**Program 1.1—Official Languages**

Canadian Heritage plays an important role in the horizontal coordination of official languages within the federal government and especially with respect to coordination and support to federal institutions in the implementation of the government's commitment towards the development of official-language minority communities and the promotion of linguistic duality, pursuant to section 42 of the *Official Languages Act*. Canadian Heritage is also responsible for the planning, implementation and management of the Official Languages Support Programs pertaining to the promotion of linguistic duality within Canada and the development of official-language minority communities, in accordance with section 43 of the *Official Languages Act*. These activities contribute to achieving the following Government Outcome: "A diverse society that promotes linguistic duality and social inclusion".

**Program 1.2—Multiculturalism**

In accordance with the *Canadian Multiculturalism Act*, the Multiculturalism Program seeks to: build an integrated, socially cohesive society; improve the responsiveness of institutions to the needs of a diverse population; and engage in discussions on multiculturalism, integration and diversity at the international level. To advance these objectives, the Multiculturalism Program: provides grants and contributions to not-for-profit organizations, the private sector, non-federal public institutions, and individuals; conducts direct public outreach and promotional activities; helps federal institutions to meet their obligations under the Act; supports the annual tabling in Parliament of a report on the operation of the Act; and engages non-federal public institutions seeking to respond to diversity. The Multiculturalism Program also supports Canada's participation in international agreements and institutions.

**Program 1.3—Attachment to Canada**

This Program strengthens Canadian identities by promoting pride and a shared purpose among Canadians. It celebrates and commemorates Canada and enhances understanding of shared values, cultural diversity and knowledge of Canada. Also, it promotes civic education and participation among Canadians, including youth, as well as provides them with the opportunity to learn about and understand Canada's society, diversity, history and institutions. This is achieved through delivering programs and services in the form of grants and contributions. The core concept of this program is to promote knowledge and experiences of Canada among Canadians.

**Program 1.4—Engagement and Community Participation**

This Program aims to engage Canadians and provide them with opportunities to participate in the civil, social and cultural aspects of life in Canada and in their communities. This is accomplished through funding programs and initiatives that support the efforts of communities to build stronger citizen engagement, social inclusion, and collaboration through a variety of activities, including events marking the 150th anniversary of Confederation; and through local arts and heritage; contribute to increasing

the respect for and awareness of human rights in Canada; and develop innovative and culturally appropriate initiatives to support the efforts of Aboriginal communities in the revitalization and preservation of their languages and cultures. This Program has strong social benefits, as it contributes to the preservation of the history and identity of Canada's diverse communities, while offering a way for traditions and identities to evolve over time. The Program supports the Department's mandate to strengthen Canadian identity and values, and build attachment to Canada.

## **Strategic outcome 2**

Canadian artistic expressions and cultural content are created and accessible at home and abroad.

### **Program 2.1—Cultural Industries**

This Program supports Canadian cultural industries in adapting to a changing and challenging global marketplace. This is achieved through the delivery of grants, contributions and tax credits as well as policy, regulatory and legislative measures. Fostering the competitiveness and creative output of these industries ensures that Canadian and international audiences access a range of Canadian content across a variety of formats and platforms and contributes to the Canadian economy.

### **Program 2.2—Arts**

This Program improves Canadians' opportunities to engage with the arts, contributes to the resilience of the arts sector and deepens the connections between cultural organizations and their communities. This program encourages access and participation, resilience and excellence in the arts for all Canadians by supporting institutions that offer artists and performers training of the highest calibre in preparation for professional careers, the presentation of professional arts festivals or performing arts series, the improvement of arts and heritage infrastructure, the improvement of business practices of arts and heritage organizations, and the development of partnerships in the sector. Policy, legislative and regulatory measures targeting the Canadian arts sector also further this program's objectives.

### **Program 2.3—Heritage**

The Heritage Program ensures that Canada's cultural heritage is preserved and accessible to Canadians today and in the future. It enables the heritage sector to improve professional knowledge, skills and practices, to preserve and present heritage collections and objects, and to create and circulate exhibitions and other forms of heritage content. This is accomplished by providing funding such as grants, contributions and tax incentives; information, expertise, training and other services; and regulatory and legislative measures. The primary goal of this Program is to promote the preservation and presentation of Canada's cultural heritage.

## **Strategic outcome 3**

Canadians participate and excel in sport.

### **Program 3.1—Sport**

This Program promotes development and excellence in sport among Canadians and Canadian communities through initiatives that provide direct support to Canadian high-performance athletes; enhance Canada's ability to host the Canada Games and international sport events in Canada; support the development of excellence in the Canadian sport system; and contribute to increasing participation in sport by Canadians of all ages and abilities. The core concept of this Program is to enhance and promote Canadian participation and excellence in sport, by providing funding, expertise and other services to Canadian athletes, sport organizations, stakeholders and event organizers.

## **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

### 3.4 Canadian Heritage

Public Accounts of Canada, 2016-2017

#### **Program 4.1—Internal Services**

See introductory text.

#### **Canada Council for the Arts**

##### **Strategic outcome 1**

A vibrant and dynamic arts sector in Canada.

##### **Program 1.1—Grants and services to support creation, production and dissemination of arts for individuals and organizations**

Provides grants and services to professional Canadian artists and arts organizations.

##### **Program 1.2—Arts promotion to foster public knowledge and appreciation of the Canadian arts and culture**

To encompass all activities within the organization for the promotion of arts at the national and international levels including partnerships and networks with multiple stakeholders, rental of art works, recognizing artistic excellence with our different prizes.

##### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

#### **Canadian Broadcasting Corporation**

##### **Strategic outcome 1**

A national public broadcasting service exists that is primarily Canadian in content and connects citizens to the Canadian experience.

##### **Program 1.1—Television, Radio and Digital Services**

As mandated in the 1991 *Broadcast Act* Canadian Broadcasting Corporation/Radio-Canada provides a comprehensive range of national, regional and local radio, television, and digital services for Canadians. This incorporates programming that informs, enlightens and entertains in English, French, Aboriginal languages, and in foreign languages on Radio Canada International. Execution of these services is tailored to the uniqueness of the markets served.

##### **Program 1.2—Transmission and Distribution of Programs**

The distribution of the national broadcasting service to Canadians in virtually all parts of Canada through satellite, microwave and landlines. Included is the provision of the signal that delivers service to the individual radio and television receivers through Canadian Broadcasting Corporation /Radio-Canada transmitters, payments to privately-owned affiliates carrying Canadian Broadcasting Corporation /Radio-Canada programs, and facilities to delay or pre-release broadcasts as required in the different time zones of the country.

### **Program 1.3—Specialty Channels for Specific Audiences**

A variety of English and French television channels distributed through satellite and cable that target a specific audience segment and are key in delivering distinctive, high-quality and popular programming to Canadians. The incremental costs of operations are funded from revenues generated.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Museum for Human Rights**

### **Strategic outcome 1**

Enhanced knowledge of human rights, with special but not exclusive reference to Canada, in order to enhance the public's understanding of human rights, to promote respect for others and to encourage reflection and dialogue.

### **Program 1.1—Museum Content and Program**

In becoming the world's first museum dedicated to the exploration of human rights, the Canadian Museum for Human Rights is breaking new ground; there is no precedent for a museum of this nature. In its early years, the primary focus of this activity will be on establishing an innovative and unique public program that includes developing a sound research and scholarship capacity; accessible and engaging exhibits and educational programming that promote reflection and dialogue; a strong capacity of national outreach, engagement and service to Canadians; and strong Marketing and Communications to ensure a high level of awareness about the Canadian Museum for Human Rights and its programs and services.

### **Program 1.2—Stewardship and Corporate Management**

The Stewardship and Corporate Management Program is aimed at ensuring the private and public funds invested in the Museum are managed in a transparent, accountable manner; that resources are effectively deployed, developed, directed, administered and controlled; and that the corporation optimizes the value it contributes to Canadians and Canadian society.

### **Program 1.3—Accommodation**

The focus of this program in the early years will be to manage all stages of the capital construction project – including choosing the final design – leading to its commissioning and public opening. The Board will be fully accountable for overseeing all aspects of the building project, including choosing the final design, establishing the time-frames for construction and managing risks throughout. Prior to the opening of the facility, the Museum will also be establishing the appropriate mechanisms to provide for effective, efficient operations and maintenance and its ongoing security, accessibility and sustainability.

## Canadian Museum of History

### Strategic outcome 1

Interest in, knowledge of and appreciation and respect for human cultural achievements and human behaviour through collections of historical and cultural objects, exhibitions, programs and research reflecting a Canadian perspective.

#### Program 1.1—Accommodation

Managing and maintaining all facilities and related security and hosting services.

#### Program 1.2—Exhibit, Educate and Communicate

Develops, maintains, and communicates exhibits, programs and activities to further knowledge, critical understanding, appreciation and respect for human cultural achievements and human behaviour.

#### Program 1.3—Collect and Research

Manages, develops, conserves and undertakes research on the collections to enhance program delivery and augment the scientific knowledge base.

### Strategic outcome 2

The following program supports all strategic outcomes within this organization.

#### Program 2.1—Internal Services

See introductory text.

## Canadian Museum of Immigration at Pier 21

### Strategic outcome 1

Canadians are engaged in building and exploring the stories, themes and history of Canadian immigration as it continues to unfold.

#### Program 1.1—Accommodations

The Accommodation Program provides secure and functional facilities that meet all safety and building code requirements including a renovated Museum facility that furthers the vision and mandate of the Museum. It ensures that the Museum's leased facilities: support the realization of the Museum's mandate; contribute to a rich, welcoming and engaging visitor experience; and are safe, secure and accessible. Capital improvements to the facilities optimize the use of the space for public programming, are managed prudently and respect the historic nature of the site. Accommodation includes: Leasehold Improvements and Building Operations, including Security.

#### Program 1.2—Visitor Experience and Connections

The Visitor Experience and Connections Program aims to give the Museum's audience access to rich content and programming that reflects the diverse experiences and contributions of immigrants throughout Canada's history. It is also designed to engage Canadians extensively in building and exploring these key themes by encouraging them to share their stories and to research their own family's immigration story. The Museum conducts research and presents vibrant studies of immigration to Canada through a wide variety of layered mediums including: permanent and temporary exhibitions; onsite and outreach programs; travelling exhibitions; publications; virtual

exhibitions; and other web and social media tools. Visitor Experience and Connections includes: Research and Content Development; Interpretation and Connections (including Public Programming and Exhibits); National Outreach and Partnerships; and Visitor Services and Amenities, including volunteers' activities.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Museum of Nature**

### **Strategic outcome 1**

Interest in, knowledge of and appreciation and respect for the natural world through collections of natural history objects, public education programmes and research reflecting a special but not exclusive perspective on Canada.

#### **Program 1.1—Buildings and grounds**

Provides secure and functional facilities that meet all safety and building code requirements including a renovated Museum facility that furthers the vision and mandate of the Museum.

#### **Program 1.2—Inspiration and engagement**

Develops and maintains exhibitions, programs, the nature.ca website, electronic and print publications, activities to foster and understanding of, and respect for, nature, and revenue-generating activities such as advancement, visitor services and ancillary operations.

#### **Program 1.3—Research and discovery**

Explores the past and assists Canadians in preparing for the future by conducting both systematic and applied research, as well as by developing and maintaining networks and linkages with Canadian and international scientific communities.

#### **Program 1.4—Collections care and access**

Develops, preserves and makes accessible collections of natural history specimens, objects and information materials to meet the growing needs of both the public and private sectors for research, education and informed decision-making about the natural world.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Radio-television and Telecommunications Commission**

### **Strategic outcome 1**

Canadians have access to a world-class communication system.

#### **Program 1.1—Protection within the Communication System**

Through this program, the Canadian Radio-television and Telecommunications Commission promotes compliance with and enforcement of its various laws and regulations, including unsolicited communications. It helps to ensure that Canadians have access to emergency communication services such as 9-1-1 service and alerting systems. As a result, Canadians have increased protection and benefit from a more secure communication system.

#### **Program 1.2—Connection to the Communication System**

The Canadian Radio-television and Telecommunications Commission facilitates the orderly development of a communication system for all Canadians in order to strengthen the social and economic fabric of Canada and enhance the safety and interests of Canadians. This program focuses on ensuring that Canadians can connect to a choice of accessible, innovative and quality communication services at affordable prices, and can have access to compelling and creative Canadian content.

#### **Program 1.3—Canadian Content Creation**

This program focuses on ensuring that a wealth of Canadian content is created and made available to all Canadians on a variety of platforms. Through its orders, decisions, licensing frameworks and other regulatory activities, the Canadian Radio-television and Telecommunications Commission encourages the creation of diverse programming that reflects the attitudes, opinions, ideas, values and artistic creativity of Canadians. By requiring the display of Canadian content in entertainment programming and the provision of information and analysis concerning Canada, the Canadian Radio-television and Telecommunications Commission is enabling Canadians to better participate in their country's democratic and cultural life.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Library and Archives of Canada**

### **Strategic outcome 1**

Canada's documentary heritage is preserved and accessible to current and future generations.

#### **Program 1.1—Stewardship of documentary heritage**

Library and Archives Canada manages a vast collection of materials in a wide variety of formats, both digital and analogue, to ensure their long-term preservation and accessibility. Traditional and cutting-edge archival and preservation techniques ensure the long-term preservation of relevant materials in both analogue and digital formats. The special-purpose buildings under Library and Archives Canada's custody, such as the Preservation Centre, the Nitrate Film Preservation Facility, and the high-density collection storage facility, help prevent the deterioration of records and preserve their long-term integrity. The stewardship of these records includes all management activities

and strategies aimed at ensuring the integrity, authenticity and availability of Canada's documentary heritage. There are various types of stewardship activities: those related to the physical management of the collection, such as storage; those involving restoration and preservation, which include reducing deterioration of records and repairing already damaged records; and those associated with reproduction and the making of replacement copies, which ensure the preservation and availability of records that would otherwise be too fragile to access. For digital records, innovative strategies are implemented to maintain access and to ensure that the content is protected through proper transfer and storage.

#### **Program 1.2—Access to documentary heritage**

This program aims to make Canadian documentary heritage known and available to Canadians and to anyone interested in Canada, its society or its history. By providing access, Library and Archives Canada contributes to creating new knowledge that will increase the understanding of Canadian society. This program includes the activities through which documentary heritage is digitized, described, organized, indexed and interlinked to facilitate access and meets the needs and expectations of users. The resulting digital content, databases, catalogue indexes and other tools assist users in searching the records for which Library and Archives Canada is responsible. The program also encompasses all activities to make documentary heritage available, in particular through the website and onsite. Library and Archives Canada provides information as well as consultation, reproduction and lending services in various forms to a wide range of users. These services are provided in many ways—in person, by telephone, by mail, via email or over the Internet—based on needs and preferences. Library and Archives Canada also contributes to making Canada's documentary heritage known by providing access to records under its responsibility through public programming and partnerships. The Documentary Heritage Communities Program is a contribution program that ensures the preservation of Canada's local documentary heritage, provides access to and promotes local documentary heritage communities; and provides opportunities to evolve and remain sustainable. Lastly, Library and Archives Canada contributes significantly by providing access to government records for which it has responsibility under the *Access to Information Act* and the *Privacy Act* and by providing information found in the personnel files of former civil service employees and members of the Canadian Forces.

#### **Program 1.3—Documentation of Canadian society**

One of the pillars of Library and Archives Canada's mandate is to evaluate and acquire Canada's documentary heritage to reflect Canadian society and make it available to current and future generations. Library and Archives Canada's holdings consist of published and unpublished information resources in a variety of formats and media, both analogue and digital. This program includes all activities aimed at evaluating, acquiring and processing Canada's documentary heritage, which includes ensuring its authenticity and significance to Canadians. This program results in a collection that remains relevant to Canadians. Library and Archives Canada's acquisitions are governed by legislation, as follows: the Legal Deposit of Publications Regulations and the *Library and Archives of Canada Act*, whereby Canadian publishers must deposit a copy of all their publications with Library and Archives Canada; the *Library and Archives of Canada Act*, whereby federal government records of archival and historical value must be transferred to Library and Archives Canada once their retention period has expired. Library and Archives Canada is also mandated to acquire records of archival and historical value created by private individuals, non-government organizations and the private sector that represent Canadian society—past and present. Lastly, Library and Archives Canada is mandated to acquire a representative sample of the documentary material of interest to Canada that is accessible to the public without restriction through the Internet or any similar medium.

### **Strategic outcome 2**

Current government information is managed to support government accountability.

#### **Program 2.1—Collaboration in the management of government records**

Working collaboratively with central agencies, federal departments and agencies, and other stakeholders, Library and Archives Canada plays a lead role in developing standards, tools and best practices for information management and recordkeeping. Library and Archives Canada facilitates the management of information within federal institutions by providing support, services and training through multiple activities: providing regulatory, policy, strategic and business advice on recordkeeping and records management to central agencies, other federal government institutions and intergovernmental committees; preparing and delivering training and awareness sessions to

federal public servants through seminars and forums on recordkeeping; establishing networks in the Government of Canada information management community; coordinating initiatives that support the efforts of federal libraries and their respective departments.

**Program 2.2**—Development of disposition authorizations

Library and Archives Canada supports effective recordkeeping within federal institutions by issuing records disposition authorizations. Disposition authorizations specify the records to be transferred to Library and Archives Canada at the end of their retention period (because they have archival or historical value). Other records may be alienated or disposed of by the creating institution at the end of their retention period.

**Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

**Program 3.1**—Internal Services

See introductory text.

**National Arts Centre Corporation**

**Strategic outcome 1**

Strong and dynamic performing arts in the National Capital Region and across Canada.

**Program 1.1**—Accommodation

Operating and maintaining the National Arts Centre.

**Program 1.2**—Programming

Performing arts programming in Music, English theatre, French theatre, Dance and other forms of programming, as well as programming support services.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**National Capital Commission**

**Strategic outcome 1**

Canada's Capital Region is of national significance and is a source of pride for Canadians.

### **Program 1.1—Capital Stewardship and Protection**

Through Capital Stewardship and Protection, the National Capital Commission aims to protect assets of national significance in Canada's Capital Region and to continue to enhance the Capital for future generations of Canadians. As steward of federal lands and assets in the region, the National Capital Commission rehabilitates, manages, develops, maintains and safeguards the Capital's most treasured cultural, natural and heritage assets while ensuring safe, respectful and appropriate public access is maintained. The National Capital Commission also promotes and regulates public activities on federal lands and conserves natural resources through sound environmental management. Through its involvement in land development projects, its acquisition of national interest properties and its disposal of surplus properties, the National Capital Commission is further able to ensure that its vision for the Capital is reflected in Canada's Capital Region. In order to assess whether the Capital Stewardship and Protection program is successful at protecting Capital assets for current and future generations of Canadians, the National Capital Commission monitors whether built Capital assets are accessible, safe, rehabilitated and maintained. The National Capital Commission also tracks whether the historical uniqueness of Capital heritage assets is being preserved and whether key natural areas are being safeguarded.

### **Program 1.2—Capital Planning**

The National Capital Commission guides and coordinates the use of federal lands to ensure that they inspire Canadians, meet the needs of government and reflect the role and significance of the Capital. Through long-term plans, the identification of a National Interest Land Mass and review and approval processes, the National Capital Commission is able to ensure that federal land use in Canada's Capital Region reflects and respects the significance, natural environment, and heritage of the Capital. The National Capital Commission also collaborates with federal, provincial and municipal governments on transportation issues. To ensure that federal lands, buildings and infrastructure reflect the role and significance of the Capital, the National Capital Commission monitors the efficacy of its vision, plans and policies. It also tracks whether the latter are reflected in the location, design and built form of federal assets.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **National Film Board**

### **Strategic outcome 1**

Canadian stories and perspectives are reflected in audiovisual media and accessible to Canadians and the world.

### **Program 1.1—Audiovisual production**

This program contributes to Canadians' understanding of the issues facing our country and raises awareness of Canadian viewpoints around the world. As a public sector producer, the National Film Board produces original audiovisual works that reflect diverse Canadian perspectives, including cultural, regional and aboriginal, and emanate from the diverse creators and communities that make up the country. This program operates where the private sector doesn't, allowing creators to explore artistic and technological advances in form and content. It also ensures the identification, development and nurturing of talent and creative skills, within filmmaking and other creative communities. National Film Board programming is necessary to ensure that Canadians have access to diverse voices and content in both official languages. It promotes Canadian culture and values in events of national historic and cultural significance. As Canadians' media consumption migrates online, the National Film Board provides

leadership in the creation of innovative digital content in both official languages. Production activities include the conceptualization, research, development and production of documentaries, animation films, new media content and other emerging forms.

**Program 1.2—Accessibility and Audience Engagement**

This program ensures that Canadians and world audiences are able to access, view, discuss and engage with innovative Canadian content that reflects Canadian stories and perspectives. As media consumption migrates online, Canadian content must be made available in all digital and mobile forms. Delivery mechanisms include the distribution, marketing and commercialization of audiovisual works via a diverse catalogue, a well-established stock footage library, the development of diversified markets (i.e.: theatrical, television, consumer and institutional) via online and traditional channels in Canada and abroad. These activities make works widely accessible across Canada, notably to underserved and remote communities, Aboriginal and Official language minority communities. National Film Board's accessibility and audience engagement activities contribute to a dynamic Canadian culture and heritage.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**National Gallery of Canada**

**Strategic outcome 1**

Interest in, knowledge of and appreciation and respect for visual art through collections of historic and contemporary works of art, programs and research that reflect a special but not exclusive perspective on Canada.

**Program 1.1—Accommodation**

To provide secure and suitable facilities, which are readily accessible to the public, for the preservation and exhibition of the national collections.

**Program 1.2—Collections**

To acquire, preserve, research and document historic and contemporary works of art in order to represent and present arts heritage. It includes Curatorial Research, Acquisitions and Preservation.

**Program 1.3—Outreach**

To foster broad access nationally and internationally to the Gallery's collection, research, exhibitions and expertise. It includes exhibitions, both in the National Capital Region and other venues in Canada and abroad, educational programming and publications, communications and marketing activities designed to reach as wide an audience as possible.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

## **Program 2.1—Internal Services**

See introductory text.

## **National Museum of Science and Technology**

### **Strategic outcome 1**

Interest in, knowledge of and appreciation and respect for science and technology through collections of scientific and technological objects, programs and research reflecting a Canadian perspective.

#### **Program 1.1—Accommodation**

Facilities are an integral part of museum operations. They do more than house staff; they also provide a venue for the public, and housing for the collection. Facilities have a profound effect on museum visitation. Appropriate museum architecture attracts visitors, contributes to the atmosphere and becomes a symbol of the institution's mandate. A large portion of comments by visitors allude to their satisfaction or dissatisfaction with the quality of the facilities and their related services.

#### **Program 1.2—Sharing Knowledge**

The Corporation seeks to engage Canadians in discovering, considering and questioning past and present developments in science and technology, and their impact on society and individuals. The Corporation fosters a sense of identity and belonging for all Canadians, as well as pride in Canada's scientific and technological history and achievements. It also encourages active and informed participation by Canadians in the future development of our technological society. The primary reason for interpreting Canada's scientific and technological heritage is to provide Canadians with meaningful information about themselves and Canada. Just as the Transformation of Canada theme directs research and collection activities, it likewise guides the Corporation in its knowledge dissemination activities. These typically depict the historical development of science and technology, provide information on the objects in the collection and review the relationships between science, technology and Canadian society. The Corporation disseminates knowledge to its audiences in three primary ways: through its public facilities, its Web sites and its publications.

#### **Program 1.3—Heritage Preservation**

Heritage preservation includes two main components, Collection Management, which includes preservation and conservation, and Research, which comprises those activities contributing to the building of a knowledge base about the scientific and technological heritage of Canada. The Corporation, as the only comprehensive science- and technology-collecting institution in Canada, has a special responsibility for the development of a Canadian national collection. In view of the breadth of the potential subject matter to be covered, critical choices must be made in determining collection content and priorities. Collection development activities assist the Corporation in making informed decisions on collection content, while collection management activities encompass the activities required to manage the objects accessioned into the collection. The Corporation has identified seven major subject areas on which it will focus its research activities. These are: aviation, communications, manufacturing, natural resources, renewable resources including agriculture, scientific instrumentation and transportation.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

## **Program 2.1—Internal Services**

See introductory text.

**Office of the Co-ordinator, Status of Women**

**Strategic outcome 1**

Equality between women and men is promoted and advanced in Canada.

**Program 1.1—Advancing Equality for Women**

Through this Program, Office of the Co-ordinator, Status of Women Co-ordinator supports action and innovation by investing in initiatives that work to bring about equality between women and men. The Program provides grant and contribution funding to Canadian organizations to support community-based action by carrying out projects that will lead to equality in communities across Canada. Funded projects occur at the national, regional, and local levels and work to help create conditions for success for women in Canada. Projects address the economic and social situation of women and their participation in democratic life. They are diverse in nature and scope and apply a variety of approaches and strategies to address the complexity of the issues affecting women. Specifically, the Program invests in projects that incorporate gender considerations, and increase and strengthen access to a range of opportunities, supports, information, resources and services, tools, etc. Projects work with stakeholders such as: women's and community organizations, public institutions and the private sector. The Program also facilitates collaboration, networking and partnerships to promote equality and the advancement of women in Canada. Office of the Co-ordinator Status of Women Co-ordinator facilitates networking; develops partnerships where needed to address horizontal issues impacting women and girls; shares knowledge; and assists organizations working to advance women's equality to gain access to expertise, resources, and tools.

**Program 1.2—Strategic Advice, Expertise and Promotion of Gender Equality**

Canada, in line with domestic and international instruments, has committed to advancing gender equality. This program undertakes communication activities to promote Agency initiatives and key commemorative dates (i.e. International Women's Day, Women's History Month, International Day of the Girl and the National Day of Remembrance and Action on Violence Against Women) to increase awareness/build knowledge about the status of women in Canada, as well as to engage Canadians in efforts to advance gender equality. To further advance gender equality, the government requires federal organizations to take gender considerations into account in legislation, policies and programs. The Program plays a lead role in building the capacity of federal organizations to use Gender-based Analysis Plus by providing information, tools, training, expert advice and access to networks. Gender-based Analysis Plus informs decision-making and increases the likelihood that legislation, policies and programs meet the needs of diverse groups of women and men. This Program acts as a knowledge broker, exploring gender gaps/issues, providing strategic analysis and advice and facilitating collaboration among key stakeholders, including federal organizations and others, in order to influence decision-making and action.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Telefilm Canada**

**Strategic outcome 1**

Quality audiovisual content developed by Canadians and promoted to audiences in Canada and internationally.

**Program 1.1**—Investment in the development of and support to the Canadian audiovisual industry

Telefilm financially supports the development and production of Canadian feature films (including treaty coproductions) that have potential for success in Canada and abroad. Financial participation may take various forms, including investments, conditionally repayable advances and contributions. This financial support aims to ensure that industry players have the opportunity to create and produce their work in Canada. Telefilm also supports the industry by making recommendations to the Minister of Canadian Heritage regarding the certification of audiovisual treaty coproductions.

**Program 1.2**—National and international promotional support for Canadian content

Telefilm’s promotional support activities enable Canadian distributors, producers and directors to ensure that the audiovisual content they produce is viewed and enjoyed by Canadians and international audiences. These activities are an essential element in promoting and protecting the Canadian audiovisual industry. They also enable the Canadian audiovisual industry to attract potential buyers, and private and foreign investors for existing or future projects to be produced with Canadians—to the benefit of the Canadian economy. As well, international promotional support of Canadian successes contributes to broader audience viewership and greater notoriety of Canadian content worldwide. Particular emphasis is given to the development and integration of digital initiatives to reach target audiences with innovative and effective strategies. Promotional support activities include: Financial support for the marketing and promotion of Canadian feature films generally in the form of conditionally repayable advances; Financial support for Canadian production and distribution companies to promote, sell and distribute their productions at key markets and festivals. Support may also take the form of targeted business development initiatives to stimulate the search for alternative sources of funding and new partnerships; and financial support in the form of contributions to events and initiatives that are in tune with domestic and international market needs and that contribute to the promotion of Canadian content and talent. These activities help to expand public awareness of Canadian products and facilitate their access.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**The National Battlefields Commission**

**Strategic outcome 1**

The Battlefields Park of Quebec is a prestigious, natural, accessible, safe and educational historic and urban site.

**Program 1.1**—Conservation and Development

As part of this program, the National Battlefields Commission preserves the legacy of the Battlefields Park for future generations. To do so, the National Battlefields Commission ensures infrastructures maintenance and improvement when required, the horticultural landscape, and offers a protected site for all Canadian and foreign users and visitors.

**Program 1.2**—Public Education and Services

The purpose of this program is to showcase the history of the site and its cultural, recreational and natural treasures so as to emphasize its dual role as a historical and a city park. In support of this program, the National Battlefields Commission welcomes visitors, puts on exhibits and educational activities, provides quality public services, and disseminates information to users and visitors from both Canada and abroad.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

Revenues .....	4.15

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of the Environment**

**Strategic outcome 1**

Canada's natural environment is conserved and restored for present and future generations.

**Program 1.1—Biodiversity—Wildlife and Habitat**

This program aims to prevent biodiversity loss while enabling sustainable use by: protecting and recovering species at risk and their critical habitat; conserving and protecting healthy populations of migratory birds; and monitoring, conserving and restoring significant habitats by establishing and maintaining a network of protected areas, and developing and implementing stewardship programs. It also supports coordinated and coherent national assessment, research, planning and action to protect biodiversity, including viable, self-sustaining populations of species, healthy and diverse ecosystems, and genetic resources. The program forms strategic partnerships for integrated management of Canada's natural capital, including stewardship and the sustainable management of landscapes. This program has responsibilities under the *Species at Risk Act*, *Migratory Birds Convention Act, 1994*, *Canada Wildlife Act*, *Canadian Environmental Assessment Act* and *Wild Animal and Plant Protection and Regulation of International and Interprovincial Trade Act*. International responsibilities include the United Nations Convention on Biological Diversity (1992), the Migratory Birds Convention, the Convention on International Trade in Endangered Species of Wild Fauna and Flora, the Conservation of Arctic Flora and Fauna Working Group of the Arctic Council, and the Convention on Wetlands of International Importance especially as Waterfowl Habitat (the Ramsar Convention).

**Program 1.2—Sustainable Ecosystems**

This program aims to sustain Canada's ecosystems over the long term by providing Canadians, their governments and the private sector with the environmental information and tools required to incorporate social, economic and environmental considerations into decision making and actions. Environmental assessments are a large part of this program. The ecosystem approach to environmental management focuses on maintaining the capacity of a whole system to produce ecological goods and services and genetic resources to support the economy, security, and health and well-being. This program focuses on: the development and implementation of Environment Canada and Climate Change's sustainability policies and strategies; provision of information to support integrated, ecosystem-scale planning; community engagement in remediation of sites; youth engagement; and research and reporting on environmental status and trends. The program facilitates interdisciplinary and cross-sectoral planning and information sharing among partners.

**Program 1.3—Water Resources**

This program addresses the risks to and impacts on water resources from industrial activities, agriculture, climate change and other factors. It aims to minimize threats to Canada's water resources and aquatic ecosystems and to maintain the sustainability of such resources. The program is delivered in collaboration with partners, specifically other federal departments, provinces and territories, and a range of non-governmental organizations. The program focuses on Environment and Climate Change Canada's contribution to monitoring water quality and conducting water-related research and analysis and its role in collaborating with other departments to determine priorities for water quality and quantity as well as aquatic ecosystem monitoring and research. It provides scientific information and advice to decision makers and supports

implementation of the *Canada Water Act*, *Canadian Environmental Protection Act, 1999*, *Fisheries Act*, *International Boundary Waters Treaty Act*, and *International River Improvements Act*.

#### **Program 1.4—Compliance Promotion and Enforcement—Wildlife**

This program works to conserve and protect the natural environment through compliance promotion and enforcement of the *Species at Risk Act*, *Migratory Birds Convention Act, 1994*, *Wild Animal and Plant Protection and Regulation of International and Interprovincial Trade Act*, *Antarctic Environmental Protection Act* and *Canada Wildlife Act*. The program promotes compliance through the communication of information, education, and consultation with parties affected by these statutes. It maintains a contingent of enforcement officers whose activities consist of verifying compliance with acts, regulations and permits pertaining to wildlife and Environment and Climate Change Canada protected areas, gathering intelligence, conducting inspections and pursuing investigations regarding alleged offenders. The program also works with INTERPOL as well as the United States and Mexico under the auspices of the Commission for Environmental Cooperation to strengthen wildlife enforcement. These actions aim to reduce damage and threats to biodiversity for the benefit of Canadians and the international community.

#### **Strategic outcome 2**

Threats to Canadians and their environment from pollution are minimized.

#### **Program 2.1—Climate Change and Clean Air**

This program aims to protect the health of Canadians, the environment and Canada's economy from the harmful effects of air pollutants and the impacts of greenhouse gas emissions through the development and implementation of regulations and other control measures. Actions are based on sound scientific work, economic and policy analysis, and emissions monitoring and reporting. Work under this program includes: continued collaboration with other governments and stakeholders; delivery of sound scientific results, expert environmental science and technology advice, assessment, and program management in support of technology investment decisions, policy making and regulations; and cooperation with the United States to align greenhouse gas regulations as appropriate, reduce transboundary air pollution and advance the development of clean technologies. It also involves participation and negotiation in, and contributions to, international fora, in order to address climate change and transboundary air pollution, and bilateral and multilateral processes in order to support Canada's positions and objectives.

#### **Program 2.2—Substances and Waste Management**

Activities in this program reduce threats to human health and the environment posed by pollution and waste from human activities. The program assesses risks to the environment from substances that are already in commercial use (existing substances) and substances proposed for use in Canada (new substances). It also develops and implements measures to prevent or manage the risks from these substances and waste.

#### **Program 2.3—Compliance Promotion and Enforcement—Pollution**

This program contributes to minimizing damage and threats to the natural environment and biodiversity through the promotion and enforcement of legislation administered by Environment and Climate Change Canada. Activities focus on pollution, including the release of toxic substances to air, water or land, and the import and export of hazardous waste that presents a risk to the environment and/or human health. The program maintains a contingent of compliance promotion and enforcement officers. Compliance promotion officers deliver activities to increase regulatees' awareness, understanding and compliance with regulations and other risk management instruments under the *Canadian Environmental Protection Act, 1999* and the *Fisheries Act*, with the goal of increasing effectiveness in achieving desired environmental results. They also provide information on risk management instrument requirements, the benefits of compliance and the potential penalties of non-compliance, when applicable. Enforcement officers, on the other hand, conduct inspections to verify compliance with laws and regulations, gather intelligence, take enforcement action to bring offenders back into compliance, and pursue investigations where necessary. This program collaborates with international and domestic partners to strengthen transboundary environmental enforcement. Officers are provided training and are often supported by scientific analyses and expertise, including science advice to support enforcement actions. In addition, the program is supported by scientific analysis and expertise for the development and implementation of new and updated regulations.

**Strategic outcome 3**

Canadians are equipped to make informed decisions on changing weather, water and climate conditions.

**Program 3.1**—Weather and Environmental Services for Canadians

This program provides reliable, accurate and timely forecasts and warnings, as well as weather and environmental intelligence to anticipate, manage and adapt to the risks and opportunities of changing weather, water, air quality and climate conditions. It involves monitoring, research, prediction and service delivery based on sound science to help Canadians make informed decisions in order to protect their health, safety, security and economic prosperity. Because a global effort is needed to monitor, understand and predict constantly changing weather, water, air quality, sea ice, and climate conditions, the program works with various collaborators around the world. Global collaborators include other national meteorological services, such as the U.S. National Oceanic and Atmospheric Administration and Météo France, as well as international organization such as the United Nations World Meteorological Organization and the Intergovernmental Panel on Climate Change. At the national level, collaborators include the media, academia and all levels of government in Canada. The program meets the Department's responsibilities under the Department of the *Environment Act*, *Weather Modification Information Act*, *Emergency Management Act* (2007), Convention of the World Meteorological Organization, and memoranda of agreement with other national meteorological and space agencies. The program provides forecasts and information in the event of environmental emergencies associated with the release of toxic and radioactive material in the atmosphere.

**Program 3.2**—Weather and Environmental Services for Targeted Users

Environment and Climate Change Canada provides specific predictions and services for targeted, weather-sensitive sectors through formal arrangements and revenue contracts. Building on the core capabilities offered under Program 2.1, this program provides reliable, accurate and timely weather, climate and ice observations, predictions and services to support the specific decision-making needs of the aviation and marine transportation sectors and the Canadian military. It delivers services through various collaborations within Canada (including with other government departments), and internationally with the World Meteorological Organization, as well as with other countries and international bodies such as the International Civil Aviation Organization, the International Maritime Organization, and the International Convention for the Safety of Life at Sea. This program supports the Department in meeting obligations and responsibilities conferred by the Department of the *Environment Act* and the Convention of the World Meteorological Organization. It also helps other government departments meet their obligations under the *Aeronautics Act* and the treaty in support of International Civil Aviation, the *Oceans Act* and the *Fisheries Act*, and supports memoranda of agreement with the Department of Fisheries and Oceans/Canadian Coast Guard, the Department of National Defence, and various provincial and territorial agencies.

**Strategic outcome 4**

The following program supports all Strategic outcomes within this organization.

**Program 4.1**—Internal Services

See introductory text.

**Canadian Environmental Assessment Agency**

**Strategic outcome 1**

High quality and timely environmental assessments of major projects to protect the environment and support economic growth.

### **Program 1.1—Environmental Assessment Delivery Program**

This program ensures that high quality environmental assessments of major projects are conducted and completed in a timely and predictable way, thereby supporting economic growth while preventing or reducing adverse environmental effects. The most appropriate means of avoiding duplication of assessment activities with other jurisdictions is applied, thereby, increasing efficiency and providing certainty for all participants in the process. The Agency will promote, monitor, and facilitate compliance with the *Canadian Environmental Assessment Act, 2012*. The environmental assessment process provides for the meaningful participation of the public and Indigenous groups. Indigenous consultation obligations are integrated to the greatest extent possible with the federal environmental assessment process. As such, the Agency consults with Indigenous groups during the environmental assessment process to assess how the proposed project may adversely impact potential or established Indigenous or Treaty rights and related interests, and find ways to avoid or minimize these adverse impacts. This program uses funding from the following transfer payments: the Participant Funding Program, and the James Bay and Northern Quebec Agreement.

### **Program 1.2—Environmental Assessment Policy Program**

The Environmental Assessment Policy program develops and promotes robust policies and practices for high quality environmental assessment in accordance with the *Canadian Environmental Assessment Act, 2012*. This is achieved by building and reinforcing policies, procedures and criteria for the conduct of federal Environmental Assessment, by promoting cooperation and coordinated action between the federal government and other jurisdictions, by promoting communication and cooperation with Indigenous Peoples, and by developing instruments and training for Environmental Assessment practitioners. Environmental Assessment Policy enables continuous improvement through research, monitoring, analysis and advice. Recommendations inform the development of new regulatory and policy approaches as well as the revision of guidance, training and knowledge based instruments. The program also provides support for the conduct of Environmental Assessment through various means, such as federal provincial agreements and policy criteria.

### **Strategic outcome 2**

The following program supports all Strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Parks Canada Agency**

#### **Strategic outcome 1**

Canadians have a strong sense of connection to their national parks, national historic sites, heritage canals, and national marine conservation areas and these protected places are experienced in ways that leave them unimpaired for the enjoyment of present and future generations.

#### **Program 1.1—Visitor Experience**

This program fosters opportunities for Canadians and international visitors to discover, experience, enjoy and develop a sense of personal connection to Canada's national urban park, national parks, national historic sites administered by Parks Canada, national marine conservation areas, and heritage canals. This program includes a range of activities, services and products associated with pre-visit planning, the on-site visit, and post visit communications. It includes tourism marketing, trip planning information, reception, orientation, interpretation, recreational activities, special events, merchandise, compliance, visitor safety services, and visitor facilities. The program is supported by market and visitor analytics, trend analysis, and performance measurement.

**Program 1.2**—Heritage Canals, Highways and Townsites Management

This program involves the management of infrastructure for Canadians and provides opportunities for socio-economic benefits to adjacent communities. It is related to the operation, maintenance and improvement of the Trans-Canada and provincially numbered highways within national parks and a national historic site; the water management of certain heritage canals; and, the provision of municipal services to certain national park townsites.

**Program 1.3**— Heritage Places Conservation

This program aims to protect and conserve the natural and cultural resources of all heritage places managed by Parks Canada, as well as the agricultural resources in the national urban park; and to fulfill responsibilities assigned to Parks Canada or mandated through federal legislation. Protection and conservation activities in a national urban park, national parks, national marine conservation areas, heritage canals and Parks Canada administered national historic sites ensure that these heritage places are maintained and used in ways that leave them unimpaired for the benefit and enjoyment of present and future generations.

**Program 1.4**— Heritage Places Promotion and Public Support

This program aims to nurture a sense of pride in and support for Parks Canada administered places by increasing Canadians' awareness, appreciation of their value and the various ways to experience them. This is achieved through relevant and effective heritage places promotion initiatives delivered to Canadians, reaching them in their daily lives. Some of these promotion activities are done in collaboration with stakeholders and partners to reach and engage more Canadians.

**Program 1.5**—Heritage Places Establishment

This program aims to establish heritage places in order to conserve Canada's natural and cultural heritage for the benefit and enjoyment of present and future generations, thus fostering a strong sense of connection to our natural and cultural heritage. This program also supports Canada's involvement in the internationally shared objective of protecting and commemorating the best of the world's natural and cultural heritage. By establishing national parks and national marine conservation areas in each of Canada's natural terrestrial and marine regions, this program ensures the protection and presentation of representative examples of Canada's natural diversity. Likewise, the designation and commemoration of historic places, persons and events in communities across Canada ensures our history remains a living legacy for all Canadians. Establishment or designation is achieved through feasibility assessments, public nominations, research, consultation with Indigenous peoples, stakeholders and the general public, negotiations with other governments and Indigenous organizations, recommendations from advisory bodies and fulfilment of legislative requirements. This process results in established national parks and national marine conservation areas and designated national historic sites, persons and events and other heritage places.

**Strategic outcome 2**

The following program supports all Strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Employment and Social Development**

**Strategic outcome 1**

Income security, access to opportunities and well-being for individuals, families and communities.

**Program 1.1—Income Security**

This program ensures that Canadians are provided with retirement pensions, survivor pensions, disability benefits and benefits for children through the Old Age Security Program, the Canada Pension Plan, the Canada Disability Savings Program and the National Child Benefit program.

**Program 1.2—Social Development**

This program supports programs for the homeless or those individuals at risk of homelessness, as well as programs for children, families, seniors, communities and people with disabilities. It provides these groups with the knowledge, information and opportunities to move forward with their own solutions to social and economic challenges.

**Strategic outcome 2**

A skilled, adaptable and inclusive labour force and an efficient labour market.

**Program 2.1—Learning**

This program helps Canadians participate in post-secondary education to acquire the skills and credentials that enable them to improve their labour market outcomes and adapt to changing labour market conditions. It reduces barriers to education by providing financial assistance to students and apprentices as well as incentives for families to save for a child's post-secondary education. It also provides information and awareness about opportunities to acquire education and skills. The Program contributes to the inclusiveness of the workforce by giving Canadians with the required academic abilities a more equal opportunity to participate in post-secondary education. The Program works with the provinces and territories, the voluntary sector, financial institutions, service providers and other key stakeholders to help Canadians pursue post-secondary education.

**Program 2.2—Skills and Employment**

The Skills and Employment program is intended to ensure that Canadian labour market participants are able to access the supports that they need to enter or reposition themselves in the labour market so that they can contribute to economic growth through full labour market participation. Initiatives in this program contribute to the common overall objectives of promoting skills development, enhancing labour market participation and ensuring labour market efficiency.

**Strategic outcome 3**

Safe, fair and productive workplaces and cooperative workplace relations.

### **Program 3.1—Labour**

This program seeks to promote and sustain stable industrial relations and safe, fair, healthy, equitable, and productive workplaces in the federal jurisdiction (interprovincial transportation, post office and courier companies, telecommunications, banking, grain handling, nuclear facilities, federal Crown corporations, companies that have contracts with the federal government and Aboriginal governments and their employees). It develops labour legislation and regulations to achieve an effective balance between workers' and employers' rights and responsibilities. The program ensures that workplaces under the federal jurisdiction respect the rights and obligations established under labour legislation. The program also manages Canada's international and intergovernmental labour affairs, as well as Aboriginal labour affairs responsibilities.

### **Strategic outcome 4**

Government-wide service excellence.

### **Program 4.1—Service Network Supporting Government Departments**

This program supports Government of Canada programs by ensuring that Canadians have the information necessary to make informed choices about available programs and services, and the tools to access them, while supporting migration to preferred service channels. Canadians are able to access information about ESDC and other Government of Canada programs and services in the most accessible and convenient way, have their questions answered quickly and accurately, and receive or are directed to the information or service they need. Under this program, information and services are delivered to Canadians through the Internet, the 1 800 O-Canada and its customized telephone services as well as through a network of in-person points of service.

### **Program 4.2—Delivery of Services for Other Government of Canada Programs**

This program provides service delivery, oversight and monitoring on behalf of other government department programs through service delivery agreements. It provides Canadians access to a range of Government of Canada programs, benefits and services in person, by phone, by mail and over the Internet through the provision of basic and detailed program and service information; application intake and review for completeness; client authentication and validation of identity documents; quick and direct access to specialized agents within the other department; and provision of space in the service delivery network for other departments. It enables a move from department and program siloes to the achievement of a seamless service delivery network, resulting in timelier, accurate and cost-effective service delivery to Canadians.

### **Strategic outcome 5**

The following program supports all strategic outcomes within this organization.

### **Program 5.1—Internal Services**

See introductory text.

## **Canada Mortgage and Housing Corporation**

### **Strategic outcome 1**

Canadians in need have access to affordable housing.

### **Program 1.1—Funding Under Long-Term Commitments for Existing Social Housing**

Financial assistance is provided for the existing social housing portfolio to fulfill obligations made between 1946 and 1993 under long-term subsidy agreements with various terms and conditions. Financial assistance is provided to provinces/territories and First Nations for the following programs: Social Housing Programs including Public

Housing, Co-operative Housing Non-Profit and Urban native Housing Programs, Rent Supplement, and Rural and Native Housing. This includes funding provided to provinces/territories under Social Housing Agreements as well as financial assistance to First Nations under these long-term agreements.

**Program 1.2—Funding for New Commitments of Affordable Housing**

Includes expenditures to: increase the supply of affordable housing (through construction, conversion or assistance such as rent supplements); preserve the quality of existing affordable housing (through renovation); and support new construction and modification to affordable housing to provide accommodations for victims of family violence or extend independent living for seniors or persons with disabilities. These commitments can serve all Canadians, including those living on reserve.

**Program 1.3—Housing Support**

Other contractual commitments for housing and municipal infrastructure help to reduce affordability problems for low and moderate-income households, to provide accommodation for students and to provide production of moderately priced rental housing. The program also provides ancillary services to support Canada Mortgage and Housing Corporation's mandate. This includes the Affordable Housing Centre, the Housing Related Infrastructure Loans to Municipalities and Other Long Term Commitments such as the Market Housing Programs and the Community Services Program.

**Strategic outcome 2**

Canada has a stable, competitive and innovative housing system.

**Program 2.1—Market Analysis Information**

Canada Mortgage and Housing Corporation collects, analyzes and disseminates housing market information that facilitates informed housing-related decisions by those in the industry, the public at large and Canada Mortgage and Housing Corporation. This includes the provision of housing market data, analysis and forecasts through publications, conferences, seminars, industry roundtables and custom data services. To meet client information needs, Canada Mortgage and Housing Corporation undertakes various surveys of: starts and completions; market absorption; and the rental market through Housing Market Surveys and Housing Market Information Dissemination.

**Program 2.2—Housing Policy, Research and Information Transfer**

Canada Mortgage and Housing Corporation develops policy, conducts research and disseminates information on matters related to housing finance and capital markets, housing conditions, and sustainable housing technologies and practices. This work is undertaken to support and strengthen the economic, technical, social and sustainable aspects of Canadian housing, as well as facilitate the development and implementation of federal housing policy. This includes the examination of housing finance trends and policy options for regulations, incentives and securitization tools in the primary and secondary markets; the analysis of distinct housing needs of specific populations such as Aboriginal people, seniors, persons with disabilities, and low-income households, and how these can be addressed; and the identification of practical approaches to advancing sustainable technologies and practices in the housing sector. Canada Mortgage and Housing Corporation undertakes this activity by funding research, demonstrations and technology assessments, and by developing and disseminating timely, useful and relevant information to target audiences. These activities increase awareness and understanding of housing matters and inform policies, practices and decision-making on the part of industry, consumers and government.

**Canadian Centre for Occupational Health and Safety**

**Strategic outcome 1**

Improved workplace conditions and practices that enhance the health, safety, and well-being of working Canadians.

**Program 1.1**—Occupational health and safety information development, delivery services and tripartite collaboration

The goal of this program is to provide free information on occupational health and safety to support Canadians in their efforts to improve workplace safety and health. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost recovery products and services and is supported financially by contributions from various stakeholders. Through health and safety information development, the Canadian Centre for Occupational Health and Safety collects, processes, analyzes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, policy development, development of best practices, improvement of health and safety programs, achieving compliance, and for personal use. Various levels of service are available from free to purchase of products and services. When the product or service provided by Canadian Centre for Occupational Health and Safety is provided to identify external recipients with benefits beyond those enjoyed by the general taxpayer, a user fee is charged. Canadian Centre for Occupational Health and Safety promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non-financial contributions to the programs by stakeholders and result in advancement of the health and safety initiatives.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Finance****Strategic outcome 1**

A strong economy and sound public finances for Canadians.

**Program 1.1—Transfer and Taxation Payment Programs**

This Program enables the Government of Canada to meet its transfer and taxation payment commitments. The Program administers transfer and taxation payments to provinces and territories and Aboriginal governments in compliance with legislation and negotiated agreements. The Program also fulfills commitments and agreements with international financial organizations to support the economic advancement of developing countries. The Government of Canada sometimes enters into agreements or enacts legislation to respond to unforeseen pressures. These commitments can result in payments, generally statutory transfer payments, to a variety of recipients, including individuals, organizations and other levels of government.

**Program 1.2—Treasury and Financial Affairs**

This Program provides analysis, research and advice to ministers and senior government officials on the management of the treasury and the financial affairs of the Government of Canada. The Program ensures that the treasury and financial affairs of the Government of Canada are efficiently managed on behalf of Canadian taxpayers. The Program provides direction for Canada's debt management activities, including the funding of debt and service costs for new borrowings. This Program manages investments in financial assets so that the Government of Canada can meet its liquidity needs. The Program supports the ongoing refinancing of government debt coming to maturity, the execution of the Budget Plan, and other financial operations of the government, including governance of the borrowing activities of major federal government backed-entities, such as Crown corporations. The Program also oversees the system that ensures that Canada has an adequate supply of circulating Canadian currency (bank notes and coins) to meet the needs of the Canadian economy.

**Program 1.3—Economic and Fiscal Policy Framework**

This Program is the main source of advice and recommendations to the Minister of Finance, other ministers and senior government officials on issues, policies and programs of the Government of Canada in the areas of economic, fiscal and social policy; federal-provincial relations; the financial sector; taxation; and international trade and finance. The Program ensures that ministers and senior government officials can make informed decisions on economic, fiscal and financial sector policies, programs and proposals. Ultimately, the Program contributes to building a sound and sustainable fiscal and economic framework that generates sufficient revenues and aligns the management of expenditures with the Budget Plan and the financial operations of the Government of Canada.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

## **Program 2.1—Internal Services**

See introductory text.

## **Canada Deposit Insurance Corporation**

### **Strategic outcome 1**

Canada Deposit Insurance Corporation's mandate is to provide insurance against the loss of part or all of deposits and to promote and otherwise contribute to the stability of the financial system in Canada, for the benefit of those with deposits in Canada Deposit Insurance Corporation member institutions while minimizing the Corporation's exposure to loss.

## **Financial Consumer Agency of Canada**

### **Strategic outcome 1**

The rights of financial consumers are protected and the financial literacy of Canadians is strengthened.

#### **Program 1.1—Compliance Supervision and Enforcement**

The compliance supervision and enforcement program seeks to strengthen compliance by Federally Regulated Financial Entities with the federal consumer provisions applicable to them. The program also seeks to promote Federally Regulated Financial Entities' adherence to the various codes of conduct and public commitments put in place by the industry to further protect customers.

#### **Program 1.2—Financial Literacy Program**

The Financial Literacy Program seeks to enhance consumer knowledge of the Federally Regulated Financial Entities' obligations toward them and enhance the financial knowledge, skills and confidence of Canadians.

## **Financial Transactions and Reports Analysis Centre of Canada**

### **Strategic outcome 1**

A Canadian financial system resistant to money laundering and terrorist financing.

#### **Program 1.1—Financial Intelligence Program**

Financial Transactions and Reports Analysis Centre of Canada's Financial Intelligence Program, mandated by the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*, is a component of the broader national security and anti-crime agenda. The program strives to disrupt the ability of criminals and terrorist groups that seek to abuse Canada's financial system and to reduce the profit incentive of crime. The main method of intervention used by the program is to analyze reported financial transactions and other information the Centre is authorized to receive and collect under the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* to produce

financial intelligence products including tactical case disclosures and strategic intelligence products that are relevant to the investigation, prosecution or understanding of money laundering and terrorist financing activities.

**Program 1.2—Compliance Program**

Financial Transactions and Reports Analysis Centre of Canada's Compliance Program is responsible for ensuring compliance with Part 1 of the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* and associated regulations. The compliance program utilizes a risk based approach to deliver enforcement, relations and support activities that help ensure compliance with legislative and regulatory obligations that apply to individuals and entities operating in Canada's financial system.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Office of the Auditor General**

**Strategic outcome 1**

Through legislative auditing, we contribute to a well-managed and accountable government for Canadians.

**Program 1.1—Legislative Auditing**

We conduct independent audits and studies that provide objective information, advice and assurance to Parliament, government and Canadians.

**Office of the Superintendent of Financial Institutions**

**Strategic outcome 1**

A safe and sound Canadian financial system.

**Program 1.1—Regulation and Supervision of Federally Regulated Financial Institutions**

This program involves regulating and supervising federally regulated financial institutions to determine whether they are in sound financial condition and are complying with their governing laws and supervisory requirements; monitoring the financial and economic environment to identify issues that may impact these institutions negatively; and intervening in a timely manner to protect depositors and policyholders from undue loss, while recognizing that management and boards of directors are ultimately responsible, and that financial institutions can fail. Costs for this program are recovered through base assessments and user fees and charges paid by the federally regulated financial institutions covered under the *Bank Act*, *Trust and Loan Companies Act*, *Insurance Companies Act*, *Green Shield Canada Act*, *Protection of Residential Mortgage or Hypothecary Insurance Act* and *Cooperative Credit Associations Act*. The Office of the Superintendent of Financial Institutions also receives revenues for cost-recovered services to provinces, for which it provides supervision of their institutions on a fee for service basis.

### **Program 1.2—Regulation and Supervision of Federally Regulated Private Pension Plans**

This program involves regulating and supervising federally regulated private pension plans to determine whether they are meeting minimum funding requirements and are complying with their governing laws and supervisory requirements. This program provides risk assessments of pension plans covering employees in federally regulated areas of employment. It ensures timely and effective intervention and feedback to protect the interests of plan members and beneficiaries, while recognizing that plan administrators are ultimately responsible and that plans can fail to pay the expected benefits. This program also provides a balanced relevant regulatory framework and a prudentially effective and responsive approvals process. This program incorporates activities pertaining to risk assessment and intervention, regulation and guidance, and approvals and precedents related to federally regulated private pension plans under the *Pension Benefits Standards Act*, 1985 and the *Pooled Registered Pension Plans Act*. The costs for this program are recovered from pension plan fees based on the number of members in each federally regulated pension plan.

#### **Strategic outcome 2**

A financially sound and sustainable Canadian public retirement income system.

### **Program 2.1—Actuarial Valuation and Advisory Services**

The federal government and the provinces, through the Canada Pension Plan, public sector pension arrangements and other social programs have made commitments to Canadians and have taken on emanated responsibility for the financing of these commitments. Some are long-term and it is important that decision-makers, Parliamentarians and the public understand these and the inherent risks. This program plays a vital and independent role in this process. It provides checks and balances on the future costs of the different pension plans under its responsibilities. This program provides a range of actuarial services, under legislation, to the Canada Pension Plan stakeholders and several federal government departments. It conducts statutory actuarial valuations of the Canada Pension Plan, Old Age Security, Employment Insurance and Canada Student Loans programs, and pension and benefits plans covering the Federal Public Service, the Canadian Forces, the Royal Canadian Mounted Police, federally appointed judges, and Members of Parliament. The Office of the Chief Actuary is funded by fees charged for its actuarial valuation and advisory services and by an annual parliamentary appropriation.

#### **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

### **Program 3.1—Internal Services**

See introductory text.

### **PPP Canada Inc.**

#### **Strategic outcome 1**

Transform Canada into a leader for public-private partnerships.

### **Program 1.1—Federal Public-Private Partnership Initiatives**

Through this program, PPP Canada Inc. will: manage a Public-Private Partnerships Fund, a unique infrastructure program designed to support innovative public-private partnerships projects; assess public-private partnerships opportunities for contributions under other Government of Canada infrastructure programs to ensure consideration of such arrangements; assess public-private partnership opportunities and advise on the execution of public-private partnership projects at the federal level; and act as a source of expertise and advice for public-private partnership matters in order to encourage the further development of Canada's public-private partnerships market.

**Royal Canadian Mint**

**Strategic outcome 1**

The strategic outcomes of the Royal Canadian Mint are to:

- elevate the Royal Canadian Mint into a world-class brand that is recognized for quality, innovation and exceeding customer's expectations;
- ensure that Canadian circulation products and services are cost-effective, accessible, relevant and inspire Canadians to celebrate their history, culture and values;
- ensure that foreign coinage, bullion and refinery services, collectible and other related and services are leaders in their respective markets;
- generate a profit and maintain long-term viability through an ongoing commitment to customer satisfaction, growth and efficiency;
- create an environment where all employees demonstrate the organization's values and celebrate their success;
- and ensure that health, safety and the environment are paramount considerations in providing an ideal workplace.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Fisheries and Oceans****Strategic outcome 1**

Safe and Secure Waters.

**Program 1.1—Fleet Operational Readiness**

The Canadian Coast Guard's Fleet Operational Readiness program provides safe and reliable vessels, air cushion vehicles, helicopters, and small craft with professional crews ready to respond to on-water and maritime-related needs. This program involves fleet management and operations, fleet maintenance, and fleet asset procurement. The program ensures that the federal civilian fleet meets the current and emerging needs and priorities of Canadians and Canada. The program supports Coast Guard programs, the Department's science, fisheries, and aquaculture activities, and the activities of other federal departments that need on-water delivery to support their mandates. The Canadian Coast Guard College contributes to the delivery of this program. The legal basis for the program is found in the *Constitution Act*, 1867, and the *Oceans Act*.

**Program 1.2—Shore-Based Asset Readiness**

The Canadian Coast Guard Shore-Based Asset Readiness program ensures that the Canadian Coast Guard's non-fleet assets are available and reliable for delivery of Canadian Coast Guard programs. These non-fleet assets include both fixed and floating aids, such as visual aids (e.g. buoys); aural aids (e.g., fog horns); radar aids (e.g., reflectors and beacons); and long-range marine aids, such as the Differential Global Positioning System; as well as electronic communication, navigation systems, and over 300 radio towers. The Shore-Based Asset Readiness program ensures the availability and reliability of these assets through life cycle investment planning, engineering, acquisition, maintenance, and disposal services. The Canadian Coast Guard College is an important contributor to the delivery of this program in its provision of technical training. This program is delivered in coordination with Public Works and Government Services Canada. Activities associated with the life-cycle asset management of Canadian Coast Guard shore-based assets are legislated and guided by the *Financial Administration Act* and *Government Contract Regulations*, as well as policies, directives, and guidelines provided by Treasury Board, Treasury Board Secretariat, Industry Canada, and Public Works and Government Services Canada. The legal basis for this program is found in the *Constitution Act*, 1867, and the *Oceans Act*.

**Program 1.3—Marine Communications and Traffic Services**

The Marine Communications and Traffic Services program is delivered by the Canadian Coast Guard. The safety of mariners and marine environmental protection in Canadian waters depend on the efficient and timely communication of information. The program ensures a reliable communication system is available 24 hours a day to contribute to the safety of life at sea, the protection of the marine environment, and the safe and efficient navigation in Canadian waterways. Services include marine distress and general radio communications, broadcasting maritime safety information, screening vessels entering Canadian waters, regulating vessel traffic in selected Canadian waters, providing marine information to other federal departments and agencies, and providing a public correspondence radiotelephone service in areas where mariners don't have access to public telephone systems. The Shore-Based Asset Readiness and Canadian Coast Guard College programs are integral contributors to this program. The legal basis for the program derives from the *Constitution Act*, 1867, the *Oceans Act*, and the *Canada Shipping Act*, 2001.

#### **Program 1.4—Search and Rescue Services**

The Canadian Coast Guard's maritime Search and Rescue Services program leads, delivers, and maintains preparedness for the 5.3 million square kilometer maritime component of the federal search and rescue program, with the support of stakeholders and partners, including the Canadian Coast Guard Auxiliary and the Department of National Defence. Through communication, coordination, and the delivery of maritime search and rescue response and operational awareness, the program increases the chances of rescue for people caught in on-water distress situations. The Fleet Operational Readiness and Marine Communications and Traffic Services programs are integral contributors to the delivery of the program. The program's legal basis derives from the *Constitution Act, 1867*, the *Oceans Act*, and the *Canada Shipping Act, 2001*.

#### **Program 1.5—Hydrographic Products and Services**

The safe use of Canadian waterways requires knowledge of the physical limitations to navigation. The Canadian Hydrographic Service contributes to safety on Canadian waterways by undertaking hydrographic surveys from primarily Canadian Coast Guard vessels to measure, describe, and chart the physical features of Canada's oceans and navigable inland waters. As Canada's hydrographic authority, the Canadian Hydrographic Service uses these data to produce up-to-date, timely and accurate nautical charts and publications in support of domestic and international marine transportation in accordance with the requirements of the *Canada Shipping Act 2001* and the International Maritime Organization's Safety of Life At Sea Convention. In addition to supporting Safe and Secure Waters strategic objectives, hydrographic information is used in a number of research and development applications in engineering, ocean research, maritime security, marine navigation, ocean management, ecosystem science and the renewable and non-renewable energy sectors.

#### **Program 1.6—Canadian Coast Guard College**

The Canadian Coast Guard College, the Coast Guard's national, bilingual, degree-conferring training institution, educates the marine professionals necessary to deliver programs in support of Coast Guard's mission and mandate in marine safety, security, and environmental protection. Coast Guard's Fleet Operational Readiness, Shore-Based Asset Readiness, Marine Communications and Traffic Services, Search and Rescue, and Environmental Response programs are integral contributors to the delivery of this program. The legal basis for this program is found in the *Constitution Act, 1867*, and the *Oceans Act*.

#### **Program 1.7—Maritime Security**

The Canadian Coast Guard's Maritime Security Program supports the work of federal departments and agencies with maritime and national security mandates, including the Royal Canadian Mounted Police, the Canadian Forces, the Canada Border Services Agency, Public Safety Canada, and Transport Canada, by sharing maritime expertise and information and lending vessel support. Fleet Operational Readiness, Marine Communications and Traffic Services, as well as Shore-Based Asset Readiness programs are integral contributors to the delivery of the Maritime Security Program. The program is delivered in coordination with the Department's Compliance and Enforcement program. The legal basis for the support of other federal departments or agencies is found primarily in the *Oceans Act*.

#### **Program 1.8—Ocean Forecasting**

As a maritime nation bordered by three oceans, Canada has an obligation to understand ocean processes and their influence on our environment, ecosystems, and coastal communities. To this end, the Department conducts research, long-term monitoring of key ocean parameters (temperature, sea level, nutrients, tides, salinity, etc.) and manages the resulting data to ensure integrity and accessibility. In turn, the generation of new knowledge allows the Department to provide advice, products and services that support ecosystem management decisions, adaptation to climatic change, emergency preparedness (e.g. tsunami warnings, storm surges), search and rescue, the mitigation of oil spills, and at-sea operations such as fisheries and offshore energy exploration. Clients of the program include the Canadian Coast Guard, other federal government departments and agencies (e.g., Environment Canada, Department of National Defence, Transport Canada, Public Safety Canada), various maritime industries (e.g., commercial shipping, off-shore energy exploration, commercial fishing), the Canadian and international marine science community and Canadians.

**Strategic outcome 2**

Economically Prosperous Maritime Sectors and Fisheries.

**Program 2.1—Small Craft Harbours**

Under the authority of the *Fishing and Recreational Harbours Act* and its regulations, the Small Craft Harbours program operates and maintains a national network of harbours in support of the principal and evolving needs of the commercial fishing industry and the broader interests of coastal communities. Investment in small craft harbour infrastructure supports the economic prosperity of Canada's fisheries and maritime sectors and contributes to public safety. The Small Craft Harbours program focuses its resources on keeping fishing harbours that are critical to the commercial fishing industry in good repair. The program is delivered in cooperation with Harbour Authorities, local not-for-profit organizations representing the interests of both commercial fish harvesters and the broader community, who manage the harbours under lease agreements with Fisheries and Oceans Canada. In line with the program's mandate to support the commercial fishing industry, low activity fishing harbours and recreational harbours are divested to third parties. The Small Craft Harbours program is funded through an annual appropriation which includes two transfer payment programs: the Small Craft Harbours Class Grant Program and the Small Craft Harbours Class Contribution Program.

**Program 2.2—Integrated Fisheries Management**

The Integrated Fisheries Management program administers Canada's fisheries in consultation with Aboriginal groups, federal departments, other levels of government, private industry and non governmental stakeholders. The program promotes sustainability and the allocation of harvestable resources amongst commercial harvesters, recreational anglers, Aboriginal groups, as well as aquaculture for seed, spat and broodstock. It derives authority from the *Fisheries Act*, the *Species at Risk Act* and related regulations and relies on scientific assessments to develop tools such as the Integrated Fisheries Management Plans and Rebuilding Strategies.

**Program 2.3—Aboriginal Strategies and Governance**

The Aboriginal Strategies and Governance program serves to build and maintain strong and stable relations with Aboriginal groups and promotes fisheries-related economic opportunities for Aboriginal communities; both of which are instrumental to maintaining a stable fisheries management regime with common and transparent rules for all. The program does this by supporting the involvement of Aboriginal groups in the fishery where Fisheries and Oceans Canada manages the fishery and where land claims agreements have not been concluded, specifically for three purposes: management of food, social and ceremonial fisheries; collaborative management, by building the capacity required to engage in fishery management processes; and, conservation, by building monitoring and reporting. This work is achieved through the following: Aboriginal fisheries contribution agreements, treaty fisheries negotiations and mandate development, strategic advice for the ongoing management of Aboriginal rights, Aboriginal programs and policies renewal; allocation policies, frameworks for the implementation of treaties, and, fisheries-related consultation and engagement. This program uses funding from the following transfer payments: Aboriginal Fisheries Strategy, Aboriginal Aquatic Resource and Oceans Management program, Aboriginal Funds for Species at Risk program, Atlantic Integrated Commercial Fisheries Initiative, Pacific Integrated Commercial Fisheries Initiative and Treaty Related Measures.

**Program 2.4—Marine Navigation**

The Canadian Coast Guard Marine Navigation program provides Canadian and international commercial marine transportation sectors, fishers, and pleasure craft operators with information and services to facilitate the safe, economical and efficient movement of ships. Program services include providing survey and forecast information on commercial channels to identify water depth, restrictions, or hazards to navigation; dredging services; marine structures to maintain certain ship channel waterways; aids to navigation, for example short-range marine aids such as buoys, fixed aids to navigation, the Differential Global Positioning System, and information to mariners; assistance to vessels stuck in ice; maintaining tracks through ice-infested channels; breaking out ice in commercial and fishing harbours; providing ice routing advice and information and escorting ships in ice-covered waters; and monitoring and breaking up ice jams to prevent flooding on the St. Lawrence River. Program services also contribute to the development of the Arctic by transporting goods and supplies to northern communities and by maintaining a visible Canadian marine presence in the North. The program is delivered in coordination with the Coast Guard's Fleet Operational Readiness and Shore-based Asset Readiness programs, Canadian Hydrographic Services, Public Works

and Government Services Canada, and Environment Canada. The program's legal basis derives from the *Constitution Act, 1867*; the *Oceans Act*; and the *Canada Shipping Act, 2001*.

#### **Program 2.5—Salmonid Enhancement Program**

The Salmonid Enhancement Program supports achievement of Departmental fisheries management objectives by producing salmon for harvest, stock assessment and conservation purposes. In addition, Salmonid Enhancement Program engages communities, schools, First Nations, and the public in salmon stewardship through education, community involvement activities, and collaborative projects aimed at restoring and maintaining key salmon habitat in British Columbia and the Yukon. The program contributes to economically valuable salmon fisheries by producing fish that directly support Pacific Commercial and Recreational Fisheries. Through targeted enhancement efforts on key stocks, Salmonid Enhancement Program helps Canada meet its enhancement obligations under the Canada United States Pacific Salmon Treaty and supports secure international market access for Canadian salmon products. Salmonid Enhancement Program works closely with the Integrated Fisheries Management Program, the British Columbia Aquaculture Regulatory Program and the Aquatic Animal Health and Biotechnology and Genomics programs. In addition, components of Salmonid Enhancement Program are coordinated with the Canadian Food Inspection Agency, as well as provincial, territorial, and municipal governments.

#### **Program 2.6—Sustainable Aquaculture Program**

The goal of the Sustainable Aquaculture Program is to contribute to an environmentally, economically and socially sustainable Canadian aquaculture sector. Canada's aquaculture sector operates under one of the most stringent regulatory frameworks in the world which is designed to ensure the sector's environmental sustainability. Fisheries and Oceans Canada's regulatory mandate for the program is derived from the *Fisheries Act*, the *Fisheries Development Act*, and the *Oceans Act*. The Department has the lead regulatory role in British Columbia and Prince Edward Island. Fisheries and Oceans Canada implements the Sustainable Aquaculture Program in a horizontal and integrated way with other federal departments and agencies to create optimal conditions for science-based sustainable management of the sector. The Department works collaboratively with industry, provinces and territories, Aboriginal groups, and others to ensure the success and long-term sustainability of Canada's aquaculture sector.

#### **Program 2.7—International Engagement**

The International Engagement program ensures access for Canadians to fish resources managed internationally, promotes sustainable fisheries management and healthy global marine ecosystems, and contributes to a stable international trade regime for Canadian fish and seafood products. The program advances its goals via multilateral and bilateral engagements, and coordinated strategies with international partners.

#### **Program 2.8—Aquatic Animal Health**

In collaboration with the Canadian Food Inspection Agency, the Department co-delivers Canada's National Aquatic Animal Health Program. The objective of the program is to protect against the introduction or spread of serious infectious diseases of national and international importance, in both wild and cultured aquatic animals. This protection is critical to safeguarding the health of Canada's aquatic resources and both Canada's domestic and export markets for fish and seafood products. In doing so, National Aquatic Animal Health Program provides greater economic stability and potential for growth of the industries and regions that depend on these resources. The Department provides the scientific advice, diagnostic testing and research which inform the certification of aquatic animal health status and support the delivery of federal responsibilities under the *Health of Animals Act* and the *Fisheries Act*. The program also supports the delivery of other Fisheries and Oceans Canada programs, such as the Salmon Enhancement Program, Biotechnology and Genomics, and the Sustainable Aquaculture Science Program.

#### **Program 2.9—Biotechnology and Genomics**

The Department is responsible for developing the knowledge that is required for the regulation and risk assessment of fish products derived from innovations in biotechnology and genomics. Biotechnology and genomics can provide leading-edge techniques and strategies for the sustainable development of aquatic resources. The Department's use of these tools improves Canada's ability to protect species at risk, manage the opening and closing of fisheries, prosecute poachers, improve aquaculture practices, control disease outbreaks, and remediate contaminated sites.

**Program 2.10—Territorial Delineation**

The definition and description of Canada's maritime boundaries is reliant on hydrographic data and nautical geodetic expertise. Fisheries and Oceans Canada's Canadian Hydrographic Service and Oceanographic Services is responsible for the provision of hydrographic and nautical data and nautical geodetic expertise. The program's technical experts define the geographic positions for all Canadian offshore maritime limits and boundaries and provide the nautical geodetic evidence to resolve boundary disputes (e.g., Beaufort Sea, Hans Island) and prosecutions related to the violation of international maritime law (e.g., foreign fishing), as well as other infractions in Canadian waters. Through the international recognition of these limits and boundaries, Canada is able to assert its sovereign rights to resources, and to secure its maritime boundaries. Canada ratified the United Nations Convention on the Law of the Sea and in 2013 submitted evidence to the United Nations Commission on the Limits of the Continental Shelf (the Commission) in support of the establishment of the outer limits of Canada's continental shelf beyond the current 200 nautical mile Exclusive Economic Zone. Canada also submitted a preliminary report indicating that an Arctic submission would be forthcoming after further data collection. The Department works closely in this endeavour with Foreign Affairs, Trade and Development Canada and Natural Resources Canada to prepare the second submission to present and defend Canada's evidence submission to the Commission.

**Program 2.11—Climate Change Adaptation Program**

Fisheries and Oceans Canada contributes to the growth and sustainability of numerous maritime sectors and has infrastructure assets in the billions of dollars. It needs to have the capacity to adjust its decisions and activities based on the impact of climate change. The Climate Change Adaptation Program assesses risk, develops science knowledge and adaptation tools, which facilitate the integration of climate change considerations and adaptive management strategies into its decision making. Whether it is managing the fisheries resource, small craft harbours, or marine navigation, decision making must take into account climate change to ensure that Canada continues to benefit socially and economically from its oceans and inland waters. This program is one element of a much larger horizontal program which includes nine federal departments, including Environment Canada, Natural Resources Canada, and the Public Health Agency of Canada.

**Strategic outcome 3**

Sustainable Aquatic Ecosystems.

**Program 3.1—Compliance and Enforcement**

The Compliance and Enforcement program ensures the conservation and sustainable use of Canada's aquatic resources and the protection of species at risk, fish habitat, and oceans. The program is delivered through a regulatory management and enforcement approach, and uses a number of tools to achieve its goals, including promoting compliance with legislation, regulations and management measures through education and shared stewardship; monitoring, control, and surveillance activities; and the management of major cases and special investigations. The National Fisheries Intelligence Service and Program and Operational Readiness sub-programs support the carrying out of enforcement operations. The program works closely with the Ecosystems and Fisheries Management Sector, the Royal Canadian Mounted Police, various domestic and international partners including industry, to ensure peaceful and orderly fisheries. It makes a significant contribution, with the Canadian Coast Guard, to the protection of Canadian sovereignty and assists the Department of National Defence with identifying potential marine security threats. It also plays a key administrative role, along with Ecosystems and Fisheries Management, Environment Canada, and the Canadian Food Inspection Agency, in the Canadian Shellfish Sanitation Program to help ensure that the public is protected from contaminated fisheries products.

**Program 3.2—Fisheries Protection**

The Fisheries Protection Program exists to ensure that commercial, recreational and Aboriginal fisheries are productive and sustainable. As part of its core business, the Fisheries Protection Program is responsible for the administration of the fisheries protection provisions of the *Fisheries Act* including the establishment of guidelines and regulations. The program undertakes the review and authorization of proposed works, undertakings and activities that may affect fish and fish habitat and fulfills its legislative

responsibilities in relation to federal environmental assessment regimes and addresses its Section 35 *Constitution Act*, 1982 duty to consult relative to authorization decisions. The program also provides science-based advice to federal custodial departments to support contaminated site management through the Federal Contaminated Sites Action Plan. Sustainability and ongoing productivity of commercial, recreational and Aboriginal fisheries is best achieved when partners and stakeholders with a common interest work together to conserve and protect fish and fish habitat. The Fisheries Protection Program has established partnering arrangements with some federal agencies and provinces which allow them to conduct initial reviews of projects, to determine if they require advice or review by the Fisheries Protection Program under the *Fisheries Act*. The Recreational Fisheries Conservation Partnerships Program encourages a partnership-based approach through the provision of funding to recreational fisheries and conservation groups to undertake habitat restoration activities. Finally, the Fisheries Protection Program helps to address the issue of aquatic invasive species through federal-provincial/territorial cooperation and the development of regulatory tools to prevent the introduction and spread of aquatic invasive species.

### **Program 3.3—Oceans Management**

The Oceans Management program takes an integrated and evidence based approach to managing oceans issues and collaborates with other federal departments, other levels of government, Aboriginal groups, and stakeholders. Building on a foundation of science, the program addresses a number of challenges facing Canada's oceans, such as oceans health, marine habitat loss, declining biodiversity and growing demands for access to ocean space and resources. The program gathers, disseminates and considers information on ecological, social and economic impacts to ensure the protection, conservation and sustainable use of Canada's oceans. The legal basis for the program derives from the *Oceans Act* along with Canada's Oceans Strategy which provides the Department with a framework for managing estuarine, coastal and marine ecosystems.

### **Program 3.4—Species at Risk**

The *Species at Risk Act* is the federal legislative tool for protecting listed wildlife species at risk. It establishes a process for conducting scientific assessments of the status of wildlife species, by an arm's length organization, and for listing species addressed as extirpated, endangered, threatened and of special concern. The *Species at Risk Act* also includes provisions for the protection, recovery and conservation of listed wildlife species and their critical habitats and residences. The Minister of Fisheries and Oceans is the competent Minister for all aquatic species at risk in Canada (except those in, or on federal lands administered by Parks Canada). The program is managed according to key principles in the Act, such as stewardship, engagement, consultation, cooperation, compliance, and enforcement. The program is informed by scientific research, social and economic research, and stakeholder and community views. This information then supports the assessment and listing of species; the recovery and protection of listed species at risk through recovery strategies, action plans and management plans; the identification and protection of species' critical habitats; the implementation of recovery measures; and reporting on progress. The Species at Risk Program helps improve the ecological integrity of aquatic ecosystems so that they remain healthy and productive for future generations of Canadians.

### **Program 3.5—Environmental Response Services**

The Canadian Coast Guard is the lead federal agency for ensuring an appropriate response to all ship-source and unknown mystery pollution spills in Canadian waters and waters under international agreements. The Environmental Response Services program minimizes the environmental, economic, and public safety impacts of marine pollution incidents. Through the program, the Canadian Coast Guard establishes an appropriate and nationally consistent level of preparedness and response services in Canadian waters; monitors and investigates all reports of marine pollution in Canada in conjunction with other federal departments; and maintains communications with the program's partners, including Transport Canada and Environment Canada, to ensure a consistent coordinated approach to the response to marine pollution incidents. The Coast Guard's Fleet Operational Readiness program contributes to the delivery of this program. The program is delivered in coordination with other federal departments for surveillance information and scientific advice and with ship owners and commercial Response Organizations to support response efforts. The program's legal basis derives from the *Oceans Act*, the *Canada Shipping Act*, 2001, and the *Constitution Act*, 1867.

**Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

**Program 4.1—Internal Services**

See introductory text.

**Freshwater Fish Marketing Corporation**

**Strategic outcome 1**

To regulate interprovincial and export trade in freshwater fish.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Foreign Affairs, Trade and Development****Strategic outcome 1**

International Assistance and Poverty Alleviation - Poverty is reduced, and security and democracy are increased for those living in countries where Canada engages.

**Program 1.1—International Development**

The International Development program contributes to poverty alleviation by engaging in long-term development support in developing countries that have demonstrated a capacity to effectively plan and advance poverty reduction initiatives. To ensure the greatest impact, the program prioritizes its programming in themes identified by partner countries and where Canada maintains a particular expertise, including sustainable economic growth, children and youth, and food security. A key Canadian initiative included in this program is Canada's commitment to Maternal, Newborn, and Child Health. The program's investments in complementary programming areas, such as multi-sector assistance, provide the linkages that ensure that Canada's international development programming remains coherent and supportive of Canada's interests and values. The program is implemented mainly through contributions that target governments in developing countries, multilateral organizations, and non-governmental organizations.

**Program 1.2—International Humanitarian Assistance**

The International Humanitarian Assistance program reduces the vulnerability of people in crisis situations due to armed conflicts, acute food insecurity and natural disasters. It ensures that they receive timely and appropriate emergency food, water and sanitation, nutritional interventions, emergency medical care, shelter coordination and protection, and facilitates this by also supporting coordination and other shared humanitarian services. It addresses acute humanitarian needs through responses to international appeals for assistance. This program features short-term programming to ensure delivery of essential humanitarian services. It also provides long-term institutional support for day-to-day activities and operations of key humanitarian assistance partners. Canada engages on partner organizations' governing bodies and policy issues to ensure that they are effectively empowered to fulfill their humanitarian mandate and have the ability to deliver results in an increasingly challenging political and environmental context.

**Program 1.3—International Security and Democratic Development**

The International Security and Democratic Development program contributes to increased security by enhancing the capacity of foreign governments and international organizations to manage international peace and security challenges, prevent and respond to transnational crime and terrorism, and reduce the threat of weapons of mass destruction. It also supports democracy by working with partners in developing countries and regions, fragile states, states in transition to democracy and states governed by repressive regimes to promote the participation of people in political processes, enhance respect for human rights and the rule of law, and promote the emergence of effective and accountable institutions. The program partners with Crown Corporations and other institutions of the Government of Canada, foreign governments, institutions and agencies, multilateral organizations, and civil society organizations to build the stable, democratic foundations necessary for peace, sustainable development and poverty alleviation.

## **Strategic outcome 2**

Canada's International Agenda - The international agenda is shaped to advance Canadian security, prosperity, interests and values.

### **Program 2.1—Diplomacy, Advocacy, and International Agreements**

The Diplomacy, Advocacy, and International Agreements program enables engagement with foreign governments and international organizations to gain support for decisions and influence actions that advance Canada's interests and values. To achieve this, Global Affairs Canada engages decision makers at all levels in other countries and facilitates high-level engagement and advocacy by Canadian officials, including the Prime Minister, so that Canada's interests are reflected in bilateral, regional and multilateral agreements and initiatives, including international trade agreements. This program also supports public diplomacy activities to promote Canadian views on issues of concern to Canadians. Through assessed contributions and memberships, the program enables Canada to access international and multilateral organizations to further Canada's interests abroad. The program is also responsible for Canada's formal diplomatic representation abroad, and the accreditation of foreign representatives.

### **Program 2.2—Integrated Foreign Affairs, Trade, and Development Policy**

The Integrated Foreign Affairs, Trade and Development Policy program ensures that Government of Canada decision makers are provided with international information, analysis and policy advice in order to establish integrated and well-informed policies that advance Canada's interests and values internationally. This is achieved through policy coordination within Global Affairs Canada, with other government departments and stakeholders, and by utilizing advice provided from Global Affairs Canada's network of missions abroad to develop integrated and coherent whole-of-government policies on international issues.

## **Strategic outcome 3**

Canada's Network Abroad - The Department maintains a mission network of infrastructure and services to enable the Government of Canada to achieve its international priorities.

### **Program 3.1—Mission Network Governance, Strategic Direction and Common Services**

The Mission Network Governance, Strategic Direction and Common Services program enables Global Affairs Canada and the Government of Canada to achieve its international priorities by providing sound governance, strategic direction, and efficient and cost-effective common services to Canadian missions abroad and mission partners. These common services include management of real property and mission security, the provision of information management and information technology support, and the governance of the network's locally engaged staff. Management of this mission network is provided through cooperation with Global Affairs Canada, federal departments and agencies, Crown corporations, provincial governments, other national governments, and non-governmental organizations to ensure common-service standards are clearly defined, and sustainably delivered, and that ongoing changes to the network are effectively managed.

### **Program 3.2—Management of Government of Canada Terms and Conditions of Employment Abroad**

The Management of Government of Canada Terms and Conditions of Employment Abroad program supports the operation of Canada's mission network by ensuring that Canada-based staff receive timely and accurate Foreign Service Directives payments and services, and locally engaged staff receive timely and accurate Pension, Insurance and Social Security Program payments and support. This is achieved through the effective governance and administration of Foreign Service Directives policy, payments and services, as well as the policies and payments to service providers associated with locally engaged staff pension, insurance, and social security programs.

## **Strategic outcome 4**

International Commercial and Consular Services for Canadians - Canadians are satisfied with commercial and consular services.

**Program 4.1**—International Commerce

The International Commerce program delivers commerce services and advice to Canadian businesses to help them succeed internationally. This is primarily achieved through Canada's Trade Commissioner Service, which provides trade promotion tools, expert advice and services that match identified priority markets with the capabilities and interests of Canadian businesses. The Trade Commissioner Service organizes sector-specific, targeted trade missions to priority markets, helps Canadian businesses access global value chains, and supports the facilitation, expansion or retention of foreign direct investment as well as international innovation, science and technology partnerships. The Trade Commissioner Service facilitates the conclusion of international commercial agreements and actively monitors its responsiveness to the needs of Canadian businesses.

**Program 4.2**—Consular Services and Emergency Management

The Consular Services and Emergency Management program provides travel advice and consular services to Canadians, as well as a coordinated Government of Canada response to emergencies affecting Canadians abroad. This work is done through consular agents and officers at missions abroad and through the use of the website [travel.gc.ca](http://travel.gc.ca) and Global Affairs Canada's social network platform, which provides timely and accurate safe travel information and advisories to Canadians to allow them to make responsible decisions about travel to foreign countries. This program provides Canadians outside Canada with consular assistance for routine requests and also with 24 hours a day, seven days a week assistance in handling individual cases of distress. In cooperation with federal partners and missions, the program provides a coherent whole-of-government response to emergencies abroad affecting Canadians.

**Strategic outcome 5**

The following program supports all strategic outcomes within this organization.

**Program 5.1**—Internal Services

See introductory text.

**Canadian Commercial Corporation**

**Strategic outcome 1**

Enhanced market access for Canadian exporters to complex international public sector markets.

**Program 1.1**—Defence

This consists of export sales in the aerospace, defence and security sectors. These include sales to all levels of government.

**Program 1.2**—Emerging and Developing Markets

This is non-Defence Production Sharing Agreement and non-aerospace, defence and security business consisting of supply and construction projects in a variety of other sectors and can include sales to all levels of government, federal, state and municipal.

## **International Development Research Centre**

### **Strategic outcome 1**

Stronger capacity in developing countries to research and propose solutions that support sustainable and equitable development and poverty reduction.

#### **Program 1.1—Research on Development Challenges**

International Development Research Centre supports research in developing countries to promote growth and development. The challenges facing international development are varied and complex. Research and innovation are vitally important to grapple with these challenges. Under the Strategic Framework 2010-2015, International Development Research Centre focuses on agriculture and the environment, science and innovation; social and economic policy; and health and health systems. Within each focus, programs define the specific development problem and identify the most promising approaches to address them. These programs support applied research as well as activities that strengthen the particular fields of knowledge. International Development Research Centre continually assesses why, where, and how to intervene to have the greatest impact. Program funding is allocated on an annual basis to reflect these changing priorities. International Development Research Centre works with researchers and innovators in the developing world, often in cooperation with researchers in Canada and elsewhere. Most projects are conducted by developing-world institutions themselves, including universities, research organizations, and civil society. International Development Research Centre also encourages sharing this knowledge with policymakers, other researchers, and communities around the world. The result is innovative, lasting local solutions that aim to bring choice and change to those who need it most.

#### **Program 1.2—Capacity to Do, Use and Manage Research**

International Development Research Centre also invests in research intended to assist the developing world to solve its own problems. To contribute to their societies, researchers and innovators in the developing world need to access global knowledge, engage their peers, and share their work. In short, they need opportunities to build their capacity to do, use and manage research. This program supports projects and technical assistance related to research design and methodology, communication and evaluation. Training and experts help researchers to develop their own ideas, communicate their results, and contribute to the larger efforts to reduce poverty. International Development Research Centre also works on evaluation methodologies and tools, and supports professional communities of evaluators in the developing world. This program works with research, media and evaluation professionals in the developing world. It does so using a “grants-plus” approach to supporting research for development. This approach combines financial support to create new opportunities for research, engagement with recipients in the research process, and brokering that helps strengthen research-to-policy linkages. The work of International Development Research Centre is part of Canada’s international assistance and is guided by the *International Development Research Centre Act*.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **International Joint Commission (Canadian Section)**

### **Strategic outcome 1**

Prompt and effective prevention and/or resolution of potential disputes under the Boundary Water Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-US relations.

**Program 1.1**—Boundary Waters Treaty

The issuing of Orders of Approval in response to applications for the use, obstruction or diversion of waters that flow along and/or across the boundary if such uses affect the natural water levels or flows on the other side; undertaking investigations of specific issues (references) when requested by governments; and the provision to make binding decisions on matters referred to it by the governments.

**Program 1.2**—Great Lakes Water Quality Agreement

To evaluate progress toward restoring and maintaining the chemical, physical and biological integrity of the waters of the Great Lakes basin ecosystem.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Health****Strategic outcome 1**

First Nations and Inuit communities and individuals receive health services and benefits that are responsive to their needs so as to improve their health status.

**Program 1.1—Supplementary Health Benefits for First Nations and Inuit**

Under the Supplementary Health Benefits for First Nations and Inuit program, the Non Insured Health Benefits Program provides registered First Nations and recognized Inuit residents in Canada with a specified range of medically necessary health related goods and services, which are not otherwise provided to eligible clients through other private or provincial/territorial programs. Non Insured Health Benefits include: pharmaceuticals; medical supplies and equipment; dental care; vision care; short term crisis intervention mental health counselling; and, medical transportation to access medically required health services not available on reserve or in the community of residence. The Non Insured Health Benefits Program also pays health premiums on behalf of eligible clients in British Columbia (as of July 2013, Non Insured Health Benefits will no longer pay premiums for First Nations residents of British Columbia, who will become clients of the First Nations Health Authority in accordance with the British Columbia Tripartite Health Agreement and sub agreements). Benefits are delivered through registered, private sector health benefits providers (e.g., pharmacists and dentists) and funded through Non Insured Health Benefits' electronic claims processing system or through regional offices. Some benefits are also delivered via contribution agreements with First Nations and Inuit organizations and the territorial governments in Nunavut and Northwest Territories. The program objective is to provide benefits in a manner that contributes to the improved health status of First Nations and Inuit. This program uses funding from the following transfer payment: First Nations and Inuit Supplementary Health Benefits.

**Program 1.2—First Nations and Inuit Primary Health Care**

The *Department of Health Act* 1996, and the Indian Health Policy (1979) provide the authority for the delivery of the First Nations and Inuit Primary Health Care program to First Nations and Inuit in Canada. Primary health care includes health promotion and disease prevention, public health protection (including surveillance), and primary care (where individuals are provided diagnostic, curative, rehabilitative, supportive, palliative/end-of-life care, and referral services). The department administers contribution agreements and direct departmental spending related to child development, mental wellness and healthy living, communicable disease control and management, environmental health, clinical and client care, as well as home and community care. The program objective is to improve the health and safety of First Nations and Inuit individuals, families, and communities.

**Program 1.3—Health Infrastructure Support for First Nations and Inuit**

The *Department of Health Act* 1996, and the Indian Health Policy (1979) provide the authority for the Health Infrastructure Support for First Nations and Inuit program to administer contribution agreements and direct departmental spending to support the delivery of health programs and services. The program promotes First Nation and Inuit capacity to design, manage, deliver, and evaluate health programs and services. To better meet the unique health needs of First Nations and Inuit individuals, families, and communities this program also supports: innovation in health program and service delivery; health governance partnerships between Health Canada, the provinces, and First Nation and provincial health services; and, improved integration of First Nation and provincial health services. The program objective is to help improve the health status

of First Nations and Inuit people, to become comparable to that of the Canadian population over the long term. The program objective is to help improve First Nations and Inuit capacity to influence and/or control the delivery of health programs and services to First Nations and Inuit individuals, families and communities.

## **Strategic outcome 2**

Health risks and benefits associated with food, products, substances, and environmental factors are appropriately managed and communicated to Canadians.

### **Program 2.1—Health Products**

The *Department of Health Act*, and the *Food and Drugs Act and Regulations* provide the authority for Health Canada to develop, maintain, and implement a regulatory framework associated with a broad range of health products that affect the everyday lives of Canadians, including pharmaceutical drugs, biologics and radiopharmaceuticals, medical devices, and natural health products. Health Canada verifies that the regulatory requirements for the safety, quality, and efficacy of health products are met through risk assessments, including monitoring and surveillance, compliance, and enforcement activities. In addition, Health Canada provides evidence-based, authoritative information to Canadians and key stakeholders, including health professionals such as physicians, pharmacists and natural health practitioners, to enable them to make informed decisions. The program objective is to ensure that health products are safe, effective, and of high quality for Canadians.

### **Program 2.2—Substance Use and Abuse**

Under the authority of several Acts, the Substance Use and Abuse program regulates tobacco products and controlled substances. Through the *Tobacco Act* and its regulations the program regulates the manufacture, sale, labelling and promotion of tobacco products. The program leads the Federal Tobacco Control Strategy, the goal of which is to further reduce the prevalence of smoking through regulatory, programming, educational and enforcement activities. Through the *Controlled Drugs and Substances Act* and its regulations, the program regulates access to controlled substances and precursor chemicals to support their legitimate use and minimize the risk of diversion for illicit use. As a partner department under the National Anti-Drug Strategy, the program supports prevention, health promotion, treatment initiatives, and enforcement with the goal of reducing substance use and abuse, including prescription drug abuse. In addition, the program provides timely, evidence-based information to key stakeholders including, but not limited to, law enforcement agencies, health professionals, provincial and territorial governments and Canadians. The program objective is to manage risks to the health of Canadians associated with the use of tobacco products, and the illicit use of controlled substances and precursor chemicals.

### **Program 2.3—Environmental Risks to Health**

The *Canadian Environmental Protection Act 1999* and the *Department of Health Act* provide the authorities for the Environmental Risks to Health program to assess and manage the health risks associated with climate change, air quality, drinking water quality, and new and existing substances. This program links closely with Health Canada's Health Products, Food Safety and Nutrition, Consumer Product Safety and Pesticides program, as the *Food and Drugs Act*, the *Pest Control Products Act*, and the *Canada Consumer Product Safety Act* provide the authority to manage the health risks associated with substances in products in the purview of these programs. Key activities include: risk assessment and management as well as research and bio-monitoring of substances; provision of technical support for chemical emergencies that require a coordinated federal response; development of guidelines on indoor and outdoor air quality; development and dissemination of water quality guidelines; and provision of expert support related to environmental assessments and contaminated sites. The program objective is to protect the health of Canadians through the assessment and management of health risks associated with environmental contaminants, particularly substances, and to provide expert advice and guidelines to Canadians and government partners on the health impacts of environmental factors such as air and water contaminants and a changing climate.

### **Program 2.4—Food Safety and Nutrition**

The *Department of Health Act* and the *Food and Drugs Act* provide the authority for Health Canada to develop, maintain, and implement a regulatory framework associated with the safety and nutritional quality of food. Food safety standards are enforced by the Canadian Food Inspection Agency. Health Canada develops and promotes evidence-based, national healthy eating policies and standards for Canadians and key stakeholders, including non-governmental organizations, health professionals, and industry

associations to enable all stakeholders to make informed decisions about food and nutrition safety as well as healthy eating. The program objectives are to manage risks to the health and safety of Canadians associated with food and its consumption, and to enable Canadians to make informed decisions about healthy eating.

**Program 2.5—Pesticides**

The *Pest Control Products Act* provides Health Canada with the authority to regulate and register pesticides, under the Pesticides program. In the delivery of this program, Health Canada conducts activities that span the lifecycle of a pesticide, including: product assessment for health and environmental risks and product value; risk management; post market surveillance, compliance and enforcement; changes in use, cancellation, or phase out of products that do not meet current standards; and, consultations and public awareness building. Health Canada is also an active partner in international efforts (e.g., North American Free Trade Agreement; Organization for Economic Cooperation and Development, Regulatory Cooperation Council) to align regulatory approaches. These engagements provide access to the best science available to support regulatory decisions and promote consistency in the assessment of pesticides. The program objective is to protect the health and safety of Canadians relating to the use of pesticides.

**Program 2.6—Consumer Product and Workplace Hazardous Materials**

The Consumer Product Safety and Workplace Hazardous Materials programs support efforts to protect Canadians from unsafe products and chemicals. The Consumer Product Safety program supports industry's responsibility for the safety of their products under the authorities of the *Canada Consumer Product Safety Act* and the *Food and Drugs Act* and its Cosmetic Regulations. In addition, the program supports consumers' responsibility to make informed decisions about product purchase and use. Health Canada's efforts are focused in three areas: active prevention; targeted oversight; and, rapid response. The *Hazardous Products Act* and the *Hazardous Materials Information Review Act* provide the authorities for the Workplace Hazardous Materials program to maintain a national hazard communication standard of cautionary labelling and safety data sheets for hazardous chemicals supplied for use in Canadian workplaces and to protect related confidential business information. The objectives of the programs are to identify, assess, manage and communicate health or safety risks to Canadians associated with consumer products and cosmetics, as well as to communicate the hazards of workplace materials.

**Program 2.7—Radiation Protection**

The *Department of Health Act*, the *Radiation Emitting Devices Act*, and the *Comprehensive Nuclear-Test-Ban Treaty Implementation Act* provide the authority for the Radiation Protection program to monitor, regulate, advise, and report on exposure to radiation that occurs both naturally and from man-made sources. In addition, the program is licensed under the *Nuclear Safety and Control Act* to deliver the National Dosimetry Service, which provides occupational radiation monitoring services. The key components of the program are environmental and occupational radiation monitoring, management of inter-organisational plans, procedures, capabilities and committees for a nuclear emergency that requires a coordinated federal response, delivering a national radon outreach program, and regulation of radiation emitting devices. The program objective is to inform and advise other Canadian government departments, collaborate with international partners, and inform Canadians about the health risks associated with radiation, and strategies to manage associated risks.

**Strategic outcome 3**

A health system responsive to the needs of Canadians.

**Program 3.1—Canadian Health System Policy**

The Canadian Health System Policy program provides strategic policy advice, research, and analysis to support decision-making on health care system issues, as well as program support to provinces and territories, partners, and stakeholders on health care system priorities. Mindful of equity, sustainability, and affordability Health Canada collaborates and targets its efforts in order to support improvements to the health care system such as improved access, quality, and integration of health care services. Through the management of grants and contributions agreements with key pan-Canadian health partners, the Canadian Health System Policy program contributes to priority

health issues requiring national leadership and strong partnership. The program objective is to support improvement in the health care system to help Canadians maintain and improve their health.

### **Program 3.2—Official Language Minority Community Development**

The Official Language Minority Community Development program involves the administration of Health Canada's responsibilities under Section 41 of the *Official Languages Act*. This Act commits the federal government to enhancing the vitality of official language minority communities and fostering the full recognition and use of English and French in Canadian society. This program includes: consulting with Canada's official language minority communities on a regular basis; supporting and enabling the delivery of contribution programs and services for official language minority communities; reporting to Parliament and Canadians on Health Canada's achievements under Section 41; and, coordinating Health Canada's activities and awareness in engaging and responding to the health needs of official language minority communities. The program objectives are to improve access to health services in the minority official language communities and to increase the use of both official languages in the provision of health care services. This program uses funding from the following transfer payment: Official Languages Health Contribution Program.

### **Program 3.3—Specialized Health Services**

The Specialized Health Services program supports the Government of Canada's obligation to protect the health and safety of its employees and the health of visiting dignitaries. Health Canada delivers counselling, organizational development and critical incident support services to federal government departments through a network of contracted mental health professionals and also provides immediate response to employees following traumatic incidents in the workplace. Health Canada delivers occupational health and occupational hygiene consultative services to ensure that public servants meet medical requirements to safely and effectively perform their duties and to prevent work-related illness and injury. Health Canada pro-actively contributes to reducing the number of work days lost to illness across the federal government through the provision of the occupational and psycho social health services to federal public servants. Health Canada also arranges for the provision of health services for Internationally Protected Persons who have come to Canada for international events, such as meetings or official visits by government leaders or the Royal Family. An Internationally Protected Person is a representative of a State, usually Heads of State and/or Government, members of the Royal Family, or officials of an international organisation of an intergovernmental character. The program objective is to ensure continuity of services and the occupational health of federal public servants who can deliver results to Canadians in all circumstances and to arrange health services for Internationally Protected Persons.

## **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

### **Program 4.1—Internal Services**

See introductory text.

## **Canadian Food Inspection Agency**

### **Strategic outcome 1**

A safe and accessible food supply and plant and animal resource base.

### **Program 1.1—Food Safety Program**

The Food Safety Program aims to mitigate risks to public health associated with diseases and other health hazards in the food supply system and to manage food safety emergencies and incidents. The program achieves its objectives by promoting food safety awareness through public engagement and verification of compliance by industry with standards and science-based regulations. The program delivers initiatives to verify that consumers receive food safety and nutrition information and to mitigate unfair

market practices targeting consumers and industry. Collaboration with other governments and stakeholders further enhances the Agency's ability to track, detect and mitigate risks associated with food and the food supply system, including food-borne illness. This program supports public health and instills confidence in Canada's food system.

**Program 1.2—Animal Health and Zoonotics Program**

The Animal Health and Zoonotics Program aims to mitigate risks to Canada's animal resource base, animal feeds and animal products, which are integral to a safe and accessible food supply system as well as to public health. The program achieves its objectives by mitigating risks to Canada's animals (including livestock and aquatic animals) from regulated diseases, managing animal disease emergencies and incidents, mitigating and managing risks to livestock and derived food products associated with feed, promoting animal welfare and guarding against deliberate threats to the animal resource base. The program helps to mitigate risks associated with animal diseases that can be transmitted to humans by controlling diseases within animal populations. This program supports the health of Canada's animal resources and instills confidence in the safety of Canada's animals, animal products and by-products, and production systems.

**Program 1.3—Plant Resources Program**

The Plant Resources Program aims to mitigate risks to Canada's plant resource base, which is integral to a safe and accessible food supply, as well as to public health and environmental sustainability. The program achieves its objectives by regulating agricultural and forestry products; mitigating risks to the plant resource base (including crops and forests) from regulated pests and diseases; regulating the safety and integrity of seeds, fertilizers and plant products; and managing plant health emergencies and incidents. The program also guards against deliberate threats to the plant resource base, facilitates the introduction of emerging plant technologies and protects the rights of plant breeders. Achieving the objectives of the program instills confidence in Canada's plants, plant production systems and plant products, and contributes to the health of Canada's plant resources.

**Program 1.4—International Collaboration and Technical Agreements**

The Canadian Food Inspection Agency's International Collaboration and Technical Agreements program contributes to a coherent, predictable, and science-based international regulatory framework that facilitates compliance with the regulatory requirements of importing countries' food, animals, plants, and their products, resulting in the facilitation of multi-billion dollar trade for the Canadian economy. The program achieves its objectives through active participation in international fora for the development of international science-based rules, standards, guidelines and policies and the management of sanitary and phytosanitary committees established under international agreements. The Canadian Food Inspection Agency's active promotion of the Canadian science-based regulatory system among foreign trading partners and its negotiations to resolve scientific and technical issues contribute to market access. This program uses funding from the following transfer payment: Federal Assistance Program.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Canadian Institutes of Health Research**

**Strategic outcome 1**

Canada is a world leader in the creation, dissemination and application of health research knowledge.

### **Program 1.1—Investigator-Initiated Health Research**

To develop and support a well-trained base of world-class health researchers and trainees conducting ethically sound research across all aspects of health, including biomedical research, clinical research, research respecting health systems, health services, the health of populations, societal and cultural dimensions of health and environmental influences on health, and other research as required. The goal of this program is to advance health knowledge and to apply this knowledge in order to improve health systems and/or health outcomes. Grants and awards are disbursed to fund research or to provide career or training support. The specific area of research is identified by the researcher.

### **Program 1.2—Priority-Driven Health Research**

Canadian Institutes of Health Research's provides funding to researchers for ethically sound emergent and targeted research that responds to the changing health needs and priorities of Canadians across all aspects of health, including biomedical research, clinical research, research respecting health systems, health services, the health of populations, societal and cultural dimensions of health and environmental influences on health, and other research as required. The goal of this program is to advance health knowledge and its application, in specific areas of research identified by Canadian Institutes of Health Research in consultation with other government departments, partners and stakeholders, in order to improve health systems and/or improve health outcomes in these priority areas. Grants are disbursed to fund research or to provide career or training support.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Patented Medicine Prices Review Board**

### **Strategic outcome 1**

Canadians are protected from excessive prices for patented medicines sold in Canada and stakeholders are informed on pharmaceutical trends.

### **Program 1.1—Patented Medicine Prices Regulation Program**

The Patented Medicine Prices Review Board is an independent quasi-judicial body that is responsible for ensuring that the prices that patentees charge for patented medicines sold in Canada are not excessive based on the price review factors in the *Patent Act* (the Act). To make this determination the Board must consider each of the following factors: prices at which the medicine and other medicines in the same therapeutic class have been sold in Canada and in the seven comparator countries listed in the Patented Medicines Regulations (Regulations); changes in the Consumer Price Index; and in accordance with the Act, such other factors as may be specified in any regulations made for the purposes of the price review. Under the Act, and as per the Regulations, patentees are required to file price and sales information for each patented medicine sold in Canada, for the duration of the patent(s). Board Staff reviews the introductory and ongoing information filed by patentees, for all patented medicines sold in Canada. When it finds that the price of a patented medicine appears to be excessive, Board Staff will conduct an investigation into the price. An investigation could result in: its closure where it is concluded that the price was non-excessive; a Voluntary Compliance Undertaking by the patentee to reduce the price and offset excess revenues obtained as a result of excessive prices through a payment and/or a price reduction of another patented drug product; or a public hearing to determine if the price is excessive, including any remedial order determined by the Board. In the event that the Board Hearing Panel finds, after a public hearing, that a price is or was excessive, it may order the patentee

to reduce the price and take measures to offset any excess revenues. This program, by reviewing the prices charged by patentees for patented medicines sold in Canada, protects Canadians and the health care system from excessive prices.

**Program 1.2—Pharmaceutical Trends Program**

The Patented Medicine Prices Review Board reports annually to Parliament through the Minister of Health on its price review activities, the prices of patented medicines and price trends for all drugs, and R and D expenditures as reported by pharmaceutical patentees. In supporting this requirement, the pharmaceutical trends program provides complete and accurate information on trends in manufacturers' prices of patented medicines sold in Canada and on patentees' research-and-development expenditures to interested stakeholders including: industry (i.e., brand-name, biotech, generic); federal, provincial and territorial governments; consumer and patient advocacy groups; third party payers; and others. This information also provides assurance to Canadians that the prices of patented medicines are not excessive. In addition, as a result of the establishment of the National Prescription Drug Utilization Information System by federal, provincial and territorial ministers of health the Minister of Health requested that the Patented Medicine Prices Review Board conduct analysis of price, utilization and cost trends for patented and non-patented prescription drugs so that Canada's health system has more comprehensive, accurate information on how all prescription drugs are being used and on the sources of cost increases. This function is aimed at providing federal/provincial/territorial governments and other interested stakeholders with a centralized credible source of information on all prescription drug prices.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Public Health Agency of Canada**

**Strategic outcome 1**

Protecting Canadians and empowering them to improve their health.

**Program 1.1—Health Promotion and Disease Prevention**

The Health Promotion and Disease Prevention Program aims to improve the overall health of the population—with additional focus on those that are most vulnerable—by promoting healthy development among children, adults and seniors, reducing health inequalities, and preventing and mitigating the impact of chronic disease and injury, as well as infectious diseases. Working in collaboration with provinces, territories, and stakeholders, the Program develops and implements federal aspects of frameworks and strategies (e.g. Curbing Childhood Obesity: A Federal, Provincial and Territorial Framework for Action to Promote Healthy Weights, national approaches to addressing immunization, HIV/AIDS) geared toward promoting health and preventing disease. The Program carries out primary public health functions of health promotion, surveillance, science and research on diseases and associated risk and protective factors to inform evidenced-based frameworks, strategies, and interventions.

### **Program 1.2—Public Health Infrastructure**

The Public Health Infrastructure Program strengthens Canada's public health, workforce capability, information exchange, and federal, provincial and territorial networks, and scientific capacity. These infrastructure elements are necessary for effective public health practice and decision-making in Canada. The program works with federal, provincial and territorial stakeholders in planning for and building strategic and targeted investments in public health infrastructure, including public health research, training, tools, best practices, standards, and mechanisms to facilitate information exchange and coordinated action. Public health laboratories provide leadership in research, technical innovation, reference laboratory services, surveillance, outbreak response capacity and national laboratory coordination to inform public health policy and practice. Through these capacity-building mechanisms and scientific expertise, the Government of Canada facilitates effective coordination and timely public health interventions which are essential to having an integrated and evidence-based national public health system based on excellence in science. Key stakeholders include local, regional, provincial, national and international, public health organizations, practitioners and policy makers, researchers and academics, professional associations and non-governmental organizations.

### **Program 1.3—Health Security**

The Health Security Program takes an all hazards approach to the health security of Canada's population, which provides the Government of Canada with the ability to prevent, prepare for and respond to public health events/emergencies. This program seeks to bolster the resiliency of the populations and communities, thereby enhancing the ability to cope and respond. To accomplish this, its main methods of intervention include actions taken through collaborations with key jurisdictions and international collaborators. These actions are carried out by fulfilling Canada's obligations under the International Health Regulations and through the administration and enforcement of pertinent legislation and regulations.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Citizenship and Immigration**

**Strategic outcome 1**

Newcomers and citizens participate in fostering an integrated society.

**Program 1.1—Newcomer Settlement and Integration**

In accordance with the *Canadian Multiculturalism Act*, the *Employment Equity Act* and the *Immigration and Refugee Protection Act*, programming is developed based on policies that support the settlement, resettlement, adaptation and integration of newcomers into Canadian society. Ultimately, the goal of integration is to encourage newcomers to contribute to Canada's economic, social, political and cultural development. All permanent residents are eligible for settlement and integration programs. Programming is delivered by third parties (including provincial and municipal governments, school boards and post-secondary institutions, settlement service organizations and other non-governmental actors, and the private sector) across the country.

**Program 1.2—Citizenship for Newcomers and All Canadians**

The purpose of the Citizenship Program is to administer citizenship legislation and promote the rights and responsibilities of Canadian citizenship. Citizenship and Immigration Canada administers the acquisition of Canadian citizenship by developing, implementing, and applying legislation, regulations and policies that protect the integrity of Canadian citizenship and allow eligible applicants to be granted citizenship or be provided with a proof of citizenship. In addition, the program promotes citizenship, to both newcomers and the Canadian-born, through various events, materials and projects. Promotional activities focus on enhancing knowledge of Canada's history, institutions, and values, as well as fostering an understanding of the rights and responsibilities of Canadian citizenship.

**Strategic outcome 2**

Migration of permanent and temporary residents that strengthens Canada's economy.

**Program 2.1—Temporary Economic Residents**

Rooted in objectives outlined in *Immigration and Refugee Protection Act*, the focus of this program is to establish and apply the rules governing entry into Canada of foreign nationals authorized for temporary work and study. Temporary economic migration enhances Canada's trade, commerce, cultural, educational and scientific activities, in support of our overall economic and social prosperity and national interests. The selection and processing involve the issuance of temporary resident visas, work permits and study permits to qualified applicants, as well as the refusal of unqualified applicants.

**Program 2.2—Permanent Economic Residents**

Rooted in objectives outlined in the *Immigration and Refugee Protection Act*, the focus of this program is on the selection and processing of immigrants who can support the development of a strong and prosperous Canada, in which the benefits of immigration are shared across all regions of Canada. The acceptance of qualified permanent

residents helps the government meet its economic objectives, such as building a skilled work force, addressing immediate and longer-term labour market needs, and supporting national and regional labour force growth. The selection and processing of applications involve the granting of permanent residence to qualified applicants, as well as the refusal of unqualified applicants.

### **Strategic outcome 3**

Family and humanitarian migration that reunites families and offers protection to the displaced and persecuted.

#### **Program 3.1—Family and Discretionary Immigration**

Citizenship and Immigration Canada's family and discretionary programs support the Government of Canada's social goals for immigration. The program's objectives are to reunite family members in Canada, and to allow for the processing of exceptional cases. Family Class provisions of *Immigration and Refugee Protection Act* enable Canadian citizens and permanent residents of Canada to apply to sponsor eligible members of the Family Class, including spouses and partners, dependent children, and parents and grandparents. Discretionary provisions in the legislation are used in cases where there are humanitarian and compassionate considerations or for public policy reasons. These discretionary provisions provide the flexibility to approve exceptional and deserving cases not anticipated in the legislation and to support the Government of Canada in its humanitarian response to world events and crises. Eligibility assessment and processing involve the granting of permanent or temporary residence to qualified applicants, as well as the refusal of unqualified applicants.

#### **Program 3.2—Refugee Protection**

The Refugee Protection Program is in the first instance about saving lives and offering protection to the displaced and persecuted. Overseas, refugees and persons in refugee-like situations are selected by Canadian visa officers to be resettled as permanent residents to Canada. Flowing from Canada's international and domestic legal obligations, the in-Canada asylum system evaluates the claims of individuals seeking asylum in Canada and grants protected person status when a positive decision is rendered by the Immigration and Refugee Board of Canada, an independent, quasi-judicial tribunal.

### **Strategic outcome 4**

Managed migration and facilitated travel that promote Canadian interests and protect the health, safety and security of Canadians.

#### **Program 4.1—Migration Control and Security Management**

Citizenship and Immigration Canada facilitates the travel of bona fide permanent residents, visitors, students and temporary workers while protecting the health, safety and security of Canadians by effectively managing migration access. This is accomplished through a variety of policy and operational measures, including through the establishment of visa and other document entry requirements and otherwise maintaining the policy framework for terms and conditions of entry, admissibility criteria, anti-fraud measures, negotiations of bilateral and multilateral information-sharing agreements and treaties, as well as setting identity management practices. CIC also provides assistance to illegal migrants who are deemed destined to Canada, to return them to their home country of origin. Strategic partnership engagements with security and public safety-related departments and international organizations are another essential component of this program.

#### **Program 4.2—Health Protection**

This program aims to provide effective immigration health services to manage the health aspect of migrant entry and settlement to Canada, and facilitate the arrival of resettled refugees to Canada and their integration while contributing to the protection of the health and safety of all Canadians and contributing to the maintenance of sustainable Canadian health and social services. The program aims to evaluate health risks related to immigration and coordinate with international and Canadian health partners to develop risk management strategies and processes to assess the health risks posed by applicants wishing to immigrate to Canada. The strategies, processes and interventions are intended to reduce the impact of the risks identified on the health of Canadians and on Canada's health and social services.

**Program 4.3**—Canadian Influence in International Migration and Integration Agenda

As part of its mandate, Citizenship and Immigration Canada aims to influence the international migration and integration policy agenda. This is done by developing and promoting, together with other public policy sectors, Canada's positions on international migration, integration and refugee protection issues through meetings with multilateral and bilateral partners, membership in international organizations, and participation in regional forums. Citizenship and Immigration Canada works closely with bilateral partners to ensure the effective management of migration and administration of immigration laws through an exchange of information, including biometric data. This international migration policy development helps Canada advance its interests with respect to international migration as well as meet its international obligations and commitments. Citizenship and Immigration Canada supports international engagement and partnerships through membership in and contributions to such organizations as the International Organization for Migration, Regional Conference on Migration, the United Nations High Commissioner for Refugees, the Five Country Conference, the Global Forum on Migration and Development, and the Intergovernmental Consultations on Migration, Asylum and Refugees. The program uses transfer payment funding for the following: Migration Policy Development Program (grants), and membership in the International Organization for Migration (annual assessed contributions) and the International Holocaust Remembrance Alliance (annual assessed contributions) formerly called the Task Force for International Cooperation on Holocaust Education, Remembrance and Research.

**Program 4.4**—Passport

Citizenship and Immigration Canada is accountable for the Passport Program, and collaborates with Service Canada and Foreign Affairs, Trade and Development Canada to provide passport services that enable eligible Canadian travellers to access other countries. Through an extensive service delivery network in Canada and abroad, the program disseminates information, collects and processes Canadian travel document applications, authenticates applicants' identity and determines eligibility, and issues secure Canadian travel documents. The program also performs activities to ensure that fraud and misuse of travel documents are prevented and detected. The Canadian passport is an internationally recognized and respected travel and identification document for Canadians who travel abroad, and is relied upon in Canada and by foreign governments to support the bearer's claim to Canadian citizenship. The program operates on a full cost-recovery basis from fees charged for travel document services. Fees are collected in the Passport Canada Revolving Fund and are efficiently managed to ensure value-for-money for Canadians.

**Strategic outcome 5**

The following program supports all strategic outcomes within this organization.

**Program 5.1**—Internal Services

See introductory text.

**Immigration and Refugee Board**

**Strategic outcome 1**

Resolve immigration and refugee cases before the Immigration and Refugee Board of Canada efficiently, fairly and in accordance with the law.

**Program 1.1**—Refugee Protection

Renders quality decisions and resolves cases in a timely manner regarding refugee protection claims made by persons in Canada, and pre-removal risk assessments of persons subject to a removal order.

**Program 1.2—Refugee Appeal**

Renders quality decisions and resolves cases in a timely manner regarding appeals against a decision made on a refugee protection claim of the Refugee Protection Division.

**Program 1.3—Immigration Appeal**

Renders quality decisions and resolves in a timely manner cases regarding sponsorship applications refused by the Department of Citizenship and Immigration; certain removal orders made against permanent residents, refugees and other protected persons, and holders of permanent resident visas; permanent residents who have been found outside of Canada not to have fulfilled their residency obligation; and appeals by the Minister of Public Safety of decisions of the Immigration Division at admissibility hearings.

**Program 1.4—Admissibility Hearings and Detention Reviews**

Renders quality decisions and resolves in a timely manner cases regarding admissibility of foreign nationals or permanent residents who are alleged to be inadmissible to Canada pursuant to the provisions of *Immigration and Refugee Protection Act*; and detention reviews for foreign nationals or permanent residents who are detained under *Immigration and Refugee Protection Act* authority.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Indian Affairs and Northern Development**

**Strategic outcome 1**

The People – Individual, family and community well-being for First Nations and Inuit.

**Program 1.1—Education**

This Program's overarching goal is to work in partnership with First Nations, provincial and territorial governments and other education stakeholders, to provide eligible First Nation and Inuit students with support in order to achieve educational outcomes that are comparable to those of other Canadians. The Education Program provides funding for culturally-appropriate elementary and secondary education for eligible First Nation students ordinarily resident on reserve, and financially supports post-secondary education for eligible First Nation and Inuit students.

**Program 1.2—Social Development**

This Program provides funding to five social sub-programs: Income Assistance, National Child Benefit, Assisted Living, First Nations Child and Family Services, and Family Violence Prevention. Together, these sub-programs assist First Nation individuals and communities in becoming more self-sufficient, protect individuals and families at risk of violence, provide prevention supports that allow individuals and families to better care for their children, and support greater participation in the labour market. The Program assists First Nation men, women and children to achieve greater independence and self-sufficiency in First Nation communities across Canada by providing funding for First Nations, First Nation organizations, provinces and others that provide individual and family services to on-reserve residents (and Yukon First Nation residents). These services help First Nation communities meet basic and special needs, support employability and participation in the workforce, and support the safety of individuals and families. Through these five social sub-programs, First Nations are better able to advance their own development, leverage opportunities and actively contribute to the broader Canadian economy and society.

**Program 1.3—Residential Schools Resolution**

This Program supports a fair and lasting resolution to the legacy of Indian Residential Schools through implementation of the Indian Residential Schools Settlement Agreement—a multi-party negotiated settlement monitored by the courts. The Program supports resolution of claims of abuse under the Independent Assessment Process and promotes reconciliation with former students, their families and communities, and other Canadians. In addition to its legal obligations under IRSSA, Indian Affairs and Northern Development promotes reconciliation between the Government of Canada and Indigenous peoples, as well as between Indigenous and non-Indigenous peoples.

**Program 1.4—First Nations Individual Affairs**

This program contributes to ensuring federal stewardship of the legislative and administrative responsibilities of the federal government pertaining to registration, membership, status cards and estates. Results are achieved through direct client services and partnerships with First Nations to determine eligibility for registration under

the *Indian Act*; issue proof of registration documents, such as the Secure Certificate of Indian Status, and administer estates under the *Indian Act*. Through client-centric service delivery, the sound administration of individual affairs contributes to the well-being of First Nation individuals, families and communities.

## **Strategic outcome 2**

The Government – Support good governance, rights and interests of Aboriginal peoples.

### **Program 2.1—Management and Implementation of Agreements and Treaties**

This Program aims to create and maintain ongoing partnerships to support fulfillment of Canada's legal obligations pursuant to both pre- and post-1975 treaties, while considering ongoing rights and interests of Indigenous peoples. This Program supports Indigenous communities in articulating their interests, participating in economic activities, and managing and developing land and resources, where applicable. It also helps to demonstrate the importance of treaties and related partnerships between the Crown and Indigenous peoples. This is achieved by honouring Canada's obligations as set out in final settlement agreements and treaties, and by improving collaboration between Canada and Indigenous peoples, and between Canada and pre- and post-1975 Treaty groups. Creating and maintaining relationships and partnerships that honour pre- and post-1975 treaties contributes to strengthened, healthy, self-reliant and sustainable Indigenous communities while promoting delivery of programs and services vital to the health and advancement of Indigenous peoples.

### **Program 2.2—Rights and Interests of Indigenous Peoples**

This Program seeks to strengthen collaboration between governments and Indigenous groups through mutual respect, trust, understanding, shared responsibilities, accountability, dialogue and negotiation concerning the rights and interests of Indigenous peoples. Partnerships will be established helping to contribute to the strengthening of the social, economic and cultural well-being of Indigenous communities to support conditions for more active participation in Canadian society. The Program also addresses reconciliation objectives, constitutional and historic obligations and public policy by: negotiating agreements that achieve clarity with respect to law-making authority and the ownership, use and control of lands and resources; addressing specific claims; dealing with special claims; developing multi-partner processes in areas identified by Indigenous groups and the federal government; and supporting effective and meaningful consultation and accommodation with Indigenous groups and their representation in federal policy and program development.

### **Program 2.3—Governance and Institutions of Government**

This Program provides support to First Nation governments, as well as Indigenous governance institutions and organizations. The intent of this support is to facilitate capacity development in the Indigenous public service, the elected leadership, and entities that administer aggregate services on behalf of or to First Nation governments and their communities. Transparent and accountable First Nation governments attract investment, create opportunities, and effectively support their citizens. Transparent and accountable institutions and organizations strengthen the fabric of Indigenous governments across Canada, assist Indigenous communities and their governments in attracting investment, and support Indigenous participation in the Canadian economy. Ultimately, good governance practices are essential for active Indigenous participation in Canadian society and the economy.

## **Strategic outcome 3**

The Land and Economy – Full participation of First Nations, Métis, Non-Status Indians and Inuit individuals and communities in the economy.

### **Program 3.1—Infrastructure and Capacity**

This Program provides funding and advisory assistance to First Nation communities for the construction, acquisition, operation and maintenance of community infrastructure assets on reserves. These assets include drinking water systems, wastewater systems and community buildings. The Program also includes support for emergency management assistance, renewable energy projects and funding and advisory support for water and wastewater systems, education facilities, housing and other community infrastructure such as roads and bridges, electrification, and community buildings (these four sub-programs are collectively known as the Capital Facilities and Maintenance

Program). Ultimately, this Program enables First Nations to participate more fully in the Canadian economy by establishing infrastructure that meets established standards, and the needs of First Nation communities.

**Program 3.2—Community Economic Development**

This Program promotes conditions that will help improve community economic development and prosperity for Indigenous peoples. Guided by the Federal Framework for Aboriginal Economic Development — and its vision of "Enhancing the Value of Indigenous Assets" — this Program promotes greater self-reliance and participation in the mainstream economy and community well-being. This is achieved through supports to institutions and First Nations for land and environmental management and economic development.

**Program 3.3—Indigenous Entrepreneurship**

This Program supports and strengthens the long-term viability of Indigenous entrepreneurial business, greater participation in the economy, and improved economic prosperity for Indigenous peoples. This Program—guided by the Federal Framework for Aboriginal Economic Development—helps create and grow viable Indigenous businesses through increasing access to capital, capacity, networks, business development services and business opportunities.

**Program 3.4—Strategic Partnerships**

This Program supports Indigenous community preparedness activities to engage with partners in economic opportunities, including the Strategic Partnerships Initiative—an innovative, horizontal program intended to align federal efforts to support Indigenous participation in complex economic opportunities, particularly large regional opportunities and major resource developments. The Strategic Partnership Initiative provides a mechanism for federal partners to collectively identify emerging opportunities, target investment decisions and streamline program application and approval processes to support Indigenous communities at the early stages of large and complex economic opportunities. In doing so, closer partnerships with non-federal partners, including provincial and territorial governments, the private sector and Indigenous communities can be built. By addressing gaps in programming, this ensures that Indigenous peoples can participate in and benefit from priority regional opportunities and major resource developments.

**Program 3.5—Urban Indigenous Participation**

This Program supports participation of urban Indigenous individuals and communities in the economy. It is comprised of two streams: Community Capacity Support and Urban Partnerships. The Community Capacity Support stream provides funding to urban Indigenous community organizations to deliver programs and services that are designed to remove barriers and encourage innovative partnerships. The Urban Partnerships stream is comprised of a planning component and an implementation component. The planning component supports communities with multi-stakeholder engagement (private sector, municipalities, Indigenous groups) in the design and development of regional strategic plans and the identification of community priorities. These plans are then shared with the National Association of Friendship Centres which, in turn, implements the priorities through community projects.

**Strategic outcome 4**

The North—Self-reliance, prosperity and well-being for the people and communities of the North.

**Program 4.1—Northern Governance and People**

This Program strengthens the North's communities and people by: devolving responsibilities for lands and natural resources to territorial governments; fostering effective intergovernmental relations with territorial and Inuit governments; collaborating with Inuit organizations and providing support to Territorial Commissioners; subsidizing the costs of nutritious perishable foods and other essential items in isolated northern communities; providing grants for hospital and physician services in Nunavut and the Northwest Territories; working with northern communities to identify the risks and challenges posed by climate change; and advancing Canadian and northern interests

through circumpolar forums such as the international Arctic Council. Canadians and Northerners will benefit from territorial governments ultimately having more control over their own affairs.

**Program 4.2—Northern Land, Resources and Environmental Management**

This program focuses on the management, sustainable development and regulatory oversight of the land, water, natural resources, and environment of the North, delivering on the Department's role as the Government of Canada's natural resource manager in Nunavut and the offshore, and its post-devolution responsibilities in the Northwest Territories and Yukon. This program involves: managing oil and gas resources development; supporting the sustainable management of active mineral exploration and development; supporting the sound management of contaminated sites, Nunavut and the few remaining Aboriginal Affairs and Northern Development Canada-managed land and water areas in the North; and ensuring the completion of territorial land-use planning including zones for conservation, development and other uses. Northerners and Canadians will benefit from economic opportunities and sustainable development.

**Program 4.3—Northern Science and Technology**

This program aims to support scientific research and technology in the North through programs and infrastructure to ensure that domestic and international policy on key issues for the North is better informed by a scientific knowledge base. The focus of this program is: researching and monitoring contaminants and their impacts on the ecosystem and human health through the Northern Contaminants Program; assessing, managing and communicating scientific data and results, and contributing expertise to help inform public policy making as well as international controls on certain contaminants; and supporting work to establish the Canadian High Arctic Research Station. Northerners and all Canadians will benefit from a knowledge base that supports health and sustainable development and the positioning of Canada as an international leader in Arctic science and technology.

**Program 4.4—Other Claims**

This Program addresses payments related to the resolution of litigation and/or out-of-court settlements for any claim that cannot be designated to any other existing Indigenous and Northern Affairs program. Key activities could include: the assessment of the merits of the claim; the completion of a settlement agreement where appropriate; payment of any monetary compensation and funding and implementation of related activities pursuant to the terms of a settlement agreement and/or direction by a Tribunal or court.

**Strategic outcome 5**

The following program supports all strategic outcomes within this organization.

**Program 5.1—Internal Services**

See introductory text.

**Canadian High Arctic Research Station**

**Strategic outcome 1**

Canada has world-class Arctic science and technology to support the development and stewardship of Canada's North and is recognized as a leader on circumpolar research issues.

**Program 1.1**—Science and Technology for the North

This program aims to create the conditions for Canadian High Arctic Research Station to anchor a strong research presence in Canada's Arctic. Through both partnering and internal science and technology, Canadian High Arctic Research Station will acquire the wide range of information needed for effective solutions to Arctic issues, policy and research program development in the North, and to advance Canada's position as a leading Arctic nation. The depth of knowledge gained through scientific and technological research and training supports greater sustainable use of the North's land and natural resources.

**Program 1.2**—Polar Knowledge Application

This program aims to lead the mobilization of polar science and technology into action. Canadian High Arctic Research Station will: analyse and disseminate polar knowledge from its Science and Technology Program, as well as that from current federal, territorial and other stakeholders, and investments to inform management, programming, and policies; promote Arctic science and technology nationally and internationally; and build capacity through training, outreach, and learning opportunities. This will ensure polar knowledge is relevant to stakeholders and builds a science culture in Canada.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Material services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Office of Infrastructure of Canada****Strategic outcome 1**

Public Infrastructure for a More Prosperous Canada.

**Program 1.1—Permanent and Flexible Infrastructure Funding**

In support of community infrastructure for Canadians, this program provides long-term and predictable funding for municipalities, supporting long-term municipal planning and asset management in order to address infrastructure priorities. Funding is provided to build and rehabilitate public infrastructure based on overall compliance with the terms and conditions of the governing agreements. Federal funding is provided up-front and does not need to be used in the year it is provided. This program uses funding from the Gas Tax Fund transfer payment.

**Program 1.2—Large-Scale Infrastructure Investments**

This program invests in infrastructure projects of national, regional and/or local significance. Funding through this program leverages additional contributions from other funding partners for eligible infrastructure projects. Funding may be jurisdictionally allocated. Actual payments are provided as work progresses under the terms of signed contribution agreements. This program uses funding from the following transfer payments: the New Building Canada Fund-Provincial-Territorial Infrastructure Component-National and Regional Projects, Building Canada Fund-Major Infrastructure Component and the Canada Strategic Infrastructure Fund.

**Program 1.3—Investments in National Infrastructure Priorities**

This program directs funding to infrastructure projects that help to advance national priorities that are important to Canadians. Funding is provided largely through merit-based review of proposals and does not include allocations to provinces and territories. Funding through this program leverages additional contributions from other funding partners for eligible infrastructure projects. Payments are provided as work progresses under the terms of signed contribution agreements. This program uses funding from the following transfer payments: the New Building Canada Fund-National Infrastructure Component, Green Infrastructure Fund, Border Infrastructure Fund and the Inuvik to Tuktoyaktuk Highway Fund.

**Program 1.4—Infrastructure Investments in Small Communities and Rural Areas**

This program invests in infrastructure projects in small communities and rural areas to support local and/or regional priorities and economies. Funding through this program leverages additional contributions from other funding partners for eligible infrastructure projects. Funding may be jurisdictionally allocated. Payments are provided based on eligible costs incurred with respect to signed contribution agreements. This program uses funding from the following transfer payments: the New Building Canada Fund-Provincial-Territorial Infrastructure Component-Small Communities Fund and the Building Canada Fund-Communities Component.

### **Program 1.5—Funding for Provincial-Territorial Priorities**

This program provides predictable funding to each province and territory to enhance Canada's public infrastructure system. Federal payments to provinces and territories are made in accordance with the terms and conditions of signed funding agreements, including federal acceptance of Capital Plans and Expenditure Reports. Funding through this program leverages additional contributions from other funding partners to increase overall investment in public infrastructure for Canadians. Payments may be made up-front and cost-sharing provisions apply to a Capital Plan as a whole, and not the individual initiatives within a Capital Plan. This program uses funding from the Provincial-Territorial Infrastructure Base Fund transfer payment.

### **Program 1.6—New Bridge for the St. Lawrence Corridor Project**

In support of the Government of Canada's economic and safety priorities, this program ensures the overall delivery of the new bridge for the St. Lawrence corridor project in Montreal, Quebec. Infrastructure Canada is the project authority charged with overseeing the delivery of this project which will provide a safe, secure and efficient crossing for local residents, commuters and commercial traffic. The new bridge and its corridor will contribute to the increased capacity and efficiency of gateway and corridor infrastructure regionally and nationally. The project is to be carried out as a public-private partnership.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization

#### **Program 2.1—Internal Services**

See introductory text.

### **PPP Canada Inc.**

#### **Strategic outcome 1**

Transform Canada into a leader for public-private partnerships (P3).

#### **Program 1.1—Federal Public-Private Partnership Initiatives**

Through this program, PPP Canada Inc. will: manage a Public-Private Partnerships Fund (P3 Fund), a unique infrastructure program designed to support innovative public-private partnerships projects; assess public-private partnerships opportunities for contributions under other Government of Canada infrastructure programs to ensure consideration of such arrangements; assess public-private partnership opportunities and advise on the execution of public-private partnership projects at the federal level; and act as a source of expertise and advice for public-private partnership matters in order to encourage the further development of Canada's public-private partnerships market.

### **The Jacques Cartier and Champlain Bridges Inc.**

#### **Strategic outcome 1**

Safe and efficient transit on the infrastructure maintained, operated and managed by the Jacques Cartier and Champlain Bridges Incorporated.

**Program 1.1**—Management of federal bridge, highway and tunnel infrastructure, and properties in the Montreal Area

This program encompasses the operation and maintenance of the Jacques Cartier and Champlain bridges, the federally-owned section of the Honoré-Mercier Bridge, a section of the Bonaventure Expressway, the Melocheville Tunnel, and the Champlain Bridge Ice Control Structure by carrying out regular and major maintenance work.

**Windsor-Detroit Bridge Authority**

**Strategic outcome 1**

A safe, secure, and efficient international crossing for commercial and passenger traffic across the Windsor-Detroit Bridge.

**Program 1.1**—Detroit River International Crossing

The Windsor-Detroit Bridge Authority is charged with delivering the Detroit River International Crossing project which will provide a safe, secure and efficient crossing for passenger and commercial traffic in the Windsor-Detroit region. The Detroit River International Crossing will address problems with regard to border crossings in the region, namely accommodating future traffic projections and providing sufficient capacity in the event of any disruptions at the existing Windsor-Detroit Crossings. The Windsor-Detroit Bridge Authority will procure the project on behalf of Canada and Michigan. As per the Canada-Michigan Crossing Agreement, the Windsor-Detroit Bridge Authority will have several responsibilities. It will manage and oversee the construction of the entire project, other than the operation and maintenance of the Interstate-75 interchange; develop a public-private partnership procurement documentation for the design, construction, operation, maintenance and partial financing of the project through a public-private partnership; conduct the public-private partnership procurement process and selection of the preferred bidder; sign the public-private partnership concession agreement; pay Michigan to undertake property acquisition in Michigan; lease or license properties from Michigan; lease or license from Canada the properties that the Canada is in the process of acquiring in Windsor; and manage and oversee the public-private partnership concessionaire for the duration of the concession agreement.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Industry**

**Strategic outcome 1**

Advancements in science and technology, knowledge and innovation strengthen the Canadian economy.

**Program 1.1—Science, Technology and Innovation Capacity**

This program sets the strategic direction for policies and programs that support and stimulate research, development and innovation in Canada. In collaboration with Industry portfolio partners, other government departments and external stakeholders from the private and public sectors, the program fosters an environment that is conducive to innovation and promotes scientific excellence.

**Program 1.2—Industrial Research and Development Financing**

This program helps Canadian businesses increase research and development activities by investing in innovative projects and collaborations through repayable and non-repayable contributions. Projects supported under this program are expected to produce benefits to Canada, including generating strategic Research and Development investment, developing new technologies and enhancing Canadian innovation capacity and expertise.

**Strategic outcome 2**

Canadian businesses and communities are competitive.

**Program 2.1—Community Economic Development**

This program advances the economic development of Northern Ontario communities in the same manner that regional development agencies support similar activities in other regions of Canada. Its main goal is to strengthen the Northern Ontario economy by providing financial support through contribution agreements for economic and community development projects led by the private, not-for-profit and public sectors, including support for official language minority communities. This program also contributes to improving the availability of broadband Internet access across Canada and provides computers for schools and not-for-profit organizations.

**Program 2.2—Small Business Research, Financing and Services**

This program enhances the growth and competitiveness of small business and encourages entrepreneurial activity across Canada. It raises awareness across government of the challenges facing small businesses and provides knowledge and expertise on small and medium-sized enterprises in a number of areas, including entrepreneurship, financing, innovation, and growth firms. It also addresses obstacles to growth such as paperwork burden and delivers programs that help support small and medium-sized enterprises.

### **Program 2.3—Industrial Competitiveness and Capacity**

This program helps Canadian industries increase their competitiveness in global markets and improve their capacity for developing and marketing innovative products and services. The program develops expertise on Canadian firms and sectors through research and analysis and engagement with associations, governments and leading firms. It applies this expertise to develop and contribute to policy, legislation and regulations aimed at strengthening the contribution of industry to Canada's economic well-being. This program collaborates with the private sector on industry development; attracts investment and promotes Canadian expertise; and advances initiatives for increasing productivity and supporting growth.

#### **Strategic outcome 3**

The Canadian marketplace is efficient and competitive.

### **Program 3.1—Spectrum, Telecommunications, and the Digital Economy**

This program enables Canadians to benefit from a globally competitive digital economy that drives innovation, productivity and future prosperity. This includes developing and administering domestic regulations, procedures and standards that govern Canada's radiocommunication and telecommunications industries. The program sets legislative and policy frameworks to encourage competition, innovation, private sector investment in digital infrastructure, confidence in the online marketplace, and greater adoption of information and communications technologies by business. The program maximizes the public benefits of spectrum by managing it efficiently and effectively, through spectrum and radio licensing including auctions, compliance and enforcement. The program protects Canadian interests in the telecommunications industry globally and facilitates international online trade and commerce by negotiating international treaties and agreements. This program also performs research in advanced telecommunication and information technologies to promote innovation and assist in the development of policies, regulations and program delivery.

### **Program 3.2—Marketplace Frameworks and Regulation**

This program regulates and provides oversight over a number of aspects of the Canadian marketplace, including trade measurement, insolvency, corporate governance including federal incorporation, competition, intellectual property, market access and consumer affairs. The program develops and administers framework statutes, regulations, policies and procedures; develops, sets and assures compliance with related regulatory reforms and standards; and consults with a variety of stakeholders and portfolio organizations. Overall, the program benefits Canadian businesses and consumers by ensuring the integrity of the marketplace.

### **Program 3.3—Marketplace Competition and Investments**

This program applies federal laws relating to the investigation of anti-competitive conduct and the general regulation of trade and commerce in respect of business practices, including the review of mergers and significant foreign investments. It protects, promotes and advocates for efficient markets in a manner that encourages economic growth and innovation, providing consumers and businesses with competitive prices and increased product choices.

#### **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

### **Program 4.1—Internal Services**

See introductory text.

## **Atlantic Canada Opportunities Agency**

### **Strategic Outcome 1**

A competitive Atlantic Canadian economy.

#### **Program 1.1—Enterprise Development**

Despite recent economic progress and some promising opportunities on the horizon (e.g. energy, shipbuilding), some significant challenges remain for the region to maximize positive growth. One of the most telling indicators of this is that, in a number of sectors, productivity remains significantly lower than in leading countries and other regions of Canada. The Agency works in partnership with Atlantic Canadian businesses, stakeholders, industry and institutions to improve the growth and productivity of Atlantic Canada's economy, leading to increased competitiveness, higher earned incomes and job creation. The Agency works to improve the capacity of Atlantic Canada's rural and urban areas for economic growth through a variety of strategically focused mechanisms: assisting businesses, particularly small and medium-sized ones, to start, expand or modernize and to establish or expand export activities; partnering with universities and other institutions to increase the region's research and development capacity, commercialization and productivity; and promoting and participating in the region's transition to a knowledge economy.

#### **Program 1.2—Community Development**

The Atlantic economy is built on the region's many geographic, linguistic and cultural communities. From rural areas to larger urban centres, the opportunities and challenges vary significantly. Communities are the foundation of economic development and are critical for economic prosperity. The Agency recognizes the importance of communities and supports their efforts to develop the resources they need to contribute fully to their economic development. For those reasons, the Agency focuses community development efforts and strategies to create dynamic and sustainable communities with increased economic and business activities as well as quality public infrastructure. The Agency develops and delivers programming that meets the unique economic development needs of rural areas in Atlantic Canada and that contributes to a stronger region. The Agency collaborates with the private sector, other levels of government, other federal government departments, educational institutions, non-profit organizations and communities to leverage support, coordinate economic development, identify and capitalize on emerging opportunities and react to economic challenges across the region. This requires a flexible approach based on the realities of a given community's capacities, strengths and challenges.

#### **Program 1.3—Policy, Advocacy and Coordination**

The Agency's Policy, Advocacy and Coordination program is central to identifying and effectively responding to opportunities and challenges facing the regional economy. Policy, Advocacy and Coordination program provides intelligence, analysis and well-grounded advice on a broad range of issues and topics, and it informs and supports Agency and ministerial decision making. Policy, Advocacy and Coordination program helps carry the Agency's agenda forward and ensure that Atlantic Canada Opportunities Agency overall remains relevant and responsive to the opportunities and challenges in Atlantic Canada by offering strategic, researched policy positions that reflect the region's potential, by influencing national policies and programs that affect Atlantic Canada's development and interests, and in coordinating other policies and programs within the region to form integrated approaches to development.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Northern Economic Development Agency**

### **Strategic outcome 1**

Developed and diversified territorial economies that support prosperity for all Northerners.

#### **Program 1.1—Economic Development**

The program supports economic development in Canada's three territories: Nunavut, Northwest Territories, and Yukon. Ensuring that the North is able to participate actively in the economy is essential to Canada's economic growth. Each territory has unique opportunities and challenges that require individual strategies to foster a sustainable, competitive and diverse economic development. Through funding support, the Canadian Northern Economic Development Agency strengthens and stimulates the northern economy by taking steps to advance private sector efforts, ranging from small and medium enterprises to large-scale industry. There is also a strong focus on creating the conditions to position individuals, including Aboriginal and non-Aboriginal northerners, communities, and business-related organizations for economic success.

#### **Program 1.2—Policy and Alignment**

This program supports research and analysis to guide programming and policy choices, the promotion of northern interests both inside and outside of the federal government, and the development of horizontal strategies, initiatives and projects to address economic development challenges and opportunities in the North.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Space Agency**

### **Strategic outcome 1**

Canada's exploration of space, provision of space services and development of its space capacity meet the nation's needs for scientific knowledge, innovation and information.

#### **Program 1.1—Space Data, Information and Services**

This program includes the provision of space-based solutions (data, information and services) and the progression of their utilization. It also serves to install and run ground infrastructure that processes the data and operates satellites. This program utilizes space-based solutions to assist Government of Canada organizations in delivering growing, diversified or cost-effective programs and services within their mandate, which is related to key national priorities, such as sovereignty, defence, safety and security, resource management, environmental monitoring and the North. It also provides academia with data required to perform its own research. The services delivered through this program are rendered, and the data and information are generated and processed, with the participation of the Canadian space industry, academia, Government of Canada organizations, national and international organizations, such as: foreign space agencies, not-for-profit organizations, as well as provincial and municipal governments. This collaborative effort is formalized under national and international partnership agreements, contracts, grants or contributions.

**Program 1.2—Space Exploration**

This program provides valuable Canadian science, signature technologies and qualified astronauts to international space exploration endeavours. This program contributes to the Government of Canada's Science and Technology Strategy. It fosters the generation of knowledge as well as technological spin-offs that contribute to a higher quality of life for Canadians. It generates excitement within the population in general and contributes to nation-building. This program appeals to the science and technology communities. It is targeted mostly towards Canadian academia and international space exploration partnerships. Canadian industry also benefits from the work generated within this program. This program is delivered with the participation of foreign space agencies and Government of Canada organizations. This collaborative effort is formalized under international partnership agreements, contracts, grants or contributions.

**Program 1.3—Future Canadian Space Capacity**

This program attracts, sustains and enhances the nation's critical mass of Canadian space specialists, fosters Canadian space innovation and know-how, and preserves the nation's space-related facilities capability. In doing so, it encourages private-public collaboration that requires a concerted approach to future space missions. This program secures the nation's strategic and ongoing presence in space in the future and to preserve Canada's capability to deliver internationally renowned space assets for future generations. It is targeted at Canadian academia, industry and youth, as well as users of Canadian space solutions (Government of Canada organizations) and international partners. This program is conducted with the participation of funding agencies, Government of Canada organizations along with government facilities and infrastructure, foreign space agencies, not-for-profit organizations and provincial governments. This collaborative effort is formalized under contracts, grants, contributions or national and international partnership agreements.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Canadian Tourism Commission**

**Strategic outcome 1**

Canadian economy benefits from strong tourism demand from Canadian Tourism Commission's markets.

**Program 1.1—Marketing and Sales**

The Marketing and Sales Program focuses on three major geographical market segments—the Americas, Europe and Asia/Pacific, in addition to targeting tourism activities associated with meetings, conventions, and incentive travel. Marketing and sales efforts are based on three channels: 'direct to consumer' advertising and marketing; travel trade; and media and public relations. This program is fundamental to Canadian Tourism Commission's role as Canada's national tourism marketing organization and directly supports Canadian Tourism Commission's outcome of increasing awareness and consideration of Canada as a tourism destination in Canadian Tourism Commission markets and generating export revenues from the expenditures of international visitors to Canada.

**Program 1.2—Tourism Research and Communications**

The Tourism Research and Communications Program generates and communicates strategic business intelligence, market and consumer research, and tourism news and information that are vital to maintaining a competitive edge for Canada's tourism industry. This program is necessary as the Canadian Tourism Commission is legislated to

“provide information about Canadian tourism to the private sector and to the government of Canada, the provinces and the territories” (*Canadian Tourism Commission Act*, section 5d).

### **Program 1.3—Experiential Product Development**

The Experiential Product Development Program influences the quality and quantity of diverse and competitive tourism experiences in Canada. This program is necessary for the Canadian Tourism Small and Medium Sizes Enterprises, as it is the first point of entry for the small and medium sizes enterprises to develop Canadian-branded, export ready, consumer relevant product experiences that are used in Canadian Tourism Commission sales, marketing and media relations initiatives. Products and tools developed under this program, such as Experiences Toolkit (practical insight such as moving from a tourism product to an experience and customer trends), Brand Toolkit (an in-depth branding resource) and Digital Assets (videos, photos), are free for small and medium-sized enterprises use and help small and medium-sized enterprises increase their market readiness, viability and competitiveness both domestically and internationally.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Copyright Board**

### **Strategic outcome 1**

Fair decision-making to provide proper incentives for the creation and use of copyrighted works.

### **Program 1.1—Copyright Tariff Setting and Issuance of Licences**

The Board is an economic regulatory body empowered to establish, either mandatorily or at the request of an interested party, fair and equitable tariffs that remunerate rights owners for the use of copyrighted works, when the administration of such copyright is entrusted to a collective-administration society. The Board also has the right to supervise agreements between users and licensing bodies and issues licences when the copyright owner cannot be located.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Economic Development Agency of Canada for the Regions of Quebec**

### **Strategic outcome 1**

Quebec’s regions have a growing economy.

**Program 1.1—Business Development**

This program is designed to support enterprises development throughout their life cycle so as to sustain Quebec's economic growth. Enterprises, small and medium-sized enterprises in particular, are an engine of economic development. They are recognized as generating a significant share of economic activity and creating employment in communities. Canada Economic Development Agency for the Regions of Quebec contributes to the renewal of the pool of enterprises in Quebec by supporting the emergence of new small and medium-sized enterprises and business succession. Canada Economic Development Agency for the Regions of Quebec also works to increase the competitiveness of existing enterprises and support their survival by enhancing their performance. Canada Economic Development Agency for the Regions of Quebec does so by supporting small and medium-sized enterprises that modernize, expand, launch or extend their export activities, reinforce their innovation capability, commercialize, and establish partnerships. In this program, Canada Economic Development Agency for the Regions of Quebec mainly targets enterprises either directly or via non-profit organizations providing support for enterprises or entrepreneurs. Canada Economic Development Agency for the Regions of Quebec promotes business development through a grants and contributions program, the Quebec Economic Development Program.

**Program 1.2—Strengthening Community Economies**

In addition to its regular programs, Canada Economic Development Agency for the Regions of Quebec develops, administers and implements Canada-wide programs or temporary and/or targeted initiatives. The common objective is "Strengthening Community Economies", in order to increase Quebec's economic growth. Canada Economic Development Agency for the Regions of Quebec supports communities' economic development and ensures sound and effective management of infrastructure programs in Quebec. Canada Economic Development Agency for the Regions of Quebec also supports economic activity in Quebec communities that are sustaining economic shocks, experiencing development challenges or where long term business opportunities exist. This program is directed at enterprises and non-profit organizations. Canada Economic Development Agency for the Regions of Quebec intervenes in this program through Quebec Economic Development Program using different forms of financing: temporary additional funding, dedicated ongoing funding from the Canadian government, and specific funds allocated by Canada Economic Development Agency for the Regions of Quebec. Canada Economic Development Agency for the Regions of Quebec also contributes using a permanent fund dedicated to the Community Futures Program and acting as Infrastructure Canada's delivery partner for the administration of the Building Canada Fund (Communities and Large Urban Centres component) in Quebec.

**Program 1.3—Regional Economic Development**

This program is intended to strengthen the regions' economic base so as to sustain the growth of Quebec's economy. Quebec's regions differ in, among other things, their industrial structure, and some are more sensitive to economic fluctuations. Quebec's prosperity depends on the participation of the different regions in the economy to their full potential. Canada Economic Development Agency for the Regions of Quebec wishes to contribute to building strong and competitive regions. It does so by supporting local communities as they take charge of their economic development and by stimulating investment in all Quebec regions. In this program, Canada Economic Development Agency for the Regions of Quebec intervenes primarily through non-profit organizations active in economic development. Canada Economic Development Agency for the Regions of Quebec acts on regional economic development through its grants and contributions program, the Quebec Economic Development Program.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

## **Federal Economic Development Agency for Southern Ontario**

### **Strategic outcome 1**

A competitive Southern Ontario economy.

#### **Program 1.1—Technological Innovation**

This program is intended to support the southern Ontario economy to be more innovative by creating new products, services, processes and/or markets so as to contribute to the region's competitiveness. This will be achieved by focusing on key emerging sectors and by strengthening linkages between the region's businesses and its post-secondary institutions to support clusters, economic spillovers and/or common platforms to spur the advancement of technologies and innovation. By facilitating these strategic partnerships, Federal Economic Development Agency for Southern Ontario aims to improve (along with others), the region's productivity and competitiveness in the context of a global economy. Investments through this program will support large-scale, incremental, and transformative activities that increase productivity and market diversification. While available to for-profit and not-for-profit organizations, project funding will be business-facing, meaning that activities will be linked to the needs of businesses rather than pushing public research into the market. Transfer payments in support of this program will be delivered through the administration of contribution agreements with businesses, not-for-profit organizations, and post-secondary institutions.

#### **Program 1.2—Community Economic Development**

This program supports the 288 communities (small and large, rural and urban, Francophone and Aboriginal) in southern Ontario that are home to 12.7 million residents. These communities are key to enhancing the economic competitiveness and long-term prosperity of the region. Southern Ontario depends on communities that can attract the best talent and compete for investment as dynamic centres of commerce and learning. Strong, safe and modern communities that are economically diverse are essential building blocks for the region's competitiveness and long-term prosperity. Federal Economic Development Agency for Southern Ontario will continue to invest strategically to address the unique challenges facing eastern Ontario communities; maintain the economic vitality of official language minority communities; and advance regional diversification efforts to promote economic development. Federal Economic Development Agency for Southern Ontario will also continue to work with others, including Infrastructure Canada, the Province and municipalities, to support infrastructure needs within southern Ontario. Through programming aimed at addressing the distinct needs and circumstances across southern Ontario communities, Federal Economic Development Agency for Southern Ontario will work to identify local solutions to local challenges and opportunities. Federal Economic Development Agency for Southern Ontario will support this program through the administration of contribution agreements with businesses, not-for-profit organizations, post-secondary institutions and municipalities.

#### **Program 1.3—Business Development**

This program supports the 360,000 businesses (especially small- and mediums-sized enterprises) in southern Ontario in their efforts to drive competitiveness by providing support to: encourage the growth of early-stage companies through business services and counselling; access capital; help existing businesses expand domestically and globally; help companies/sectors improve productivity; facilitate linkages and collaborations between businesses; and help southern Ontario aerospace and defence-related firms respond to economic opportunities from Canada's defence procurements. This program, which includes services through Canada Business Ontario, provides targeted efforts to businesses across Ontario along a life-cycle continuum: from entrepreneurship to expansion. Transfer payments in support of this program will be delivered through the administration of contribution agreements with businesses and not-for-profit organizations.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **National Research Council of Canada**

### **Strategic outcome 1**

Canadian businesses prosper from innovative technologies.

#### **Program 1.1—Technology Development and Advancement**

This program develops and advances technologies to enhance the prosperity of Canadian industries in support of federal priorities such as the federal Science and Technology Strategy. This includes national-scale flagship technology-development initiatives having sufficient critical mass to contribute demonstrably to national prosperity. To bring new and innovative products and processes to the marketplace, companies must advance the emerging and maturing technologies embodied in applied developments and prototypes to a level where the risk is sufficiently understood to be accepted from the business, investment, and regulatory perspectives. The program bridges this critical technology gap through mission-oriented research and development services, and specialized technical services such as custom design and fabrication, testing, prototyping, up-scaling, and demonstration in specialized facilities.

#### **Program 1.2—Industrial Research Assistance Program**

The program contributes to the growth and prosperity of Canadian small and medium sized enterprises by stimulating innovation, adoption and/or commercialization of technology-based products, services, or processes in Canada. This is done through: 1) technical and related business advice and networking facilitated by a cross-Canada network of field professional staff; 2) cost-shared merit-based contributions; and 3) contributions supporting employment of post-secondary graduates. This program uses funding from the following transfer payments: Contributions to Firms; Contributions to Organizations; Youth Employment Program; Contributions to the Canadian HIV Technology Program, Business Innovation Access Program and Canada Accelerator and Incubator Program.

### **Strategic outcome 2**

Research and Development infrastructure for an innovative and knowledge-based economy.

#### **Program 2.1—Science Infrastructure and Measurement**

This program manages national science facilities and infrastructure critical to research, development and innovation by Canadian scientific and technological communities. This includes operating and administering Canada's astronomical observatories. It also fosters development and maintenance of Canada's metrological infrastructure system that provides industries and researchers access to reliable measurements that are traceable to recognized national standards maintained by the program. The program helps clients make the most of this infrastructure by facilitating access to a wide range of Canadian and international user communities and by participating in networks. In addition, the program provides stewardship of the Canada's National Laboratory for Particle and Nuclear Physics sub-atomic research facility. This program uses funding from the following transfer payment: TRIUMF (Canada's National Laboratory for Particle and Nuclear Physics).

### **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

#### **Program 3.1—Internal Services**

See introductory text.

## **Natural Sciences and Engineering Research Council**

### **Strategic outcome 1**

Canada is a world leader in advancing, connecting and applying new knowledge in the natural sciences and engineering.

#### **Program 1.1—Discovery: Advancement of Knowledge**

This Program supports the creation of new knowledge and maintenance of a high quality Canadian broad-based research capacity in the natural sciences and engineering through grants to researchers. The advancement of knowledge generated by these grants is necessary to fuel a strong research and innovation system in Canada that is globally competitive. Academic researchers receive funding to carry out research, to support the timely acceleration of research programs, to purchase or develop research equipment, or to facilitate their effective access to major and unique research resources.

#### **Program 1.2—Innovation: Research Partnerships**

This program fosters partnerships in the natural sciences and engineering and facilitates the transfer of knowledge and skills to the user sector through awards that support research projects and network activities intended for socioeconomic impact. The partnerships encouraged and enabled by these awards increase the commercialization of Canada's excellent research into new products, services and processes for the benefit of all Canadians.

#### **Program 1.3—People: Research Talent**

This program supports the attraction, retention and development of highly qualified people in the natural sciences and engineering in Canada through Chairs programs, fellowships, scholarships and stipends. These activities are necessary to build the human capital required to enable a strong, globally competitive research and innovation system in Canada. Researchers, students and young people benefit from the grant funding which supports university research and outreach activities at universities, museums, science centres and community-based organizations.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Social Sciences and Humanities Research Council**

### **Strategic outcome 1**

Canada is a world leader in social sciences and humanities research and research training.

#### **Program 1.1—Talent: Attraction, Retention and Development of Students and Researchers in the Social Sciences and Humanities**

This program provides support to graduate students and postdoctoral fellows in the form of fellowships and to research chairs in postsecondary institutions that cover salary and research funding. This program is necessary in order to attract, retain and develop talent in the social sciences and humanities, to cultivate leaders within academia and across the public, private and not-for-profit sectors, and to build centres of world-class research excellence at Canadian postsecondary institutions. The program brands Canada as a top destination for research and research training.

**Program 1.2**—Insight: New Knowledge in the Social Sciences and Humanities

This program provides grants to support research in the social sciences and humanities conducted by scholars and researchers working as individuals, in teams, and in formal partnerships among the academic, public, private and/or not-for-profit sectors and to support the building of institutional research capacity. This program is necessary to build knowledge and understanding about people, societies and the world, as well as to inform the search for solutions to societal challenges. The objectives of the program are to build knowledge and understanding from disciplinary, interdisciplinary and/or cross-sector perspectives; support new approaches to research on complex and important topics; provide a high-quality research training experience for students; mobilize research knowledge to and from academic and non-academic audiences; and build institutional research capacity. Research supported by the program has the potential to lead to intellectual, cultural, social and economic influence, benefit and impact and increased institutional research capacity. International research initiatives that offer outstanding opportunities to advance Canadian research are encouraged. Partnerships can include both Canadian and international partners.

**Program 1.3**—Connection: Mobilization of Social Sciences and Humanities Knowledge

This program provides funding (grants and operational) to support the multidirectional flow, exchange and co-creation of knowledge in the social sciences and humanities among researchers and diverse groups of policy makers, business leaders, community groups, educators and the media working as individuals, in teams, in formal partnerships and in networks. This program is necessary to help stimulate leading edge, internationally competitive research in areas critical to Canada, build multi-sectoral partnerships and accelerate the use of multidisciplinary research results by organizations that can harness them for Canadian economic and social development. The program increases the availability and use of social sciences and humanities research knowledge among academic and non-academic audiences; supports the building of reciprocal relationships, networks and tools designed to facilitate scholarly work; and makes such networks and tools more accessible to non-academic audiences. The funding opportunities offered in this program are intended to complement activities funded through the Talent and Insight programs.

**Strategic outcome 2**

Canada has the institutional capacity to enable research and research-related activities in social sciences and humanities, natural sciences and engineering and health.

**Program 2.1**—Indirect Costs of Research

This program provides support to institutions in the form of grants in the social sciences and humanities, natural sciences and engineering and health. This program is necessary to build institutional capacity for the conduct of research and research-related activities to maximize the investment of publicly-funded academic research. This program helps to off-set the central and departmental administrative costs that institutions incur in supporting research, which are not attributable to specific research projects, such as lighting and heating, maintenance of libraries, laboratories and research networking spaces, or for the technical support required for an institution's website or library computer system, ultimately helping researchers concentrate on cutting-edge discoveries and scholarship excellence, and ensuring that federally-funded research projects are conducted in world-class facilities with the best equipment and administrative support available. The program is administered by the Social Sciences and Humanities Research Council hosted Canada Research Chairs secretariat on behalf of the three research granting agencies. This program uses funding from the following transfer payment: Indirect Costs of Research.

**Program 2.2**—Canada First Research Excellence Fund

The program provides financial support in the form of grants to Canadian universities and colleges to excel globally in research areas that create long-term economic advantages for Canada. The program helps competitively-selected institutions implement ambitious and focused strategies to attract and retain talent, develop partnerships across sectors nationally and internationally, and undertake cutting-edge research. Consequently, the program will contribute to enhancing Canada's competitiveness in the global, knowledge-based economy, improving Canadians' health, and enriching our social and cultural life. The program is administered by the Social Sciences and Humanities Research Council on behalf of the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council and the Social Sciences and Humanities Research Council. This program uses funding from the following transfer payment: Canada First Research Excellence Fund.

### **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

#### **Program 3.1—Internal Services**

See introductory text.

### **Standards Council of Canada**

#### **Strategic outcome 1**

Canada has an effective and efficient National Standards System.

#### **Program 1.1—Standards Program**

The Standards Council of Canada accredits standards development organizations in Canada. The Standards Council of Canada determines conformity to accreditation requirements by performing oversight activities such as document review and on-site assessment. Standards Council of Canada also reviews standards submitted by standards development organizations for approval as National Standards of Canada, a designation that indicates a standard is the official Canadian standard on a particular subject. National Standards of Canada may be developed in Canada or adopted, with or without changes, from international standards. Through its member program, Standards Council of Canada facilitates and coordinates Canadian participation in national, regional and international standards development and conformity assessment organizations. Through this program, Standards Council of Canada recruits individuals and organizations to participate in standards activities on Canada's behalf, in organizations such as: the International Organization for Standardization and the International Electrotechnical Commission, two of the world's largest voluntary standardization bodies. Standards Council of Canada also provides orientation, training and recognition for Canadian participants. Participation in these organizations provides Canadian government, industry and consumers with a competitive advantage.

#### **Program 1.2—Conformity Assessment Program**

Through its conformity assessment program, the Standards Council of Canada provides accreditation services for: testing and calibration laboratories; management systems certification bodies; personnel certification bodies; product and service certification bodies; greenhouse gas validation and verification bodies; and inspection bodies. Through assessments, audits and follow-up visits, Standards Council of Canada ensures that these conformity assessment organizations are competent in meeting the requirements of a particular standard, for a product, service or system. Accreditation by Standards Council of Canada can increase an organization's competitiveness and ensure safer and more efficient methods and products are used in the Canadian marketplace. Standards Council of Canada's accreditation programs are based on internationally recognized guides and standards. Standards Council of Canada is also a member of several organizations that are developing agreements to ensure conformity assessment results are accepted internationally.

#### **Program 1.3—Standards and Conformity Assessment Policy**

The Standards Council of Canada advises federal, provincial and territorial governments, industry organizations, and nongovernmental bodies on standards- and conformity assessment-related aspects of trade and regulatory policy. Through input and review of standardization issues in trade agreements, the Standards Council of Canada, is a significant contributor to expanding international trade for Canada. Incorporating standardization practices into regulatory policy provides an added measure of protection for the health and safety of Canadians. Standards Council of Canada offers governments, businesses and consumers the latest and most comprehensive information on standards, technical regulations and conformity assessment in Canada and around the world through its web site, Information and research service and technical document

centre. As the World trade organization North American free trade agreement/enquiry point, Standards Council of Canada serves as the central point of contact in Canada for World trade organization member countries to obtain information on standardization-related market entry requirements.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Statistics Canada**

**Strategic outcome 1**

Canadians have access to timely, relevant and quality statistical information on Canada's changing economy and society for informed debate, research and decision making on social and economic issues.

**Program 1.1—Censuses**

Through the Census programs, Statistics Canada provides information on changes in the Canadian population, in demographic characteristics, and in the agricultural sector. This information serves as a basis for public and private decision making, and research and analysis in areas of concern to the Canadians. The program includes the Census of Population (including the National Household Survey) and the Census of Agriculture. Both the Census of Population and the Census of Agriculture are mandated by the *Statistics Act*; the Census of Population is also mandated in the *Constitution Act*.

**Program 1.2—Economic and Environmental Statistics**

Through the Economic and Environmental Statistics program, Statistics Canada creates a trusted, relevant and comprehensive source of information on the entire spectrum of Canada's economy to inform public debate on economic issues; support economic policy development, implementation and evaluation; and guide business decision making. These statistics support various agreements and statutory requirements specified by legislations or regulations in such areas as taxation.

**Program 1.3—Socio-economic Statistics**

Through the Socio-economic Statistics program, Statistics Canada provides integrated information and relevant analysis on the social and socio-economic characteristics of individuals, families, and households, as well as on the major factors that affect their well-being. This information is used to inform public debate on socio-economic issues; to support social policy development, implementation and evaluation; and to guide public and private decision making. These statistics support requirements specified by legislation or regulations in such areas as labour, immigration, official languages and employment equity.

**Program 1.4—Statistical Infrastructure**

Through the Statistical Infrastructure program, Statistics Canada administers activities and services that support a strong statistical system. These activities and services include development of sound statistical methodology, standardized concepts and classifications, development and provision of information about the agency's surveys and statistical programs; and the development and maintenance of registers of enterprises and addresses for statistical purposes. The activities and services also include data-collection for Statistics Canada's surveys, the production of Statistics Canada's catalogued publications, online databases; and the dissemination of Statistics Canada's

official release vehicle. As well as the co-ordination of those aspects of the agency's Integrated Strategic Planning Process, which ensures the continuity and quality maintenance of programs.

### **Strategic outcome 2**

Specific client needs for high-quality and timely statistical services are met.

#### **Program 2.1—Cost-recovered Statistical Services**

Through the Cost-recovered Statistical Services program, Statistics Canada produces on-demand, high-quality, cost-recovered statistical services that meet specific needs of federal, provincial and territorial institutions and other clients that are not met by the core statistical program.

### **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

#### **Program 3.1—Internal Services**

See introductory text.

## **Department of Western Economic Diversification**

### **Strategic outcome 1**

A growing and diversified western Canadian economy.

#### **Program 1.1—Business Development and Innovation**

Business development and innovation supports western Canadian businesses, industry, and research organizations to enhance business innovation, productivity, and global engagement. Value-added production is strengthened through the introduction of new products, technologies, or innovations to existing processes, as well as through efforts to pursue global markets and increase investment in Western Canada. Additionally, this program supports some members of the Western Canada Business Service Network and related partners to provide business services and access to capital in Western Canada in support of increased entrepreneurship. Transfer payments in support of this program are made under the authority of the Women's Enterprise Initiative and the Western diversification program. Funding support of the Canada Business Network is comprised of operations and maintenance funding.

#### **Program 1.2—Community Economic Growth**

Community Economic Growth involves economic development initiatives that support communities to advance their economies, adjust to changing and challenging economic circumstances, and recover from depressed economic circumstances. This is achieved through both direct funding of projects, as well as funding support of the Community Futures organizations. Additionally, this program assists communities to assess community strengths, weaknesses, opportunities, and potential for new economic activity, and to develop and implement community plans. Transfer payments in support of this program are made under the authority of the Western diversification program and the Community Futures program.

**Program 1.3**—Policy, Advocacy and Coordination

Policy, Advocacy, and Coordination arises from the *Western Economic Diversification Act* (1985) and empowers the Minister to advance the interests of Western Canada through policies and programs and by establishing cooperative relationships with key stakeholders. Policy, advocacy and coordination efforts enable Western Diversification to: provide a strong voice for Western Canada, which results in effective strategies, policies, and programs that address economic development needs; lead federal and intergovernmental collaboration to pursue key opportunities for long-term growth and diversification in areas of federal or shared federal-provincial jurisdiction; and, enable economic analysis activities to be carried out, which ultimately assist with informing policy and program decisions. Transfer payments in support of this program are made under the authority of the Western Diversification Program.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Justice****Strategic outcome 1**

A Fair, Relevant and Accessible Canadian Justice System.

**Program 1.1—Stewardship of the Canadian Legal Framework**

The Department fulfils its stewardship role by ensuring a bilingual and bijural national legal framework for the administration of justice that contributes to a safe and just society for all Canadians and confidence in Canada's justice system. The department develops and tests innovative approaches to strengthen the legal framework within the following domains: criminal law, youth criminal justice, sentencing, official languages, marriage and divorce, access to justice, legal dualism, and Aboriginal justice. In addition, in view of the federal government's shared interest in a sustainable justice system, the department promotes and facilitates ongoing dialogues with the provinces and territories in the areas of shared jurisdiction and provides funding for the delivery of programs that directly support federal policy objectives.

**Program 1.2—Office of the Federal Ombudsman for Victims of Crime**

The Office of the Federal Ombudsman for Victims of Crime was created to provide a voice for victims of crime at the federal level and to ensure that the federal government meets its commitments to victims. The Office provides direct information, referral and complaint review services to its primary clients—victims, victims' family members or representatives, victim serving agencies, and other related stakeholders. The Office also helps raise awareness of systemic issues amongst all criminal justice and victim serving personnel as well as provides related recommendations and advice to the Government of Canada through the Minister of Justice. In order to fulfill its mandate, the Office promotes access by victims to existing federal programs and services for victims; addresses complaints of victims about compliance with the provisions of the *Corrections and Conditional Release Act* promotes awareness of the needs and concerns of victims and the applicable laws that benefit victims of crime, including promoting the principles set out in the Canadian statement of basic principles of Justice for victims of crime; identifies and reviews emerging and systemic issues that negatively impact victims of crime; and facilitates access by victims to existing federal programs and services by providing them with information and referrals. The Ombudsman reports directly to the Minister of Justice and, as such, the Office falls outside the department's governance framework.

**Strategic outcome 2**

A Federal Government that is Supported by High Quality Legal Services.

**Program 2.1—Legal Services to Government Program**

The Department of Justice provides an integrated suite of high quality legal advisory, litigation and legislative services to the Minister of Justice and to all federal departments and agencies to support them in meeting the Government's policy and programming priorities and to advance the overall objectives of the government. Services are provided through: a network of departmental legal services units co-located with client departments and agencies; specialized legal capacities within national headquarter; and, a network of regional offices and sub-offices providing legal advisory and litigation services to federal departments and agencies across the country.

### **Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

#### **Program 3.1—Internal Services**

See introductory text.

### **Administrative Tribunals Support Service of Canada**

#### **Strategic outcome 1**

Efficient and effective services which support tribunal chairs and members in exercising their statutory responsibilities and ensure that their independence is protected in a manner which promotes Canadians' confidence in the federal tribunal system.

#### **Program 1.1—Tribunal Specialized and Expert Support Services**

The Tribunal Specialized and Expert Support Services program provides expert research, analysis, drafting support and advice as well as other support services including investigation and mediation to assist Tribunals in the discharge of their statutory responsibilities. These services are provided by Administrative Tribunals Support of Canada employees such as legal counsel, sectoral experts, tribunal assistants and research personnel.

#### **Program 1.2—Payments to Tribunal Chairs and Members**

The program administers appropriations with respect to tribunal chairs' and members' salaries and other compensation pursuant to the terms of tribunals' enacting legislation and Governor-in-Council appointments.

#### **Program 1.3—Registry Services**

The Registry Services program provides registry services in support of tribunals. The program works closely with Tribunal Chairs and members to ensure that matters before the Tribunals are heard and disposed of in a timely, fair, impartial and efficient manner and within statutory obligations. Services provided include: processing tribunal documents; maintaining and safeguarding tribunal records; providing information to the public regarding tribunal procedures; assisting in the scheduling and conduct of tribunal hearings and assisting in communicating tribunal decisions to the parties and the public. The Registry Services program also is responsible for developing and monitoring service standards, assessing the performance of registry functions and implementing required improvements.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Human Rights Commission**

### **Strategic outcome 1**

Equality of opportunity and respect for human rights.

#### **Program 1.1—Human Rights Program**

This program helps people and federally regulated organizations understand and comply with the *Canadian Human Rights Act* and the *Employment Equity Act*. It respects the Paris principles, a set of international standards which frame and guide the work of national human rights institutions. The program promotes and protects human rights by developing and sharing knowledge, conducting audits, and managing complaints. It works collaboratively with people and organizations to conduct research, develop tools and policies, and raise awareness. It audits federally regulated employers to ensure that they are providing equal opportunities to the four designated groups: women, Aboriginal peoples, persons with disabilities, and members of visible minorities. It screens, investigates and resolves human rights complaints, and decides whether they should go to a full legal hearing. It represents the public interest in legal cases to advance human rights in Canada.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Courts Administration Service**

### **Strategic outcome 1**

The public has timely and fair access to the litigation processes of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada.

#### **Program 1.1—Judicial Services**

The Judicial Services program provides legal services and judicial administrative support to assist members of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada in the discharge of their judicial functions. These services are provided by legal counsel, judicial administrators, law clerks, jurilinguists, judicial assistants, library personnel, and court attendants, under the direction of the four Chief Justices.

#### **Program 1.2—Registry Services**

Registry Services are delivered under the jurisdiction of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada. The registries process legal documents; provide information to litigants on court procedures; maintain court records, participate in court hearings, support and assist in the enforcement of court orders, and work closely with the Office of the four Chief Justices to ensure that matters are heard and decisions are rendered in a timely manner. Registry services are offered in every province and territory through a network of permanent offices, and agreements with provincial and territorial partners.

## **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Office of the Commissioner for Federal Judicial Affairs**

### **Strategic outcome 1**

An independent and efficient Federal Judiciary.

#### **Program 1.1—Payments Pursuant to the *Judges Act***

Payments of salaries, allowance and annuities to federally appointed judges, and their survivors, in the superior courts and courts of appeal in Canada.

#### **Program 1.2—Federal Judicial Affairs**

Provides services to federally appointed judges including compensation and pension services, financial services, information technology/information management, language training, editing of the Federal Courts Reports, services to the Minister of Justice through the judicial appointments secretariat including the Supreme Court of Canada, and International Programs.

#### **Program 1.3—Canadian Judicial Council**

Administrative support to the various committees established by the Council which is composed of 39 Chief Justices and Associate Chief Justices in Canada as well as the Senior Judges from the superior courts in Nunavut, Yukon and the Northwest Territories.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Office of the Director of Public Prosecutions**

### **Strategic outcome 1**

Criminal and regulatory offences under federal law are prosecuted in an independent, impartial and fair manner.

**Program 1.1**—Drug, *Criminal Code*, and Terrorism Prosecution Program

This program supports the protection of Canadian society against crime through the provision of legal advice and litigation support during police investigations, and the prosecution of: all drug offences under the *Controlled Drugs and Substances Act* and any related organized crime offences throughout Canada, except in Quebec and New Brunswick, where the Office of the Director of Public Prosecutions prosecutes such offences only where charges are laid by the Royal Canadian Mounted Police; proceeds of crime offences; pursuant to understandings with the provinces, Criminal Code offences where they are related to drug charges; all Criminal Code offences in the three territories; terrorism offences; and war crimes and crimes against humanity offences. This program also involves the promotion of federal/provincial/territorial cooperation on criminal justice issues of mutual concern.

**Program 1.2**—Regulatory Offences and Economic Crime Prosecution Program

This program supports the protection of Canadian society against crime through the provision of legal advice and litigation support to federal investigative agencies, and the prosecution of: offences under federal statutes aimed at protecting the environment and natural resources as well as the country's economic and social health (e.g., *Fisheries Act*; *Income Tax Act*; *Copyright Act*; *Canada Elections Act*; *Canadian Environmental Protection Act, 1999*; *Competition Act*; *Customs Act*; *Excise Act*; and the *Excise Tax Act*); offences involving fraud against the government; capital market fraud offences; and any organized crime offences related to the foregoing offences. This program also includes the recovery of outstanding federal fines and the promotion of federal/provincial/territorial cooperation on criminal justice issues of mutual concern.

**Strategic outcome 2**

Compliance and enforcement activities under the *Canada Elections Act* and *Referendum Act* are conducted by the Commissioner of Canada Elections in an independent, impartial and fair manner.

**Program 2.1**—Compliance

This program supports the integrity of Canada's electoral process by enabling the Commissioner of Canada Elections to ensure compliance with the *Canada Elections Act* and the *Referendum Act*. This includes the use of non-punitive and informal corrective measures in response to certain situations of non-compliance and the conclusion of compliance agreements with offenders.

**Program 2.2**—Enforcement

This program supports the integrity of Canada's electoral process by enabling the Commissioner of Canada Elections to act in an independent manner in conducting investigations under the *Canada Elections Act* and the *Referendum Act*, and taking enforcement measures to respond to situations of non-compliance. This also includes deciding which matters will be referred to the Director of Public Prosecutions for possible prosecution and what charges will be recommended.

**Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

**Program 3.1**—Internal Services

See introductory text.

## **Offices of the Information and Privacy Commissioners of Canada**

### **Strategic outcome 1**

The privacy rights of individuals are protected.

#### **Program 1.1—Compliance Activities**

This program oversees compliance with federal privacy legislation for public- and private-sector organizations, thus contributing to the protection of Canadian's privacy rights. Through this program, the Office of the Privacy Commissioners investigates privacy-related complaints and responds to inquiries from individuals and organizations, reviews breach reports and has the power to initiate its own investigations when warranted (Commissioner initiated complaints). Through audits and reviews, the Office of the Privacy Commissioners also assesses how well organizations are complying with requirements set out in the two federal privacy laws, and provides recommendations on Privacy Impact Assessments, pursuant to the Treasury Board Directive on Privacy Practices. This program is supported by a legal team that provides specialized advice and litigation support, and a research team with senior technical and risk-assessment support.

#### **Program 1.2—Research and Policy Development**

This program advances privacy knowledge, develops policy positions and provides strategic advice on the full range of privacy issues to Parliamentarians, government institutions and private sector stakeholders. Through this program, the Office of the Privacy Commissioners serves as a centre of expertise on emerging privacy issues in Canada and abroad by researching trends and technological developments, monitoring and analysing legislative and regulatory initiatives, providing strategic legal, policy and technical advice on key issues, and developing policy positions that advance the protection of privacy rights in both the public and private sectors. An important part of the work involves supporting the Commissioner and senior officials in providing advice to Parliament on potential privacy implications of proposed legislation, government programs, and private-sector initiatives. Since 2004, the program includes the administration of the *Personal Information Protection and Electronic Documents Act* Contributions Program that funds independent privacy research and related knowledge translation initiatives, to advance knowledge and promote the practical application of that knowledge in ways that enhance privacy protection for Canadians.

#### **Program 1.3—Public Outreach**

This program promotes public awareness and understanding of rights and obligations under federal privacy legislation. Through this program, the Office of the Privacy Commissioner delivers public education and communications activities, including speaking engagements and special events, exhibiting, media relations, and the production and distribution of promotional and educational material. Through public outreach activities, individuals are informed about privacy and personal data protection. Such activities also enable federal and private-sector organizations to better understand their obligations under federal privacy legislation.

### **Strategic outcome 2**

Rights under the *Access to Information Act* are safeguarded.

#### **Program 2.1—Compliance with Access to Information Obligations**

The *Access to Information Act* is the legislative authority for the oversight activities of the Information Commissioner, which are: to investigate complaints from requestors and corporations; to review the performance of government institutions; to report the results of investigations/reviews and recommendations to complainants, government institutions, and Parliament; to pursue judicial enforcement; and to provide advice to Parliament on access to information matters. The Office of the Information Commissioner supports the Commissioner in carrying out these activities.

### **Strategic outcome 3**

The following program supports all Strategic outcomes within this organization.

**Program 3.1**—Internal Services—Office of the Privacy Commissioner

See introductory text.

**Program 3.2**—Internal Services—Office of the Information Commissioner

See introductory text.

**Registrar of the Supreme Court of Canada**

**Strategic outcome 1**

The administration of Canada's final court of appeal is effective and independent.

**Program 1.1**—Court Operations

In order to render its decisions, the Court requires the support of the Office of the Registrar in the management of its caseload from the receipt of an application for leave to appeal up to and including the release of a judgment on appeal. This support includes providing services to the litigants; reviewing applications for leave to appeal and preparing advice as to whether leave to appeal should be granted; preparing summaries of the leave applications; providing procedural advice; reviewing and summarizing factums where leave to appeal is granted; receiving, controlling and preserving all incoming case documentation; tracking various time periods to ensure compliance by the parties with the Rules of the Supreme Court of Canada; recording proceedings on appeals; answering queries with regard to cases; editing and summarizing decisions of the Court; publishing decisions in the Canada Supreme Court Reports, in accordance with the *Supreme Court Act*; and providing law library services with an extensive collection in both print and electronic formats to support legal research undertaken by users within the Court and members of the legal community.

**Program 1.2**—Payments to Judges of the Supreme Court of Canada Pursuant to the *Judges Act*

The *Judges Act* is an Act respecting all federally appointed judges and thereby applies to the judges of the Supreme Court of Canada. The *Judges Act* specifies the salaries of the judges of the Supreme Court of Canada and prescribes other payments to be made to them, namely allowances for relocation, representation, incidentals, conferences, as well as annuities. The Office of the Registrar processes these payments, as required by the *Judges Act*.

**Strategic outcome 2**

The following program supports all Strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of National Defence****Strategic outcome 1**

Defence Remains Continually Prepared to Deliver National Defence and Defence Services in Alignment with Canadian Interests and Values.

**Program 1.1—Defence Capability Element Production**

The Defence Capability Elements Production Program aims to sustain Defence by producing and maintaining portfolios of the fundamental Defence capability elements so that they are continuously available in the appropriate quantity, combination and condition to sustain the chain of programs delivered by Defence from the Defence Capability Development and Research Program through to the Defence Ready Force Elements Production Program, which collectively give Defence the ability to conduct Defence Combat and Support Operations as well as deliver Defence Services and Contributions to Government. The primary elements of Defence capability are military personnel, materiel and information systems, information, and real property. A fundamental focus of the Defence Capability Elements Production Program is to provide an adequate and sustained supply of individual military personnel and materiel in the near-term and over long-term time horizons so that they can be integrated to produce force elements within the Defence Ready Force Element Production Program. Results are achieved through subordinate programs, each of which focuses on a separate portfolio: military personnel and organization; materiel; real property; or information systems. A lifecycle approach is used to manage each portfolio. The essential aspects of the lifecycle approach are sub-sub-programs that provide the principle lifecycle functions: introduction into service; maintenance, upgrade and supply; release from service; portfolio management; and overarching co-ordination and control. The character of activity that occurs within each of these primary functions depends on the portfolio of entities being produced and therefore the de-segregation of the lifecycle functions into sub-sub-programs is unique to each portfolio. The authority for this Program is derived from the *National Defence Act*.

**Program 1.2—Defence Ready Force Element Production**

The Defence Ready Force Element Production Program produces and renews force elements on a continual basis for use in Defence Combat and Support Operations, as well as for the delivery of Defence Services and Contributions to Government, in order to increase the likelihood of success and decrease risk of failure in the defence of Canada and promotion of Canadian interests. Results are delivered by assembling force elements from the fundamental elements of Defence capability (i.e., military personnel, materiel and information systems, information, and, in some cases, real property), and integrating them through various training and certification programs so that they have the requisite amount of readiness in order to fulfill predefined roles within the operations for which they are destined. The term readiness refers to the volume, endurance, responsiveness and capability attributes of force elements that are not employed. These attributes are used to determine the degree of risk that would be associated with assigning them to fulfill perspective role(s) within on-going or contingency operations. The force elements produced by the Defence Ready Force Elements Production Program are organized into portfolios according to the land, aerospace, and maritime environments in which they operate. There are also portfolios for force elements that operate jointly across these domains and force elements that provide common support functions. Across these portfolios, force elements are produced to meet readiness targets. These readiness targets ensure that production can be sustained over short- and medium-term time horizons and that the number of force elements available for employment in on-going and contingency operations is in accordance with acceptable levels of operational risk.

### **Program 1.3—Defence Capability Development and Research**

The Defence Capability Development and Research Program seeks to provide the analytical bases and knowledge to anticipate foreseeable changes in the threat and security environment and to determine the associated demand for Defence capabilities across near- and long-term time horizons in order to enable evidence-based strategic decisions that align the introduction, modification and divestment of Defence capabilities and guide the application of existing capabilities with an acceptable levels of risk. Results are achieved by: establishing and monitoring the fulfillment of near-term targets for readying force elements and conducting Defence operations; identifying lessons from past operations; assessing defence and security trends; developing and integrating new knowledge and systems/methods for conducting operations; developing approaches and conducting Defence capability analyses at strategic, operational and tactical levels; present to future capability assessments; designing and assessing defence alternatives; providing Defence capability oversight and expertise; and Defence capability use planning for sustainable Defence capabilities in future time horizons. As such, this Program sustains Defence by providing key products and services to the Defence Capability Elements Production Program, the Defence Ready Force Element Production Program and parts of the Defence Combat and Support Operations, and Defence Services and Contributions to Government Programs. This Program also directly enables the management and oversight of Defence as a whole.

### **Strategic outcome 2**

Defence Operations and Services Improve Stability and Security, and Promote Canadian Interests and Values.

### **Program 2.1—Defence Combat and Support Operations**

The Defence Combat and Support Operations Program delivers military power in combat, security, stability and surveillance operations in response to armed threats, or potential armed aggression, for the purpose of protecting Canadian sovereignty, upholding the values of Canadians, and defending the interests of the Government of Canada. Results are achieved through this Program by the application of Defence capabilities in domestic, continental and international domains, either independently or in combination with allies, where the primary focus is to inflict military effects against threats. The term Defence capability is a collective term that refers to the ability of a military force to achieve a desired effect against a threat during the execution of a Defence operation (or the delivery of a Defence service) by executing tasks according to understood concepts, doctrine and standards. The military forces delivered by Defence are composed of force elements which are organizational entities that are, in turn, composed of members of the Canadian Armed Forces, and in some cases personnel from the Department of National Defence. Force elements integrate people, with specialized information and expertise, materiel (e.g., equipment, platforms, weapon systems) and in some cases real property, so that capabilities can be applied against threats. Force elements have different sizes and compositions according to the capabilities they must apply during an operation. This Program is underpinned by the *National Defence Act*, defence policy, international treaties and agreements, membership in international organizations, and direction received by the Government of Canada. Sub-programs beneath this Program target a range of threats across a variety of operational contexts via different delivery mechanisms in different geographic regions.

### **Program 2.2—Defence Services and Contributions to Government**

The Defence Services and Contributions to Government Program aims to support the delivery of Canadian Government safety and security initiatives and encourage recognition and pride in Canada and the Canadian military. This is accomplished through the provision of unique Defence services in support of other elements of Government or the Canadian public. To encourage and share pride and awareness of Canada's military heritage, contributions, and leadership, Defence provides unique services and opportunities for outreach, awareness, preservation and development. Defence unique services also include operations conducted to ensure or enhance the security, safety, stability and/or well-being of Canadians, or international populations in peril, in accordance with Canadian values and the interests of the Canadian Government, in situations where there may be a need to defend against armed threats but where this is not the primary focus. The operations are delivered through the employment of force elements to achieve a desired effect within specific contexts through execution of tasks according to understood concepts, doctrine and standards. The force elements delivered by Defence are organizational entities which are composed of members of the Canadian Armed Forces and in some cases personnel from the Department of National Defence. Force elements have different sizes and compositions according to the capabilities they must apply during an operation. Defence remains consistently ready to employ force elements under this Program however significant operations do not always occur every fiscal year.

**Strategic outcome 3**

The following program supports all strategic outcomes within this organization.

**Program 3.1—Internal Services**

See introductory text.

**Communications Security Establishment**

**Strategic outcome 1**

Foreign signals intelligence and technical security capabilities advance and protect Canada's vital interests.

**Program 1.1—Signals Intelligence**

This program provides foreign intelligence that addresses the Government of Canada's vital interests in defence, security, and international affairs through the collection, processing, analysis and reporting. It also provides technical and operational assistance to federal law enforcement and security agencies.

**Program 1.2—Information Technology Security**

This program provides advice, guidance, and services to help ensure the protection of electronic information and information systems of importance to the Government of Canada.

**Military Grievances External Review Committee**

**Strategic outcome 1**

The Chief of the Defence Staff and members of the Canadian Armed Forces have access to a fair, independent and timely review of military grievances.

**Program 1.1—Independent Review of Military Grievances**

The Average elapsed time spent on grievance review, between the reception of the grievance file at the Committee to the date of signature of the Findings and Recommendations report by the Committee member. Calculation on the % meeting the established standards.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

## **Military Police Complaints Commission**

### **Strategic outcome 1**

The Military Police Complaints Commission ensures that the Canadian Forces Military Police has the highest standard of conduct according to law and police best practices, and is free from interference in its investigations.

#### **Program 1.1—Complaints Resolution**

This program aims to successfully resolve complaints about the conduct of Military Police members as well as complaints of interference with Military Police investigations by overseeing and reviewing all complaints received. This program is necessary to help the Military Police to be as effective and as professional as possible in their policing duties and functions.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Office of the Communications Security Establishment Commissioner**

### **Strategic outcome 1**

The Communications Security Establishment performs its duties and functions in accordance with the laws of Canada and with due regard for the privacy of Canadians.

#### **Program 1.1—The Communications Security Establishment Commissioner’s Review Program**

The program provides independent review by the Office of the Communications Security Establishment Commissioner of the lawfulness of the activities of the Communications Security Establishment to determine whether they complied with the laws of Canada in general and, in particular, the Canadian Charter of Rights and Freedoms, the *National Defence Act*, the *Criminal Code* and the *Privacy Act*. The program also includes undertaking any investigation the Commissioner considers necessary in response to any complaint filed by Canadian citizens and permanent residents of Canada. If the Commissioner believes that Communications Security Establishment may not have complied with the law, he is required to inform the Minister of National Defence and the Attorney General of Canada. In addition, the Commissioner has a duty under the *Security of Information Act* to receive information from persons who are permanently bound to secrecy if they wish to claim a public interest defence for divulging classified information about Communications Security Establishment.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

**Program**—Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Canada Revenue Agency****Strategic Outcome 1**

Taxpayers meet their obligations and Canada's revenue base is protected.

**Program 1.1**—Reporting Compliance

The Reporting Compliance program seeks to protect the integrity of Canada's voluntary compliance system by identifying and addressing the small segment of the population that does not report the correct amounts. The Canada Revenue Agency's compliance interventions follow an escalating approach that moves from influencing compliance to enforcing it. The Canada Revenue Agency seeks to influence compliance attitudes by increasing taxpayers' understanding of their tax obligations through targeted outreach activities, client service, and education. It also completes examinations, audits, and investigations at the domestic and international level to ensure Canada's tax laws are being followed.

**Program 1.2**—Collections, Compliance and Verification

The Collections, Compliance, and Verification program identifies, addresses, and prevents non-compliance to make sure tax debt is resolved promptly. The Canada Revenue Agency takes a progressive approach to compliance and debt collection, starting with education and outreach activities to remind taxpayers of their compliance obligations. The Canada Revenue Agency works with individuals and businesses that have outstanding tax returns or remittances or that owe money to help them meet their tax obligations and pay what they owe. When needed, the Canada Revenue Agency takes action to address non-compliance through a range of activities to make sure Canada's tax laws for registration, filing, withholding, and debt payment are followed.

**Program 1.3**—Assessment of Returns and Payment Processing

The Assessment of Returns and Payment Processing program assesses and processes tax returns and payments for individuals and businesses as quickly and accurately as possible, giving them early certainty to help them manage their tax affairs confidently. The Canada Revenue Agency aims to reduce red tape by providing streamlined and timely services to individuals and businesses while securing Canada's revenue base.

**Program 1.4**—Taxpayer and Business Assistance

The Taxpayer and Business Assistance program is committed to providing taxpayers with the accurate and timely information they need to comply with Canada's tax laws. The Canada Revenue Agency website is organized according to taxpayer needs, giving detailed information about its programs and services for individuals and families, businesses, charities and giving, and representatives. Taxpayers with more complex information needs can contact the Canada Revenue Agency's call centres, refer to its publications and videos, or use its technical interpretations and rulings services. To further support taxpayers, the Canada Revenue Agency monitors charities and administers registered plans to make sure they meet the legislative requirements.

**Program 1.5—Appeals**

The Appeals program offers a timely and objective redress process to resolve disputes resulting from decisions the Canada Revenue Agency made. The program also reviews requests for taxpayer relief and resolves service complaints.

**Strategic Outcome 2**

Eligible families and individuals receive timely and accurate benefit payments.

**Program 2.1—Benefit Programs**

The Benefit Programs help many Canadians who depend on benefit payments for a large part of their household income. The Canada Revenue Agency administers a range of ongoing benefits and one-time payment programs on behalf of the provinces and territories and the federal government, such as the Canada child tax benefit, the Goods and services tax/Harmonized sales tax credit, and the Universal child care benefit. The Canada Revenue Agency makes sure the right benefit payment is made to the right individual at the right time and gives recipients accessible information and timely responses to their enquiries.

**Strategic Outcome 3**

Taxpayers and benefit recipients receive an independent and impartial review of their service-related complaints.

**Program 3.1—Taxpayers' Ombudsman**

The Taxpayers' Ombudsman reports directly to the Minister of National Revenue and operates independently at arm's length from the management of the Canada Revenue Agency and the Canada Revenue Agency Board of Management; provides advice to the Minister of National Revenue about service matters at the Canada Revenue Agency; addresses requests for reviews made by taxpayers and benefit recipients with respect to service matters, including the service rights outlined in the Taxpayer Bill of Rights; and identifies and reviews systemic and emerging service-related issues within the Canada Revenue Agency that have a negative impact on taxpayers and benefit recipients.

**Strategic Outcome 4**

The following program supports all strategic outcomes within this organization.

**Program 4.1—Internal services**

See introductory text.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Natural Resources****Strategic outcome 1**

Canada's natural resource sectors are globally competitive.

**Program 1.1—Statutory Programs—Atlantic Offshore**

Through this Program, Natural Resources Canada monitors and facilitates payment disbursement agreements and transfer payments under the *Atlantic Offshore Accord Acts*. The Program includes the following programs: Canada Newfoundland Offshore Petroleum Board; Payments to the Newfoundland Offshore Petroleum Resource Revenue Fund; Payments to the Nova Scotia Offshore Revenue Account; Nova Scotia Crown Share Adjustment Payment; and Canada-Nova Scotia Offshore Petroleum Board.

**Program 1.2—Innovation for New Products and Processes**

Optimizing the use of Canada's natural resources and the processes by which they are developed would improve the productivity and competitiveness of natural resource sectors. The objective of this Program is to maximize productivity and competitiveness by encouraging the adoption of new technologies and processes and the development of new products. These objectives are achieved by conducting and supporting research and development and by delivering frameworks and policies for, and demonstrations of, new applications, technologies, processes, and products.

**Program 1.3—Investment in Natural Resource Sectors**

Investing in the development of natural resources is costly and risky due to inherent uncertainties in the potential economic viability of natural resource projects. Many factors must be considered when deciding whether to develop a natural resource project. In some cases, limited information may make it difficult for investors and/or companies to assess potential opportunities. The objective of this Program is to encourage investment in the natural resource sectors by increasing industry's knowledge of opportunities, regulations and obligations. This ensures that a more accurate assessment of the expected benefits of an investment can be made and subsequently compared to its costs and risks, thereby allowing for a more comprehensive investment decision. This objective is achieved by providing funding and information on the factors that determine the potential economic viability of natural resource projects.

**Program 1.4—Market Access and Diversification**

Canada's natural resource sectors face two key barriers to market access and diversification: 1) trade and policy barriers, and 2) lack of awareness of Canada's natural resource products. The objectives of this Program are to break down those barriers and support the development and expansion of markets for Canadian natural resource products by making information available to Canadians, supporting negotiations to reduce trade barriers, and ensuring that regulations are up to date. This helps maintain natural resource sectors' access to existing markets and increases their access to new market segments.

## **Strategic outcome 2**

Natural resource sectors and consumers are environmentally responsible.

### **Program 2.1—Energy-efficient Practices and Lower-carbon Energy Sources**

Canada's energy markets are defined by the decisions of energy consumers and producers. However, there are multiple barriers to the adoption of energy efficient practices and implementation of lower-carbon energy sources, including a lack of awareness of available options and their benefits, insufficient capacity for adoption (e.g., regulatory frameworks, codes and standards), and financial risk. The objectives of this Program are to address these barriers by encouraging and enabling energy consumers and producers to adopt cleaner and more efficient energy technologies, products, services and practices. These objectives are achieved through education and outreach activities, targeted incentives, and regulatory interventions that keep pace with technological changes.

### **Program 2.2—Technology Innovation**

Technology Innovation is key to overcoming challenges confronted by natural resource sectors in pursuing responsible development. Through this Program, Natural Resources Canada encourages academia, industry and the public sector to research, develop and demonstrate innovative solutions. This objective is achieved through the generation and dissemination of scientific knowledge, and the development and demonstration of new technologies.

### **Program 2.3—Responsible Natural Resource Management**

Greater knowledge of environmental risks and environmentally responsible practices help prevent and reduce the environmental impacts of past, present and future natural resource development. The objectives of this Program are to enable government departments, regulatory bodies and industry to assess these impacts, and to develop, monitor and maintain resources or clean up wastes responsibly. These objectives are achieved through the provision of assessments and knowledge rooted in sound science, and through waste management efforts that are undertaken in collaboration with provinces, federal agencies and municipalities.

## **Strategic outcome 3**

Canadians have information to manage their lands and natural resources, and are protected from related risks.

### **Program 3.1—Landmass Information**

Public, academic and private sectors as well as Canadians rely on up-to-date, comprehensive and accessible landmass information to make sound socio-economic and environmental decisions. This Program provides open access to Canada's fundamental geomatics framework and information system, including accurate three-dimensional positioning, high-resolution satellite imagery and other remote sensing products, legal (boundary) surveys, mapping and other analysis applications. In addition, it delivers logistics support in the North and regulatory oversight for a robust property system framework on Canada Lands.

### **Program 3.2—Protection for Canadians and Natural Resources**

Natural resource development and changes in the environment pose risks to human, natural resource and infrastructure health. The objective of this Program is to enable other government departments, communities, and the private sector to manage these risks and to ensure the appropriate capacity is in place. Natural Resources Canada achieves this objective by providing regulation, knowledge, tools and services and by fulfilling legislated responsibilities.

## **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

**Program 4.1**—Internal Services

See introductory text.

**Atomic Energy of Canada Limited**

**Strategic outcome 1**

Be the top worldwide nuclear products and services company. Protect the health and safety of the public, our employees and the environment. Minimize nuclear legacy obligations for future generations.

**Program 1.1**—Facilities and Nuclear Operations

This program supports the operations of Atomic Energy of Canada Limited and requires major facilities such as reactors, experimental loops, hot cells and waste management plants.

**Program 1.2**—Commercial Business

The sale on a fully commercial basis of nuclear products and services. Commercial business activities leverage the investment in research and development on a full cost recovery basis and generates profits, which are returned to the corporation. Commercial profits assist in funding primarily the Nuclear Platform including the national research laboratories at Chalk River and also development of new reactor technologies including the next-generation Advanced Canada Deuterium Uranium Reactor. The various commercial business lines and related services/products provide innovative cost effective business solutions to customers. These sales primarily to nuclear generating facilities are required to optimize the production of a secure and safe energy supply worldwide. Nuclear energy is an essential component of the solution for clean air and climate change improvements worldwide.

**Program 1.3**—Research and Development

Research and Development undertaken to maintain and enhance Canada's scientific and technological expertise in support of the production of environmentally friendly and cost effective Canada Deuterium Uranium nuclear generated electricity as well as other important peaceful applications of nuclear technologies in areas such as medicine. In particular it involves the maintenance of the intellectual property that has been developed over a period of sixty years covering basic knowledge of: materials, reactor physics, chemistry, critical components, radiation, and the environment; that could have an impact on the safety, licensing and design basis of Canada Deuterium Uranium technology.

**Program 1.4**—Waste Management and Decommissioning

Decommissioning and waste management programs will need to be delivered at Atomic Energy of Canada Limited sites over at least the next 70 to 100 years. Liabilities at Atomic Energy of Canada Limited sites have arisen from a wide variety of sources, including wartime activities, wastes received from universities, medical facilities, government and industry from across Canada, and a variety of research and development programs carried out in support of Canada's nuclear power program. Activities provide for maintaining and surveillance of nuclear waste, decontamination and dismantling of surplus facilities as well as environmental restoration projects. Operational management of the facilities that have been turned over to decommissioning are also within this scope.

## **Canadian Nuclear Safety Commission**

### **Strategic outcome 1**

Safe and secure nuclear installations and processes used solely for peaceful purposes and an informed public on the effectiveness of Canada's nuclear regulatory regime.

#### **Program 1.1—Nuclear Reactors**

This program aims to regulate facilities associated with nuclear energy (nuclear power plants and research reactors), to protect the health, safety and security of Canadians and the environment in a manner consistent with Canada's international commitments on the peaceful uses of nuclear energy. The program regulates all the lifecycle stages for nuclear power and research reactors, from site preparation, construction, and operation, to the decommissioning of the facility and abandoning the site (once commercial operations are ended). The licensing and compliance activities associated with this program are all managed through a risk-informed and performance-based approach. Compliance verification is conducted against established criteria consistent with the licensing basis of the facility. The results of all the regulatory activities associated with this program are communicated to the public on a regular basis. The program is guided by a management system and is based on fundamental safety principles for continuous improvement.

#### **Program 1.2—Scientific, Technical, Regulatory and Public Information**

This program aims to inform the Canadian public—including Canadian nuclear licensees, vendors, academic community, special interest groups, Aboriginal groups, other government departments, other jurisdictions and international organizations—that nuclear facilities and activities are being used safely, in adherence with regulatory requirements and best available scientific and technical information. This program is realized through the processes of generating scientific and technical information, institutionalizing the information within the regulatory framework, and disseminating the information through a variety of channels and engagement practices.

#### **Program 1.3—Nuclear Substances and Prescribed Equipment**

This program aims to provide assurance to the Canadian public that nuclear substances and prescribed equipment are regulated to protect the health, safety and security of Canadians and the environment, in a manner consistent with Canada's international commitments on the peaceful uses of nuclear energy. The Canadian Nuclear Safety Commission issues certificates for the design of radiation devices and prescribed equipment to ensure their safe use and issues licences for the safe handling and use of nuclear substances, radiation devices and prescribed equipment. In addition, the Canadian Nuclear Safety Commission certifies radiography device operators, who must be certified to use exposure devices, as well as certain radiation safety officers. The Canadian Nuclear Safety Commission monitors the regulated activities to ensure the safety of workers and the general public, and to protect the environment. The licences issued are categorized depending on the type of licensed activity, nuclear substances and prescribed equipment being used, as well as the risk involved. The regulated activities for which these licences are issued are related to four distinct stakeholder groups: medical, industrial, commercial, as well as academic and research. Each of these groups uses nuclear substances and prescribed equipment in their work. Compliance activities are conducted by the Canadian Nuclear Safety Commission to monitor the safety and compliance with regulatory requirements. The licensing and compliance activities associated with this program are all managed through a risk-informed and performance-based approach. Compliance verification is conducted against established criteria consistent with the licensing basis of the activity being regulated. The results of regulatory activities associated with this program are communicated to the public and other stakeholders on a regular basis. The program is guided by a management system, and is based on fundamental safety principles for continuous improvement.

#### **Program 1.4—Nuclear Fuel Cycle**

This program aims to regulate facilities associated with the nuclear fuel cycle (uranium mines and mills, nuclear processing facilities, and nuclear waste management facilities) to protect the health, safety and security of Canadians and the environment in a manner consistent with Canada's international commitments on the peaceful uses of nuclear energy. The program regulates all the life-cycle stages for these facilities — from site preparation through construction and operation, to decommissioning (or long-term management, in the case of some nuclear waste facilities). The licensing and compliance activities associated with this program are all managed through a risk-informed and performance-based approach. Compliance verification is conducted against established criteria consistent with the licensing basis of the facility. The results

of regulatory activities associated with this program are communicated to the public on a regular basis. The program is guided by a management system, and is based on fundamental safety principles for continuous improvement.

**Program 1.5—Nuclear Non-Proliferation**

This program aims to provide assurance to both the Canadian public and the international community that the development, production and use of nuclear energy and nuclear substances, prescribed equipment and prescribed information is safe and secure, and conforms with control measures and international obligations and commitments to which Canada has agreed, including those under the Treaty on the Non-Proliferation of Nuclear Weapons. Under its mandate, the Canadian Nuclear Safety Commission implements measures of control respecting nuclear non-proliferation, including domestic and international arrangements, International Atomic Energy Agency safeguards, and assessments and authorizations of exports and imports of nuclear substances, prescribed equipment and prescribed information (technology).

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**National Energy Board**

**Strategic outcome 1**

The regulation of pipelines, power lines, energy development and energy trade contributes to the safety of Canadians, the protection of the environment and efficient energy infrastructure and markets, while respecting the rights and interests of those affected by National Energy Board decisions and recommendations.

**Program 1.1—Energy Regulation**

This program provides the regulatory framework under which the National Energy Board carries out its mandate and achieves part of its strategic outcome. Specifically, it enables Canadian federally regulated energy infrastructure to be developed and supervised throughout its lifecycle. The regulatory framework includes components such as setting expectations for industry and others, monitoring and enforcing compliance with requirements, measuring performance of the National Energy Board's regulatory framework and focusing on continual improvement. The authority for this program is derived from the *National Energy Board Act*, the *Canada Oil and Gas Operations Act*, the *Canada Petroleum Resources Act*, the Canada Labour Code and other associated regulations and guidelines. Energy regulation provides Canadians with safe, reliable and efficient energy supply.

**Program 1.2—Energy Information Program**

Under this program, the supply, demand, production, development, transmission and trade of energy are analyzed to ensure the requirements of Canadians are appropriately met. Advice is provided on energy issues of interest. The Board uses energy information to inform its regulatory decisions and to produce publicly available assessments of energy trends, events and issues that may affect Canadian energy markets and the supply and demand for energy.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Northern Pipeline Agency**

**Strategic outcome 1**

The planning and construction of the Canadian portion of the Alaska Highway Gas Pipeline project is efficient and expeditious while ensuring environmental protection and social and economic benefits for Canadians.

**Program 1.1**—Oversee and regulate the planning and construction of the Canadian portion of the Alaska Highway Natural Gas Pipeline Project

Oversee and regulate the planning and construction of the Canadian portion of the Alaska Highway Natural Gas Pipeline Project.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Strategic outcome 1**

The Governor General, representing The Queen in Canada, is enabled to fulfill constitutional, state, ceremonial and public duties.

**Program 1.1—Governor General Support**

The Office of the Secretary to the Governor General provides support and advice to the Governor General of Canada in his/her unique role as the representative of The Queen in Canada as well as Commander-in-Chief. The Office assists the Governor General in carrying out constitutional responsibilities, in representing Canada internationally, and in encouraging excellence and achievement through the administration of the Canadian Honours System and in the granting of armorial bearings. The Office also supports the Governor General in bringing Canadians together. It manages a visitor services program at both of the Governor General's official residences and oversees the day-to-day operations of these residences. The Office also provides support to former Governors General.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**House of Commons****Strategic outcome 1**

Effective administrative and professional support for Members, both individually and collectively, in their roles as legislators and representatives of 338 constituencies, in the Chamber, in committee and in caucus.

**Program 1.1—Members and House Officers**

Members assume the roles of legislators and elected representatives of their constituency. In their constituencies, Members participate in events and activities and hold discussions with constituents about their concerns. In the Chamber, Members participate in debates and study and vote on legislation. Members sit on standing committees and special or joint committees, since the House of Commons delegates' in-depth consideration of bills and the thorough scrutiny of the government's programs and policies to its committees. Members also participate in parliamentary associations and interparliamentary groups, and are members of delegations for parliamentary exchanges. Finally, in caucus, Members develop strategy, discuss policy and examine important issues with fellow party members, and direct the work of party research offices. Some Members also assume additional functions such as: the Speaker, Deputy Speaker, House Leaders and Chief Whips.

**Program 1.2—House Administration**

House employees are responsible for providing services to Members elected during a Parliament. They also serve the House as an institution on a permanent basis by ensuring continuity from one Parliament to another, access to parliamentary records, and a stable infrastructure to support Members in the democratic process. Advice and support are provided in a wide variety of areas such as: procedural, legislative and legal services; information technology and management; building management; security; food services; finance; human resources; and workplace health and safety. The staff of the House of Commons strives to support the institution and the Members in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in caucus.

**Library of Parliament****Strategic outcome 1**

An informed and accessible Parliament.

**Program 1.1—Information Support for Parliament**

This Program provides parliamentarians with information, documentation, research and analysis services to help them fulfil their roles as legislators and representatives and to support them in their efforts to make Parliament and information about Parliament accessible to the public.

## **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Office of the Conflict of Interest and Ethics Commissioner**

### **Strategic outcome 1**

The public can feel confident that public office holders and members of Parliament are meeting the requirements of the conflict of interest compliance measures.

#### **Program 1.1—Administration of the *Conflict of Interest Act* and the *Conflict of Interest Code for Members of the House of Commons***

The Commissioner provides confidential advice to Public Office Holders and Members of Parliament about how to comply with the *Conflict of Interest Act* and the Members of Parliament's Code respectively. She is also mandated to provide confidential advice to the Prime Minister about conflict of interest and ethics issues. The Commissioner may conduct an inquiry into whether a Member of Parliament has contravened the Code or a present or former Public Office Holder has breached the Act. This program activity benefits Canadians by minimizing the possibility of conflicts arising between the private interests and public duties of Public Office Holders and Members of Parliament and provides for the resolution of those conflicts in the public interest should they arise.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Parliamentary Protective Service**

### **Strategic outcome 1**

Physical security of Parliamentarians, employees, visitors, the premises or parts of premises that form part of the parliamentary Precinct and any assets located within or events that take place therein, and of Parliament Hill.

#### **Program 1.1—Physical Security**

The Parliamentary Protective Service is responsible for the physical security throughout the parliamentary precinct and Parliament Hill. This includes the physical security of the parliamentary precinct, Parliamentarians, Parliamentary Staff, and guests of Parliament, as well as all visitors to Parliament Hill and/or the precinct, and any assets located within or events that take place therein.

## Strategic outcome 2

The following program supports all strategic outcomes within this organization.

### Program 2.1—Internal Services

See introductory text.

## Senate

### Strategic outcome 1

To provide the best possible environment for Senators to effectively contribute to federal legislation and public policy issues in the best interest of all Canadians.

#### Program 1.1—Senators and their Offices

Provides Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines. Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

#### Program 1.2—Administrative Support

Provide the ongoing support services required for the effective, efficient and economical delivery of operating programs outlined under the other two program activities of the Senate. Administrative support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations. Costs included in this program are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; repairs, trades and transportation services; corporate improvement including internal audit and strategic management.

#### Program 1.3—Chamber, Committees and Associations

Provide the support and services Senators require for their work in the Senate Chamber; standing, special and joint committees; and parliamentary associations. This includes procedural, legislative, and information products such as Speaker's rulings, legislative drafting, official publications and broadcasting; and administrative services such as budgets and logistics for meetings. Costs included under this program are: salaries for additional duties of the Officers of the Senate; staff costs of operating the offices of Officers of the Senate; salaries of the Clerk's and Legislative Sectors; journals, reporting of debates and publications; committees, parliamentary associations and exchanges; broadcasting; and Senate Pages.

## Office of the Senate Ethics Officer

### Strategic outcome 1

Senators meet their obligations under The Ethics and Conflict of Interest Code for Senators in a manner that contributes to the integrity of the Senate as an institution.

**Program 1.1—Administration**

The mandate of the Senate Ethics Officer is to administer and interpret the Code for Senators that sets out standards of conduct for Members of the Senate. The primary functions of the Senate Ethics Officer are: to provide confidential opinions and advice on any matter respecting Senators' obligations under the Code; to review confidential annual disclosure statements (listing sources of income, assets, liabilities, government contracts, financial and other interests), advise Senators on possible conflicts and compliance measures, and prepare public disclosure summaries; to conduct inquiries and investigations, if necessary, regarding compliance with the Code.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Privy Council Office****Strategic outcome 1**

The Government's agenda and decision making are supported and implemented and the institutions of government are supported and maintained.

**Program 1.1—Advice and Support to the Prime Minister and Portfolio Ministers**

Privy Council Office provides professional, non-partisan advice and support to the Prime Minister and portfolio ministers on the full spectrum of issues they address on a daily basis. Privy Council Office also provides advice and support on: the structure and organization of government; government-wide communications; Governor-in-Council appointments; the development and implementation of parliamentary and legislative programs; the reform of democratic institutions; intergovernmental relations; and legal issues. In addition, Privy Council Office provides administrative advice and support pertaining to the budgets of the Prime Minister's Office and those of the offices of portfolio ministers.

**Program 1.2—Advice and Support to Cabinet and Cabinet Committees**

Privy Council Office supports the efficient and effective functioning of Cabinet and Cabinet committees on a day-to-day basis. As part of this work, Privy Council Office coordinates departmental policy, legislative and government administration proposals going to Cabinet and its committees; performs a challenge function during the policy development process; and prepares briefing materials and accompanying policy analysis to facilitate Cabinet's decision-making process. Privy Council Office also provides a secretariat function for Cabinet and its committees, which includes scheduling and support services for meetings, as well as preparation and distribution of Cabinet documents. In addition, Privy Council Office supports effective policy integration across the federal government so that proposals take into account the full range of departmental and Public Service-wide perspectives and issues related to implementation, such as communications, parliamentary affairs, intergovernmental relations and budget impacts.

**Program 1.3—Public Service Leadership and Direction**

Privy Council Office supports the development and maintenance of a high-quality public service that meets the highest standards of accountability, transparency and efficiency. As part of this work, Privy Council Office provides advice to the Clerk of the Privy Council and the Prime Minister on the renewal of public service and government operations in order to position the Public Service workforce and workplace for the future as more adaptable, innovative and streamlined. Privy Council Office also supports the human resources management of senior leaders across the government, including performance management and leadership development.

**Program 1.4—Commissions of inquiry**

Privy Council Office provides commissions of inquiry with financial and administrative support. As part of this work, Privy Council Office can, when necessary, provide ongoing administrative advice and support in the following areas: staffing; acquisition services; contracting; financial services; access to funding; records management; payroll support; publishing information online; translation; legal services; security; and systems support.

## **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Intergovernmental Conference Secretariat**

### **Strategic outcome 1**

Senior-level intergovernmental conference services are professionally and successfully delivered.

#### **Program 1.1—Conference Services**

Provision of expert, impartial support services for the planning and conduct of First Ministers, Ministers and Deputy Ministers' level federal-provincial-territorial and provincial-territorial conferences.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Transportation Accident Investigation and Safety Board**

### **Strategic outcome 1**

Independent investigations into transportation occurrences contribute to making the transportation system safer.

#### **Program 1.1—Aviation Occurrence Investigations**

The Aviation Occurrence Investigations program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act*, the Transportation Safety Board Regulations, and Annex 13 of the Convention on International Civil Aviation. Under this program, the Transportation Safety Board conducts independent investigations into selected aviation transportation occurrences in, or over Canada, and in certain circumstances internationally, to identify causes and contributing factors. This program includes the publication of investigation reports, the formulation and monitoring of recommendations and other safety communications, as well as the conduct of outreach activities to advocate for changes to operating practices, equipment, infrastructure, and legislation to advance transportation safety. The Aviation Occurrence Investigations program also includes the fulfillment of specific Government of Canada obligations related to transportation safety under conventions of the International Civil Aviation Organization and other international agreements.

**Program 1.2—Rail Occurrence Investigations**

The Rail Occurrence Investigations program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act* and the Transportation Safety Board Regulations. Under this program, the Transportation Safety Board conducts independent investigations into selected rail transportation occurrences in Canada to identify causes and contributing factors. This program includes the publication of investigation reports, the formulation and monitoring of recommendations and other safety communications, as well as the conduct of outreach activities to advocate for changes to operating practices, equipment, infrastructure, and legislation to advance transportation safety. The Rail Occurrence Investigations program also includes the provision of assistance, upon request, to the provinces for the investigation of short-line railway occurrences under provincial jurisdiction.

**Program 1.3—Marine Occurrence Investigations**

The Marine Occurrence Investigations program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act*, the Transportation Safety Board Regulations, and the Casualty Investigation Code of the International Maritime Organization. Under this program, the Transportation Safety Board conducts independent investigations into selected marine transportation occurrences in Canada, and in certain circumstances internationally to identify causes and contributing factors. This program includes the publication of investigation reports, the formulation and monitoring of recommendations and other safety communications, as well as the conduct of outreach activities to advocate for changes to operating practices, equipment, infrastructure, and legislation to advance transportation safety. The Marine Occurrence Investigations program also includes the fulfillment of specific Government of Canada's obligations related to transportation safety under conventions of the International Maritime Organization and other international agreements.

**Program 1.4—Pipeline Occurrence Investigations**

The Pipeline Occurrence Investigations program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act* and the Transportation Safety Board Regulations. Under this program, the Transportation Safety Board conducts independent investigations into selected pipeline occurrences under federal jurisdiction within Canada to identify causes and contributing factors. This program includes the publication of investigation reports, the formulation and monitoring of recommendations and other safety communications, as well as the conduct of outreach activities to advocate for changes to operating practices, equipment, infrastructure, and legislation to advance transportation safety.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Office of the Chief Electoral Officer****Strategic outcome 1**

An Accessible Electoral Framework that Canadians Trust and Use.

**Program 1.1—Electoral Operations**

This program allows Elections Canada to deliver fair and efficient electoral events whenever they may be required so that Canadians are able to exercise their democratic right to vote during a federal general election, by-election or referendum by providing an accessible and constantly improved electoral process responsive to the needs of electors.

### **Program 1.2—Regulation of Electoral Activities**

This program provides Canadians with an electoral process that is fair, transparent and in compliance with the *Canada Elections Act*. Within this program, Elections Canada is responsible for administering the political financing provisions of the Act. This includes monitoring compliance, disclosure and reporting of financial activities, and enforcing electoral legislation.

### **Program 1.3—Electoral Engagement**

This program promotes and sustains the Canadian electoral process. It provides Canadians with electoral education and information activities so that they can make informed decisions about their engagement in the electoral process. It also aims to improve the electoral framework by consulting and sharing electoral practices with other stakeholders.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Office of the Commissioner of Official Languages**

### **Strategic outcome 1**

Rights guaranteed by the *Official Languages Act* are protected and linguistic duality is promoted as a fundamental value of Canadian society.

### **Program 1.1—Promotion of Linguistic Duality**

Through this program, the Office of the Commissioner of Official Languages works with Parliamentarians, federal institutions and other organizations subject to the *Official Languages Act*, official language communities and the Canadian public in promoting linguistic duality. Office of the Commissioner of Official Languages builds links between federal institutions, official language communities and the different levels of government to help them better understand the needs of official language communities, the importance of bilingualism and the value of respecting Canada's linguistic duality. To fulfill its role in that promotion, Office of the Commissioner of Official Languages conducts research, studies and public awareness activities as well as intervenes with senior federal officials so that they instill a change in culture to fully integrate linguistic duality in their organizations.

### **Program 1.2—Protection of Language Rights**

Through this program, the Office of the Commissioner of Official Languages investigates complaints filed by citizens who believe their language rights have not been respected, evaluates compliance with the *Official Languages Act* by federal institutions and other organizations subject to the Act through performance measurements and audits, and intervenes proactively to prevent non-compliance with the Act. As well, the Commissioner may intervene before the courts in cases that deal with non-compliance with the *Official Languages Act*.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Security Intelligence Review Committee**

**Strategic outcome 1**

Canadian Security Intelligence Service performs its duties and functions in accordance with the law, policy and Ministerial direction.

**Program 1.1**—Reviews

Security Intelligence Review Committee conducts reviews of Canadian Security Intelligence Service activities to evaluate their effectiveness, appropriateness and compliance. The Committee develops an annual research plan identifying reviews to be conducted each year, examines Canadian Security Intelligence Service operations, provides a retrospective examination and assessment of specific Canadian Security Intelligence Service investigations and functions, examines information concerning Canadian Security Intelligence Service's activities, assesses Canadian Security Intelligence Service compliance, and issues findings and recommendations. The objective is to provide Parliament, the Minister of Public Safety and Canadians with a comprehensive picture of Canadian Security Intelligence Service's operational activities, and assurance that Canadian Security Intelligence Service is acting in accordance with the rule of law.

**Program 1.2**—Investigations

The Committee conducts investigations into complaints made against Canadian Security Intelligence Service, denials of security clearances, Minister's reports in regards to the *Citizenship Act* and matters referred pursuant to the *Canadian Human Rights Act*. If jurisdiction is established, investigations include a quasi-judicial hearing presided over by one or more Committee members. The time required to complete an investigation will vary in length depending on the complexity of the file, the quantity of documents to be examined, the number of hearing days required, the availability of the participants and the various procedural matters raised by the parties. On completion of an investigation, Security Intelligence Review Committee issues a final report containing its findings and recommendations, if applicable.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Public Safety and Emergency Preparedness****Strategic outcome 1**

A safe and resilient Canada.

**Program 1.1—Emergency Management**

Public Safety Canada works to protect Canada and Canadians by exercising national leadership in emergency management and setting a clear direction for emergency management for the Government of Canada, pursuant to the *Emergency Management Act of 2007*. Using a risk-based approach, and working closely with federal institutions, provinces, territories, the emergency responder community, the private sector, non-government organizations and international counterparts to address all hazards (natural, technological and human-induced), this Program contributes to a safe and resilient Canada through policy and program development, stakeholder outreach, and coordination across the four functions of emergency management - prevention/mitigation, preparedness, response and recovery. The Program conducts and coordinates research, risk assessment, long term policy development and planning to strengthen its coherence and its contribution to national Emergency Management leadership; administers exercises and training; coordinates and monitors the federal government's capacity to manage and respond to whole-of-government emergencies; provides support to provinces and territories to enhance their capacities; and promotes improved standardization and a culture of continual improvement through the collection, analysis and utilization of lessons learned and best practices. The Program also promotes public awareness of emergency management directly through outreach and various emergency management fora.

**Program 1.2—Countering Crime**

Crime is a significant preoccupation among Canadians and they recognize the importance of the federal government's role in responding to crime issues across the country. The Countering Crime Program provides federal policy leadership, coordination, research and program support on a continuum of activities related to the prevention of crime, the enforcement of law and the rehabilitation of those who have committed criminal offences. The intent of this program is to reduce the likelihood of criminality by working in close collaboration with federal partners, and those in the provinces, territories and communities to design and deliver national programs that are specific and appropriate to regions and communities.

**Program 1.3—National Security**

The National Security Program aims to ensure that Canada is prepared for and can respond to a range of national security threats. The National Security Program plays a coordinating role in the prevention, detection, denial and response efforts of the Public Safety Portfolio and broader government departments and agencies on matters relevant to national security. In order to achieve this objective, the program works with operational and policy partners to provide the Government with strategic advice on rapidly evolving and often sensitive issues. The National Security Program also assists the Minister and Deputy Minister in fulfilling key statutory obligations, and seeks to identify and close gaps in Canada's ability to deal with national security threats. It coordinates, analyses and develops policies, and implements processes related to issues such as critical infrastructure, cyber security, the proliferation of weapons of mass destruction and counter terrorism. Because of their complexity, importance, and potential

impact on individual rights, national security legislation, programs, and policies must be well founded, well governed, and well executed. This program plays a central role in supporting decision makers in achieving this goal on behalf of Canadians.

#### **Program 1.4—Border Strategies**

The Border Strategies Program provides federal policy leadership, coordination and coherence on a variety of border issues, such as customs, immigration, refugees and citizenship, and cross-border law enforcement, in order to ensure that security objectives are achieved in a manner that facilitates the flow of legitimate trade and travel, and reduces security and fraud related risks. The intent of this program is to promote the safety and economic well-being of Canadians through supporting secure and efficient management of Canada's borders. This program also advances critical infrastructure objectives through effective coordination among federal departments and agencies, as well as partnerships with industry sectors. In order to achieve this result, the program develops and supports a focused border management agenda and leads ongoing dialogue between Canada and the United States on strategic and operational border policy issues, including the implementation of the Beyond the Border Action plan. The program implements cross-border arrangements relating to the movement of goods and people during emergencies, and provides policy advice, leadership and horizontal coordination to Public Safety Portfolio agencies and other federal departments regarding border issues. This program plays a central role in supporting the Government in making fully informed decisions concerning border policy, border management and cross-border law enforcement for the benefit of Canadians.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Canada Border Service Agency**

#### **Strategic outcome 1**

International trade and travel is facilitated across Canada's border and Canada's population is protected from border-related risks.

#### **Program 1.1—Admissibility Determination**

Through the Admissibility Determination program, the Canada Border Service Agency develops, maintains and administers the policies, regulations, procedures and partnerships that enable border services officers to intercept people and goods that are inadmissible to Canada and to process legitimate people and goods seeking entry into Canada within established service standards. In addition, the Agency develops, maintains and administers the policies, regulations, procedures and partnerships to control the export of goods from Canada. In the traveller stream, border services officers question people upon arrival to determine if they and their personal goods meet the requirements of applicable legislation and regulations to enter Canada. Border services officers will then make a decision to grant entry or refer a person for further processing (e.g., payment of duties and taxes, issuance of a document), and/or for a physical examination. In the commercial stream, carriers and importers are required to provide information to the Canada Border Service Agency at or prior to arrival in Canada. Border services officers review the status of pre-arrival decisions and/or the provided accompanying documentation to determine whether the goods meet the requirements of applicable legislation and regulations to enter Canada. Based on this determination, a border services officer may refer the goods for further processing, examination and/or scientific/engineering analysis. Upon further examination goods may be seized or penalties imposed. With some exceptions, all goods being exported from Canada must be reported "in writing" to the Canada Border Service Agency.

**Program 1.2—Risk Assessment Program**

The Risk Assessment program “pushes the border out” by seeking to identify high-risk people, goods and conveyances as early as possible in the travel and trade continuum to prevent inadmissible people and goods from entering Canada. This benefits the travelling public and the trade community by enabling the Agency to focus its examination and interdiction activities on high-risk people and goods, thereby facilitating the entry of low-risk travellers and goods. The Agency uses a variety of threat and risk assessment methodologies, intelligence and supporting technologies to identify potential risks to the security and safety of people and goods.

**Program 1.3—Immigration Enforcement**

The Immigration Enforcement Program determines whether foreign nationals and permanent residents who are or may be inadmissible to Canada are identified and investigated, detained, monitored and/or removed from Canada. Foreign nationals and permanent residents of Canada believed to be inadmissible are investigated and may have a report written against them by a Canada Border Service Agency inland enforcement officer. Depending on the type of inadmissibility, the merits of the report are reviewed by either a Minister’s Delegate or an independent decision maker at the Immigration and Refugee Board of Canada where a Canada Border Service Agency hearings officer represents the Minister of Public Safety and Emergency Preparedness. Subsequent to this review, a removal order may be issued against the foreign national or permanent resident in question. Removal orders issued against refugee claimants are conditional and do not come into force until the claim against the removal order is abandoned, withdrawn or denied by the Immigration and Refugee Board.

**Program 1.4—Revenue and Trade Management**

The Revenue and Trade Management Program administers international and regional trade agreements and domestic legislation and regulations governing trade in commercial goods. The Program ensures that appropriate trade data is collected and that the duties and taxes owed to the Government of Canada are remitted in accordance with Canadian trade laws and import requirements. Commercial importers must accurately report on their goods at the time of importation, and remit the required payment, or self-correct their entries, and pay any additional amounts owing, when they have reason to believe that trade-related reporting errors have occurred.

**Program 1.5—Secure and Trusted Partnerships**

Through the Secure and Trusted Partnerships Program, the Canada Border Service Agency works closely with clients, other government departments and international border management partners to enhance trade chain and traveller security while providing pre-approved, low-risk travellers and traders with streamlined and efficient border processes. The Canada Border Service Agency develops and administers programs and cooperative agreements with its partners to ensure alignment with international standards (e.g., World Customs Organization SAFE Framework of Standards) and promote best practices in global border management. By increasing membership in trusted traveller and trader programs, the Canada Border Service Agency is able to improve its capacity to mitigate risk in advance and focus examination efforts on identifying travellers and traders of unknown or higher risk.

**Program 1.6—Criminal Investigations**

Under the Criminal Investigations program, the Canada Border Service Agency protects the integrity of border-related legislation and contributes to public safety and Canada’s economic security by investigating and pursuing the prosecution of travellers, importers, exporters and/or other persons who commit criminal offences in contravention of Canada’s border-related legislation. Canada Border Service Agency investigators review potential border legislation violations and gather evidence using a variety of investigative techniques, including search warrants, production orders and digital forensic analysis. These violations include criminal offences under the *Customs Act*, *Immigration and Refugee Protection Act*, various food, plant and animal legislation, and other border-related legislation. In conjunction with the Public Prosecution Service of Canada, the Canada Border Service Agency pursues the prosecution of individuals or business entities who violate Canada’s border-related legislation.

### **Program 1.7—Recourse**

The Recourse Program provides the business community and individuals with an accessible mechanism to seek an impartial review of service-related complaints, program decisions and enforcement actions taken by the Canada Border Service Agency. This program ensures that their decisions are fair, transparent and accurately reflect the Agency's policies and the Acts administered by the Canada Border Service Agency. Individuals can complete a written submission if they disagree with an enforcement action or a program decision made by the Canada Border Service Agency or wish to submit a complaint or compliment about services. Clients are provided with a timely acknowledgement of their correspondence, before Canada Border Service Agency officials conduct a thorough review, taking into consideration the legislation administered by the Agency, Canada Border Service Agency policies, the client's point of view and, where necessary, technical opinions from Canada Border Service Agency experts or legal advice from the Department of Justice. Individuals who are not satisfied with the Canada Border Service Agency's review can appeal to the appropriate court, tribunal or external review body. The Recourse Program also facilitates the review of external complaints of discrimination filed with the Canadian Human Rights Commission and assists the Department of Justice representing the Agency on appeals to the Federal Court, various tribunals and other external bodies.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Canadian Security Intelligence Service**

### **Strategic outcome 1**

Intelligence is used to protect the security and safety of Canada and its citizens.

### **Program 1.1—Intelligence Program**

This program includes the collection, processing and analysis of information and intelligence, respecting activities that may be suspected of constituting threats to the security of Canada and safety of Canadians and, in relation thereto, reporting and advising the Government of Canada. In accordance with *Canadian Security Intelligence Service Act*, s.16, in supporting the missions of National Defence and Foreign Affairs, this intelligence program also provides assistance to the Minister of National Defence and the Minister of Foreign Affairs, within Canada, in the collection of information or intelligence.

### **Program 1.2—Security Screening Program**

The Security Screening program is one of the main responsibilities of Canadian Security Intelligence Service and among its most visible functions. The goals of the Security Screening program are to prevent non-Canadians who pose security concerns or risks from entering or receiving permanent residence in Canada and to prevent anyone of concern from gaining access to sensitive government assets, locations or information. Through its foreign offices in Canadian missions abroad, Canadian Security Intelligence Service performs in-depth examinations of applicants and prospective immigrants whose backgrounds present security concerns. Canadian Security Intelligence Service also provides security assessments on behalf of all federal government departments and agencies (except the Royal Canadian Mounted Police) as part of the Government Security Policy. Security Assessments fall into the following program activities: Government Screening, Sensitive Sites Screening, Foreign Screening, Immigration and Citizenship Screening, and Refugee Screening.

## **Civilian Review and Complaints Commission for the Royal Canadian Mounted Police**

### **Strategic outcome 1**

Public Confidence in the Royal Canadian Mounted Police.

#### **Program 1.1**—Civilian review of Royal Canadian Mounted Police members' Conduct in the Performance of Their Duties

The Civilian Review and Complaints Commission for the Royal Canadian Mounted Police is an independent agency created by Parliament to provide fair and independent civilian review of Royal Canadian Mounted Police members' conduct in the performance of their duties. The Civilian Review and Complaints Commission accomplishes this by receiving complaints from the public about the conduct of Royal Canadian Mounted Police members and monitoring the Royal Canadian Mounted Police's investigation of such complaints. Where a complainant is not satisfied with the outcome of the Royal Canadian Mounted Police's response to a complaint, a request can be made to the Civilian Review and Complaints Commission for an independent review of the members' conduct and the Royal Canadian Mounted Police's handling of the matter. In reviewing complaints, the Civilian Review and Complaints Commission may find that it is satisfied with the Royal Canadian Mounted Police handling of the complaint or it may make findings and recommendations to the Royal Canadian Mounted Police Commissioner and the Minister of Public Safety with respect to matters addressed in the complaint. The Civilian Review and Complaints Commission also conducts reviews of specified Royal Canadian Mounted Police activities, reports to provinces which contract Royal Canadian Mounted Police services, conducts research, program outreach and public education, and provides independent observers to investigations of serious incidents involving Royal Canadian Mounted Police members.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1**—Internal Services

See introductory text.

## **Correctional Service of Canada**

### **Strategic outcome 1**

The custody, correctional interventions, and supervision of offenders in communities and in institutions, contribute to public safety.

#### **Program 1.1**—Custody

The Custody Program contributes to public safety by providing for the day-to-day needs of offenders, including health and safety, food, clothing, accommodation, mental health services, and physical health care. It also includes security measures within institutions such as drug interdiction, and appropriate control practices to prevent incidents.

#### **Program 1.2**—Correctional Interventions

The Correctional Interventions Program contributes to public safety through assessment activities and program interventions for federal offenders that are designed to assist their rehabilitation and facilitate their successful reintegration into the community as law-abiding citizens. The program engages Canadian citizens as partners in Correctional Service of Canada's correctional mandate, and provides outreach to victims of crime.

### **Program 1.3—Community Supervision**

The Community Supervision Program contributes to public safety through the administration of community operations, including the provision of accommodation options, establishment of community partnerships and provision of community health services as necessary. Community supervision provides the structure to assist offenders to safely and successfully reintegrate into society.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Office of the Correctional Investigator of Canada**

#### **Strategic outcome 1**

The problems of offenders in the federal correctional system are identified and addressed in a timely and reasonable fashion.

#### **Program 1.1—Ombudsman for Federal Offenders**

Through this program, the Office of the Correctional Investigator conducts investigations of individual offender complaints regarding acts, omissions, decisions and recommendations of the Correctional Service of Canada. It also has a responsibility to review and make recommendations on Correctional Service of Canada's policies and procedures associated with the areas of individual complaints, to ensure that systemic areas of complaint are identified and appropriately addressed, and to review all Section 19 investigations performed by Correctional Service of Canada following the death of or serious injury to an inmate.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Parole Board of Canada**

#### **Strategic outcome 1**

Conditional release and record suspension decisions and decision processes that safeguard Canadian communities.

#### **Program 1.1—Conditional Release Decisions**

Conditional release is based on the principle that community safety is enhanced by the gradual release of offenders to the community when appropriate. Quality decisions based on the risk of re-offending, in conjunction with effective programs and treatment, and effective community supervision all contribute to the process. Through this

program, Parole Board of Canada staff provides timely, accurate information for Board member decision making, and develops training and policies that are essential tools for risk assessment and decision making.

**Program 1.2—Conditional Release Openness and Accountability**

This program ensures that Parole Board of Canada operates in an open and accountable manner, consistent with the provisions of the *Corrections and Conditional Release Act*. This program works with victims of crime and the general public by providing information, including access to the Board's registry of decisions, as well as providing assistance for observers at hearings. The program also works to encourage citizen engagement, investigates tragic incidents in the community, monitors the Board's performance and reports on conditional release processes.

**Program 1.3—Record Suspension Decisions/Clemency Recommendations**

A record suspension is designed to support the successful reintegration of an individual into society where appropriate. It is a formal attempt to remove the stigma of a criminal record for people found guilty of a federal offence and who, after satisfying their sentence and specified waiting period, have shown themselves to be responsible law abiding citizens. Through this program the Parole Board of Canada screens applications for completeness and eligibility of each applicant, collects information for decision making and develops policy to guide decision processes. This program is also responsible for assessing requests and providing recommendations under the Royal Prerogative of Mercy (i.e. clemency) and providing advice to the Board on the merits of each case.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Royal Canadian Mounted Police**

**Strategic outcome 1**

Criminal activity affecting Canadians is reduced.

**Program 1.1—Police Operations**

Under the authority of the *Royal Canadian Mounted Police Act*, this Program provides Canadians with policing services at the federal, provincial and municipal levels and within Aboriginal communities. As described in the *Royal Canadian Mounted Police Act*, these services include all duties that are assigned to peace officers in relation to: the preservation of the peace, the prevention of crime and of offences against the laws of Canada and the laws in force in any province in which they may be employed, and the apprehension of criminals and offenders and others who may be lawfully taken into custody; the execution of all warrants, and performing all duties and services in relation thereto, that may, under the *Royal Canadian Mounted Police Act* or the laws of Canada or the laws in force in any province, be lawfully executed and performed by peace officers; and, performing other duties and functions as are prescribed by the Governor in Council or the Commissioner. This Program contributes to a safe and secure Canada by providing general law enforcement activities, as well as education and awareness activities delivered by employees of the Royal Canadian Mounted Police to the public, businesses and other agencies/organizations within Canada. The Royal Canadian Mounted Police's education and awareness activities, such as information sessions on crime prevention, national security, financial crime, and drugs and organized crime, are aimed at reducing victimization of Canadians. This Program also ensures the protection of designated persons and security at major events, which in turn mitigates any potential threats to Canada's population. Finally, the Program delivers a high

level of technical and operational support to the Canadian law enforcement community. Taken together, these activities ensure the Royal Canadian Mounted Police reaches its overarching goal of reducing criminal activity affecting Canadians.

#### **Program 1.2—Canadian Law Enforcement Services**

This Program provides the Canadian law enforcement community with the necessary scientific, technical, investigative and educational support to deliver proactive, intelligence-based policing and law enforcement services to their respective communities and partners. Additionally, this Program provides educational opportunities to members of the Canadian law enforcement community to enable them to develop their skills, thus increasing their effectiveness in contributing to a safer Canada.

#### **Strategic outcome 2**

Incomes are secure for Royal Canadian Mounted Police members and their survivors affected by disability or death.

#### **Program 2.1—Transfer Payments**

This Program ensures that Royal Canadian Mounted Police employees and their families are provided income security at their pension or in the event of disability or death, and that an appropriate level of support is afforded to those who are affected by circumstances beyond their control and as a result of their employment with the Royal Canadian Mounted Police. The activities within this Program are regulated by either the terms and conditions of the grant or are statutory payments, for example, the *Royal Canadian Mounted Police Pension Continuation Act* payments.

#### **Strategic outcome 3**

Canada's police provide international collaboration and assistance while maintaining a rich police heritage nationally.

#### **Program 3.1—International Policing Operations**

Under authority of the *Royal Canadian Mounted Police Act*, this Program furthers Canada's global peace and security agenda by cooperating with and supporting the international law enforcement community, thereby ensuring that both Canadians and the global community are safer. This Program addresses the transnational scope of crime by building relationships with international policing partners and by participating in the INTERPOL global information sharing network. Additionally, the Royal Canadian Mounted Police actively participates in multiple missions abroad in a peacekeeping role and provides support to nations at risk to build their law enforcement capacity.

#### **Program 3.2—Canadian Police Culture and Heritage**

In order to protect the Royal Canadian Mounted Police's internationally recognized image, reputation and rich heritage, this Program works to promote the positive image of the Royal Canadian Mounted Police while building relationships with domestic and international law enforcement, government and community partners. The Program provides advice and analysis to internal and external clients, including federal, provincial and municipal partners, academic institutions, Royal Household representatives, and non-government organizations, regarding appropriate ceremonial features of special events and occurrences (e.g., Olympics, expos, summits, police officer funerals). Through the activities of this Program, the Royal Canadian Mounted Police contributes to Canada's vibrant culture and heritage.

#### **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

#### **Program 4.1—Internal Services**

See introductory text.

## Royal Canadian Mounted Police External Review Committee

### Strategic outcome 1

Fair and transparent labour relations decision-making that reinforces accountability.

#### Program 1.1—Appeal case reviews

The Royal Canadian Mounted Police External Review Committee is an independent administrative tribunal that contributes to fair and equitable labour relations and helps to reinforce accountability at all levels within the Royal Canadian Mounted Police. Other than the courts, the External Review Committee is the only independent review mechanism available to Royal Canadian Mounted Police members and management for labour relations matters. The External Review Committee conducts impartial reviews of appeals of certain conduct measures imposed on Royal Canadian Mounted Police members and of written decisions regarding harassment complaints, revocations of appointments, discharges, demotions and ordered stoppages of pay and allowances. Case files dealing with these matters are referred to the External Review Committee for review by the Royal Canadian Mounted Police pursuant to sections 33 and 45.15 of the *Royal Canadian Mounted Police Act* and section 17 of the Royal Canadian Mounted Police Regulations. In conducting its reviews of referred case files, the External Review Committee considers the entire file record that is provided by the Royal Canadian Mounted Police which can include statements from members (complainants, respondents and others), video or audio records and testimony from witnesses, historical human resources file materials and other documentation. Once a review has been completed, the External Review Committee provides findings and recommendations to the Commissioner of the Royal Canadian Mounted Police (as the final decision maker) and to the parties. The External Review Committee's findings and recommendations are directed at ensuring that the general principles of administrative law and labour law are respected and that the requirements of the *Royal Canadian Mounted Police Act* and other relevant legislation, such as the *Canadian Human Rights Act*, are adhered to in decision making. In some cases, the External Review Committee makes recommendations for broader change or for actions that might be taken to address issues raised in a file (e.g., changes in Royal Canadian Mounted Police policies or management practices, or additional or new training for Royal Canadian Mounted Police members or managers). Access to summaries of External Review Committee findings and recommendations and to External Review Committee reports and discussion papers is provided to Royal Canadian Mounted Police members and the public through the External Review Committee's website and publications, and through presentations or other outreach to Royal Canadian Mounted Police members.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Material services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Public Works and Government Services****Strategic outcome 1**

High quality, central programs and services that ensure sound stewardship on behalf of Canadians and meet the program needs of federal institutions.

**Program 1.1—Accommodation Management and Real Property Services**

Public Works and Government Services provides federal departments and agencies with affordable office and common use accommodation that supports the delivery of their programs and services. The department acts as steward for various public works such as buildings, bridges and dams, and national treasures such as the Parliamentary Precinct and other heritage assets across Canada. Public Works and Government Services also provides other federal departments, agencies, and the Parliament of Canada with responsive and cost-effective real property services.

**Program 1.2—Acquisitions**

This program provides federal organizations with procurement solutions such as specialized contracts, standing offers, supply arrangements, and memoranda of understanding for acquiring a broad range of goods and services, including construction services. This program delivers acquisitions and related common services using the Smart Procurement principles (early engagement, effective governance, independent advice, and benefits for Canadians) through an open, fair and transparent process to ensure best value to Canadians and the federal government.

**Program 1.3—Receiver General for Canada**

This program manages the operations of the federal treasury, produces the Public Accounts and maintains the Accounts of Canada. It provides federal departments with an optional departmental financial and materiel management system offering and bill payment services.

**Program 1.4—Federal Pay and Pension Administration**

This program provides reliable central systems and processes for pay and pension administration to federal organizations. Through our pay and pension services, Public Works and Government Services ensures that federal government employees and pensioners are paid accurately and on time.

**Program 1.5—Linguistic Management and Services**

This program defines the Translation Bureau of Public Works and Government Services as a key component of the federal government's service delivery infrastructure. The Bureau is the sole internal linguistic services provider and offers translation, revision, interpretation and other linguistic services for Parliament, the judiciary, and federal departments and agencies. It is also the terminology authority within the federal government and has been mandated to develop terminology standards to ensure clear, uniform and quality communications within government. The program is mandated under the *Translation Bureau Act*.

**Program 1.6—Specialized Programs and Services**

This program provides federal organizations with high quality, timely and accessible specialized services and programs.

**Program 1.7—Integrity Programs and Services**

This program provides the government of Canada with high quality, timely and accessible specialized services and programs in support of sound, prudent and ethical management and operations.

**Program 1.8—Procurement Ombudsman**

This program, operating at arms-length from the government, reviews procurement practices of federal departments and agencies, investigates complaints from suppliers regarding the award or administration of federal contracts and ensures the provision of an alternative dispute resolution process for existing contracts. This program helps promote fairness, openness and transparency in the federal procurement process.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Canada Post Corporation**

**Strategic outcome 1**

Compensation for the provision of Parliamentary mail and Materials for the use of the blind services, which are sent free of postage under the *Canada Post Corporation Act*.

**Program 1.1—Concessionary Governmental Services**

Payment associated with services provided at rates free of postage by the Corporation in support of government policy programs: Government Free Mail and Materials for the use of the Blind.

**Public Service Commission**

**Strategic Outcome 1**

A highly competent, non-partisan and representative public service, able to provide service in both official languages, in which appointments are based on merit and the values of fairness, access, representativeness and transparency.

**Program 1.1**—Staffing Services and Assessment

The Staffing Services and Assessment program maintains the systems that link Canadians and public servants seeking employment opportunities in the federal public service with hiring departments and agencies. It provides assessment-related products and services in the form of research and development, consultation, assessment operations and counselling for use in recruitment, selection and development throughout the federal public service. This program also includes delivering staffing services, programs and products to departments and agencies, to Canadians and public servants, through client service units located across Canada.

**Program 1.2**—Oversight of Integrity in Staffing and of Non-Partisanship

The Oversight of Integrity in Staffing and of Non-Partisanship program provides an accountability regime for the implementation of the appointment policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring staffing is free from political influence. This program includes monitoring departments' and agencies' staffing performance and compliance with legislative requirements; conducting audits and studies; carrying out investigations; and reporting to Parliament on the integrity of public service staffing and the non-partisanship of the public service.

**Program 1.3**—Staffing System Integrity and Political Impartiality

The Staffing System Integrity and Political Impartiality program is focused on independently safeguarding merit and non-partisanship in the federal public service. This program includes developing and advancing strategic policy positions and directions; conducting policy research; establishing Public Service Commission policies and standards; providing advice, interpretation and guidance; and administering delegated and non-delegated authorities, including official languages, the political activities regime and priority administration.

**Strategic Outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1**—Internal Services

See introductory text.

**Shared Services Canada**

**Strategic outcome 1**

Modern, reliable, secure and cost-effective information technology infrastructure services to support government priorities and program delivery.

**Program 1.1**—Information Technology Infrastructure Services

This program delivers Information Technology Infrastructure Services to federal government departments to enable and support the management, co-ordination and delivery of government programs to Canadians and the achievement of Government of Canada priorities. The Information Technology Infrastructure Services consist of four main Information Technology service groups: (a) Distributed Computing, (b) Production and Operations Computing (Data Centres), (c) Telecommunications (Data, Voice and Video), and (d) Cyber and Information Technology Security. This program establishes a centralized common Information Technology infrastructure service leading to consolidation and standardization in the management and delivery of Information Technology services across the mandated partner and client organizations. This consolidation and standardization of services contributes to greater operational efficiencies and economies of scale, resulting in better value to Canadian taxpayers, enhanced reliability and security of the Information Technology services, a reduction in the duplication of effort and managerial oversight, and the development of a harmonized response to partner and client organizations' business requirements.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Program—Internal Services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Transport****Strategic outcome 1**

An Efficient Transportation System.

**Program 1.1—Transportation Infrastructure**

The Transportation Infrastructure Program oversees, funds and manages multimodal transportation infrastructure under Transport Canada's mandate to improve efficiency and service delivery for the benefit of Canadian taxpayers. The Program acts as the steward of certain commercial transportation assets operated by third parties on behalf of the federal government (airport authorities, port authorities, bridges under federal authority, VIA Rail, St. Lawrence Seaway Management Corporation, Marine Atlantic); provides funding for Canada's strategic transportation infrastructure to support federal objectives; and develops transportation infrastructure policy through consultation with stakeholders. It also manages Transport Canada ports and airports, supports essential services in remote communities, manages legacy commitments, and divests assets where possible.

**Program 1.2—Gateways and Corridors**

Canada is a trading nation, and the efficiency and reliability of the transportation system to support this trade impacts directly on the nation's prosperity and well-being. For this reason, it is imperative that the federal government play a role in the development of an integrated transportation network linking importers and exporters to markets and suppliers in the increasingly complex global supply chains. Guided by the National Policy Framework for Strategic Gateways and Corridors, the Gateways and Corridors Program supports Canada's international commerce by creating a more efficient, reliable and seamless trade-related transport system in Canada. The Program: develops initiatives to improve and integrate transportation networks in key regions; fosters partnerships between all levels of government and the private sector; supports and oversees projects that contribute to the increased capacity and efficiency of gateway and corridor infrastructure; develops and puts in place measures that remove impediments to the effective development of gateways and corridors; and markets the use of gateways and corridors within Canada and internationally.

**Program 1.3—Transportation Marketplace Frameworks**

The Transportation Marketplace Frameworks Program encourages transportation efficiency by fostering a competitive and viable transportation sector. The Program: sets regimes governing the economic behaviour of carriers in all modes of transportation; sets the rules of governance for all the transportation infrastructure providers falling under federal authority; monitors, analyzes, researches, and reports on the transportation system; promotes innovation in transportation; enables access to transportation for Canadians; represents the interests of Canada in trade negotiations, international transportation fora and other international bodies; promotes access to markets in the context of international trade; fosters greater cooperation to support economic activity; and fulfills certain federal responsibilities with regard to the *International Bridges and Tunnels Act*.

**Strategic outcome 2**

A Safe and Secure Transportation System.

**Program 2.1—Aviation Safety**

The Aviation Safety Program, under the authority of the Aeronautics Act, develops, administers and oversees the policies, regulations and standards necessary for the safe conduct of civil aviation within Canada's borders, including establishment of safety standards for the design and manufacture of aeronautical products in a manner harmonized with international standards. The Program: fosters the safety of the aviation system; provides oversight of the aviation sector; and enforces international conventions signed by Canada. It also provides aviation services and related training to support Transport Canada and other government department operations.

**Program 2.2—Marine Safety**

The Marine Safety Program, under the authority of the Canada Shipping Act 2001, the Navigation Protection Act, the Safe Containers Convention Act, the Pilotage Act, the Coasting Trade Act and the Arctic Waters Pollution Prevention Act, develops implements and administers policies, regulations, and standards necessary for the safe conduct of marine activities in a manner harmonized with international standards. The Program: fosters the safety of the marine transportation system; provides oversight of the marine industry, including domestic and foreign vessels (both non-pleasure craft and pleasure craft); enforces international conventions signed by Canada; protects the public right to navigate on Canadian waterways; regulates lights or markers required for safe navigation during and/or on completion of certain works; regulates the placement of private buoys as per the Private Buoy Regulations of the Canada Shipping Act 2001; and acts as the Receiver of Wreck as per the Canada Shipping Act 2001, Part 7.

**Program 2.3—Rail Safety**

The Rail Safety Program, under the authority of the Railway Safety Act, develops, administers and oversees the policies, regulatory instruments necessary for the safety of railway operations in a manner consistent with North American and International safety standards/levels. The Program fosters safety within the rail transportation system and provides oversight of the rail industry. It also promotes public safety at crossings, identifies the risks of trespassing, and provides funds to improve safety at grade crossings.

**Program 2.4—Aviation Security**

The Aviation Security Program develops, administers and oversees the policies, regulations and standards to support the secure conduct of aviation activities in a manner harmonized with international standards. The Program is risk-based and fosters security within the aviation transportation system and provides security oversight of the aviation industry while ensuring that Canada complies with international standards.

**Program 2.5—Motor Vehicle Safety**

The Motor Vehicle Safety Program, under the authority of the Motor Vehicle Safety Act and the Motor Vehicle Transport Act, develops, administers and oversees the policies, regulations and standards necessary for the safety of motor vehicles and commercial vehicle operations in a manner that is harmonized with international and national standards. The Program contributes to reduced road deaths and injuries and provides safety oversight of the motor vehicle industry.

**Program 2.6—Transportation of Dangerous Goods**

The Transportation of Dangerous Goods Program, under the authority of the Transportation of Dangerous Goods Act, 1992, develops, administers and oversees the policies, regulations and standards necessary for the safe transportation of dangerous goods by all modes of transport in Canada in a manner harmonized with the international standards, and provides expertise in emergency response in the event of release of dangerous goods. This Program also works to prepare for and coordinate the response to safety and security threats and incidents that may impact the national transportation system or the Department with regard to chemical, radiological, biological, nuclear or explosive substances. The Program: fosters safety in the transport of dangerous goods; provides oversight of the transportation industry; enforces international conventions signed by Canada; and responds to emergency situations that affect the safety of Canadians.

**Program 2.7—Marine Security**

The Marine Security Program, under the authority of the *Marine Transportation Security Act*, develops, administers and oversees the policies, regulations and standards necessary for the secure conduct of marine activities in a manner consistent with international standards. The Program promotes security within the marine transportation system, provides oversight of the regulated marine transportation industry and enforces international conventions signed by Canada. The Program coordinates marine security policy and regulatory development across the Government of Canada through its leadership of the interdepartmental Marine Security Working Group and associated activities. The Marine Security initiative will no longer be reported as a horizontal initiative. This initiative has been reported as a horizontal initiative since its launch in 2001. This initiative will continue to be reported as part of the Analysis of Programs by Strategic Outcome in Section II of the Reports on Plans and Priorities and Departmental Performance Reports of each federal organization involved. Past horizontal reports on this initiative can be found at the Treasury Board Secretariat's Horizontal Initiatives Database.

**Program 2.8—Multimodal Safety and Security**

The Multimodal Safety and Security Program contributes to policies and standards that enhance safety and/or security in more than one transportation mode (e.g., through departmental enforcement services, integrated management systems and intelligence assessments). It also provides a technical training regime for inspectors and technical experts, ensuring the required competencies are acquired and maintained to meet or surpass nationally consistent standards. Lastly, this Program works to prepare for and coordinate the response to emerging safety and security threats and situations that may impact the national transportation system or the department.

**Program 2.9—Surface and Intermodal Security**

The Surface and Intermodal Security Program, guided by the Railway Safety Act, the International Bridges and Tunnels Act, and the Transportation of Dangerous Goods Act, develops, administers and oversees the policies, regulations/voluntary frameworks, standards and guidance material necessary for the secure conduct of surface and intermodal activities. The Program fosters the security of the surface and intermodal transportation system across Canada.

**Strategic outcome 3**

A Clean Transportation System.

**Program 3.1—Clean Water from Transportation**

The Clean Water from Transportation Program protects the marine environment by reducing the pollution of water from transportation sources. This Program regulates and monitors the release and impact of discharges from marine vessels into the marine environment, regulates ballast water, and contributes to setting domestic and international rules that govern limits to liability of marine pollution incidents. This Program advances the federal government's clean water agenda in the transportation sector and complements other federal programs designed to protect the marine environment for the health of Canadians and the environment for generations to come. This Program also represents Canada in discussions to set international standards to prevent pollution from vessels operating in Canada's waters and address the threat of aquatic invasive species.

**Program 3.2—Environmental Stewardship of Transportation**

The Environmental Stewardship Program fulfills Transport Canada's responsibilities in working towards an environmentally responsible and resilient national transportation system for Canadians by ensuring compliance with the department's environmental obligations in relation to Acts, Regulations, policies and guidelines, and meeting the department's obligations towards Aboriginal peoples. The Program: fulfills Transport Canada's responsibilities to implement a Departmental Sustainable Development Strategy under the *Federal Sustainable Development Act*; ensures that Transport Canada's lands and facilities are managed in an environmentally responsible manner in compliance with federal legislation and policies; provides functional support for environmental assessments, including for major resource projects; manages contaminated sites; advises on Aboriginal consultation, engagement and treaty negotiations and implementation; and seeks to increase the national transportation system's resilience to the current and anticipated future climate and extreme weather events.

### **Program 3.3—Clean Air from Transportation**

Transport Canada's Clean Air from Transportation Program advances the federal government's environmental agenda in the transportation sector and complements other federal programs designed to reduce air pollutant and greenhouse gas emissions to improve the health of Canadians and the environment for generations to come. The Program: regulates air pollutant and/or greenhouse gas emissions from the air, marine, and rail sectors; and implements Transport Canada clean air program obligations and commitments.

#### **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

#### **Program 4.1—Internal Services**

See introductory text.

### **Canadian Air Transport Security Authority**

#### **Strategic outcome 1**

Screening programs at designated Canadian airports protect the travelling public.

#### **Program 1.1—Pre-Board Screening**

Pre-Board Screening is the most public and visible of Canadian Air Transport Security Authority's mandate. At airport checkpoints across the country, security screening of passengers and their belongings are conducted by Canadian Air Transport Security Authority's Screening Officers. Passengers are screened before they enter the secure area of an airport terminal. Screening Officers use a variety of screening technologies and procedures to examine passengers and their belongings, making sure that they are not carrying potentially dangerous items, such as firearms, incendiary devices and explosives. No objects or materials that are on Transport Canada's Prohibited Items List are allowed on board an aircraft to eliminate the possibility that they could be used to cause harm. Investments in new leading-edge technology and training of the Screening Officer workforce, combined with continuously improving operational procedures, ensure that Canadian Air Transport Security Authority's Pre-Board Screening remains compatible with its international partners in aviation security.

#### **Program 1.2—Hold Baggage Screening**

In addition to screening passengers and their carry-on baggage, Screening Officers use specialized equipment to screen passengers' checked baggage (or hold baggage) to prevent the boarding of items such as explosives that could cause a potential threat to air transportation, adding a vital layer of security protecting the travelling public. Canadian Air Transport Security Authority purchases and integrates the equipment into the airport's baggage handling system, oversees equipment operation and maintenance, and manages Screening Officer training on the detection equipment. Canadian Air Transport Security Authority also conducts ongoing testing and evaluation of new equipment and technologies, and performance measuring and monitoring of its Hold Baggage Screening processes and systems.

#### **Program 1.3—Non-Passenger Screening**

As per direction from Transport Canada, Canadian Air Transport Security Authority's Screening Officers conduct, on a random basis, screening of individuals accessing restricted areas at Class I and II airports, providing an additional layer of security. Non-passengers include flight and cabin crews, airline customer service personnel, caterers, maintenance personnel, baggage handlers, vendors and concession and other airport service staff.

**Program 1.4**—Restricted Area Identity Card

The Restricted Area Identity Card Program is the world's first dual biometric (iris and fingerprint) airport identification program for non-passengers accessing restricted areas of air terminal buildings. The identity cards include a built-in computer chip with a microprocessor and memory to store biometric data of fingerprint and iris templates. The Restricted Area Identity Card Program includes the cards, fingerprint and iris readers installed in airport terminals and a network infrastructure linking airports to a secure central database. Fully operational since January 31, 2007, the Restricted Area Identity Card Program covers Class I and II airports and has the ability to interface with the airports' access control systems.

**Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

**Program 4.1**—Internal Services

See introductory text.

**Canadian Transportation Agency****Strategic outcome 1**

Transparent, fair and timely dispute resolution and economic regulation of the national transportation system.

**Program 1.1**—Economic Regulation

The Agency supports an efficient and accessible federal transportation system for users, service providers and other stakeholders through economic regulation of federal air, rail and marine transportation. It acts as the regulator of air transportation by enforcing the *Canada Transportation Act* and related regulations, administering a licensing and charter permit system, authorizing code share and wet lease arrangements, supporting the negotiation of air bilateral agreements, and ensuring that terms and conditions of carriage of air carriers are consistent with Canadian legislation. It develops regulations and codes of practice to remove undue obstacles to the mobility of persons with disabilities from the federal transportation network. It regulates rail transportation by issuing certificates of fitness and enforcing compliance with minimum insurance requirements consistent with Canadian legislation and regulations. It determines railway costs, approves rail line construction, oversees the discontinuance of service, establishes the net salvage value of rail lines, and determines inter switching rates and the maximum revenue entitlement for the movement of Western grain. It acts as an economic regulator in marine transportation by determining whether suitable Canadian vessels are available when applications are made to use foreign vessels.

**Program 1.2**—Adjudication and Alternative Dispute Resolution

The Agency provides formal and informal dispute resolution services to users, service providers and others affected by the federal transportation network, including facilitation, mediation, arbitration, and adjudication. As a quasi-judicial tribunal, the Agency has the authority to issue adjudicative decisions and orders on matters within its jurisdiction over federal rail, air and marine modes of transportation and, in respect of the Agency's accessibility mandate, extra-provincial bus operations. It resolves disputes between: air travellers and air carriers regarding terms and conditions of air carriage; persons with disabilities and service providers regarding undue obstacles to the mobility of such persons within the federal transportation network; rail shippers, railway companies, and those affected by railway service regarding level of service; shippers and railway companies when they are unable to negotiate level of service agreements; municipalities, provinces and road authorities regarding crossings and firefighting expenses, landowners and railways regarding rail infrastructure; railways and individuals or communities affected by rail noise and vibration; public passenger service providers and railway companies regarding conditions or amounts to be paid for the use of railways, land, equipment, facilities or services; Canadian ship owners and other interested persons regarding coasting trade and pilotage and port authorities regarding charges for pilotage services or port fees.

## **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

### **Program 2.1—Internal Services**

See introductory text.

## **Marine Atlantic Inc.**

### **Strategic outcome 1**

A safe, reliable, efficient, affordable and environmentally responsible ferry service between the Island of Newfoundland and the Province of Nova Scotia.

#### **Program 1.1—Ferry Services**

Marine Atlantic Inc. is a parent Crown Corporation that fulfills Canada's constitutional obligation to Newfoundland and Labrador to provide a year-round ferry service between North Sydney, Nova Scotia and Port aux Basques, Newfoundland and Labrador. It also operates a non-constitutional seasonal service between North Sydney and Argentia, Newfoundland and Labrador.

## **The Federal Bridge Corporation Limited**

### **Strategic outcome 1**

Safe and efficient transit on the infrastructure maintained, operated and managed by The Federal Bridge Corporation Limited.

#### **Program 1.1—Construction of a new low-level bridge in Cornwall, Ontario as well as related infrastructure improvements**

This program encompasses the construction of a new low-level bridge in Cornwall, to replace the deteriorating North Channel Span of the Seaway International Bridge, as well as related infrastructure improvements on Cornwall Island.

## **VIA Rail Canada Inc.**

### **Strategic outcome 1**

A national passenger rail transportation service that is safe, secure, efficient, reliable, and environmentally sustainable and that meets the needs of travellers in Canada.

#### **Program 1.1—Operation of a national network of rail passenger services**

Provision of year-round services in the Quebec City-Windsor Corridor, transcontinental passenger services between Halifax and Montreal and between Toronto and Vancouver, and the regional and remote services in northern and outlying areas of the country.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

- <sup>1</sup> Treasury Board Vote 5—Government contingencies.  
Treasury Board Vote 10—Government-wide initiatives.  
Treasury Board Vote 15—Compensation adjustments.  
Treasury Board Vote 25—Operating budget carry forward.  
Treasury Board Vote 30—Paylist requirements.  
Treasury Board Vote 33—Capital budget carry forward.

- <sup>2</sup> The Department of Transport is the subject of a pilot project through which its grants and contributions will appear in separate votes based on a program structure. Transport's grants and contributions are divided into three separate votes in 2016–17 based on the departmental Program Alignment Architecture. The comparative figures have been reclassified to conform to the new vote structure.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Treasury Board Secretariat****Strategic outcome 1**

Good governance and sound stewardship to enable efficient and effective service to Canadians.

**Program 1.1—Government-wide Funds and Public Service Employer Payments**

The Government-Wide Funds and Public Service Employer Payments program accounts for funds that are held centrally to supplement other appropriations, from which allocations are made to, or payments and receipts are made on behalf of, other federal organizations. These funds supplement the standard appropriations process and meet certain responsibilities of the Treasury Board as the employer of the core public administration, including employer obligations under the public service pension and benefits plans. The administration of these funds falls under the Expenditure Analysis and Allocation Management sub-program and the People Management Policy sub-program, but their financial resources are shown separately in the Program Alignment Architecture for visibility and reporting purposes. This indicator is an annually-assembled index compiled from five to seven international indexes, themselves derived from a combination of surveys and national experts.

**Program 1.2—Management Policies Development and Monitoring**

Through the Management Policies Development and Monitoring program, the Secretariat supports the Treasury Board in its role of establishing principles for sound governance and management by setting government-wide policy direction in targeted areas. The program's objective is to have a sound management policy framework for the Government of Canada. This program achieves its results by communicating clear management expectations for deputy heads and by adopting principles-based approaches to, and risk-informed monitoring of, policy compliance. The Secretariat develops, reviews, helps implement, supports, and monitors policies and departmental performance under a variety of Areas of Management. The Secretariat also engages with functional communities and undertakes outreach and monitoring to promote policy compliance and capacity building. This program is underpinned by legislation such as the *Financial Administration Act*, the *Public Service Employment Act* and the *Federal Accountability Act*.

**Program 1.3—Government-wide Program Design and Delivery**

Through the Government Wide Program Design and Delivery program, the Secretariat designs and delivers activities, systems, services and operations with, for, or on behalf of other Government of Canada organizations. This program also establishes a platform for transformational initiatives. The program's objective is to provide consistent and cost-controlled operations across the Government of Canada. This program achieves its results by developing and delivering solutions where whole-of-government leadership is required or where standardization and cost-savings can be achieved.

**Program 1.4—Decision-Making Support and Oversight**

Through the Decision-Making Support and Oversight program, the Treasury Board of Canada Secretariat supports the Treasury Board in its roles as management board of the Government of Canada and as expenditure manager in the government-wide expenditure cycle. The program objective is to support the government in promoting

value for money and results for Canadians in programs and operations. This program achieves its results by providing independent strategic advice, analysis, guidance, and oversight of programs, operations and expenditures. The Secretariat reviews departmental submissions, provides recommendations to the Treasury Board, and coordinates and reports on the allocation of expenditures across government organizations and programs.

### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Canada School of Public Service**

#### **Strategic outcome 1**

Federal public service employees have the common knowledge, skills and competencies to fulfill their responsibilities in serving Canadians.

#### **Program 1.1—Learning services**

This program delivers learning services to the federal public service, providing standardized training to build common knowledge, skills and competencies that support public service employees in fulfilling their responsibilities in delivering programs and services to Canadians. This program is responsible for enterprise-wide training and development in support of government priorities. It leads to a centralized, common approach to managing and delivering learning services that are open to all federal public service employees throughout their career and are common to the operation of all federal institutions, regardless of mandate or location. The Learning Services Program offers a curriculum consisting of foundational development training, which is designed to build a core common culture throughout the federal public service, and specialized development training, which is open to all employees working in information technology, human resources or finance, as well as to those wishing to develop their knowledge in other areas of specialization, including management and leadership. This program achieves its results through a common curriculum, designed to be delivered both in person and online and supported by technology infrastructure so as to enable the delivery of training across the federal public service.

#### **Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

#### **Program 2.1—Internal Services**

See introductory text.

### **Office of the Commissioner of Lobbying**

#### **Strategic outcome 1**

Transparency and accountability in the lobbying of public office holders contribute to confidence in the integrity of government decision-making.

**Program 1.1—Compliance and Enforcement**

The Office of the Commissioner of Lobbying conducts monitoring and compliance verification activities to ensure that registrable lobbying activity is properly reported, and information provided by lobbyists is accurate and complete. Suspected and alleged non-compliance with the *Lobbying Act* and the *Lobbyists' Code of Conduct* is reviewed and, where appropriate, formal investigations are undertaken to ensure compliance with the Act and the Code. The Commissioner reports findings and conclusions in Reports on Investigation submitted for tabling in Parliament. The Office of the Commissioner of Lobbying also reviews applications for exemption from the five-year post-employment prohibition on lobbying.

**Program 1.2—Registry of Lobbyists**

The Office of the Commissioner of Lobbying maintains an online Registry that makes information about lobbying activities public, including which designated public office holders were lobbied and on what subjects. The Registry is easy to use, searchable and downloadable. The Office of the Commissioner of Lobbying reviews and approves lobbyists' registrations. It also provides advice and technical support related to the Registry, the *Lobbying Act* and the *Lobbyists' Code of Conduct*.

**Program 1.3—Outreach and Education**

The Office of the Commissioner of Lobbying undertakes research to inform the development and delivery of its education and outreach products and activities. Outreach activities raise awareness about the requirements of the *Lobbying Act* and the *Lobbyists' Code of Conduct*. Outreach audiences include but are not limited to lobbyists, their clients and public office holders.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Office of the Public Sector Integrity Commissioner****Strategic outcome 1**

Wrongdoing in the federal public sector is addressed and public servants are protected in case of reprisal.

**Program 1.1—Disclosure and Reprisal Management Program**

The objective of the program is to address disclosures of wrongdoing and complaints of reprisal and contribute to increasing confidence in federal public institutions. It aims to provide advice to federal public sector employees and members of the public who are considering making a disclosure and to accept, investigate and report on disclosures of information concerning possible wrongdoing. Based on this activity, the Public Sector Integrity Commissioner will exercise exclusive jurisdiction over the review, conciliation and settlement of complaints of reprisal, including making applications to the Public Servants Disclosure Protection Tribunal to determine if reprisals have taken place and to order appropriate remedial and disciplinary action.

**Strategic outcome 2**

The following program supports all strategic outcomes within this organization.

**Program 2.1—Internal Services**

See introductory text.

**Program—Internal Services**

The Internal Services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Material services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

**Department of Veterans Affairs****Strategic outcome 1**

Financial, physical and mental well-being of eligible Veterans.

**Program 1.1—Disability and Death Compensation**

This program recognizes and compensates eligible Veterans, Canadian Armed Forces members and other eligible individuals for the effects of service related disabilities, death and detention. In the case of Disability Pension, benefits and allowances are provided in the form of monthly payments and for Disability Awards, Critical Injury and Death Benefits, compensation is provided in the form of a monetary award paid as a lump sum, an annual payment or a combination of both. This program is delivered through operating funds and grants.

**Program 1.2—Health Care Program and Re-establishment Services**

This program is designed to improve or maintain the physical, mental and social well-being of eligible Veterans, certain Reserve Force personnel, civilians, and their survivors and dependants and other individuals, promote independence, and assist in keeping them at home and in their own communities by providing a continuum of care. The program provides funding for rehabilitation services, career transition support, health benefits, family caregiver relief benefits, home care and long term care. This program is delivered through operating funds, grants and contributions.

**Program 1.3—Financial Support Program**

This program provides income support to eligible Veterans and their survivors to ensure that recipients have income which is adequate to meet their basic needs. This program also provides income replacement or support to eligible Canadian Armed Forces Veterans, survivors, and orphans for the economic impact that a military career-ending and/or service-connected injury, illness or death can have on a Veteran's ability to earn income or save for retirement. Benefits are provided in the form of lump sum or monthly income replacement or support payments, post military release. This program is delivered through operating funds and grants.

**Strategic outcome 2**

Canadians remember and demonstrate their recognition of all those who served in Canada's efforts during war, military conflict and peace.

**Program 2.1—Canada Remembers Program**

Canadian Veterans and those who died in service have made valuable contributions to the development of Canada. Under the authority of P.C. Order 1965–688, this program ensures that Veterans and those who died in service are honoured and the memory of their sacrifices and achievements is preserved. Canada Remembers activities promote the following outcomes: Canadians are knowledgeable about the efforts of Veterans and those who died in service to Canada; Canadian military milestones and the Veterans who participated in them are publicly recognized; communities and other groups lead remembrance activities; symbols erected to honour Veterans and those who served

are maintained in perpetuity on behalf of Canadians; and financial assistance is provided to the estates of eligible Veterans for a dignified funeral and burial. Encouraging pride in shared military history, celebrating the contributions and acknowledging the sacrifices of those who served, and preserving symbols to mark their courage all contribute to the Government of Canada's outcome of a vibrant Canadian culture and heritage. This program is delivered through operating funds as well as grants and contributions.

### **Strategic outcome 3**

Veterans' rights to services and benefits that address their needs are considered by the Veterans Affairs Portfolio.

#### **Program 3.1—Veterans Ombudsman**

This program provides an independent and impartial opportunity to review complaints submitted by Veterans and other individuals (war service Veterans, Veterans and serving members of the Canadian Armed Forces [Regular and Reserve], members and former members of the Royal Canadian Mounted Police, spouses, common-law partners, survivors and primary caregivers, other eligible dependants and family members, other eligible individuals and representatives of the afore-mentioned groups). It promotes fair and equitable treatment in accessing the services, benefits and programs from Veterans Affairs Canada. This is accomplished by: providing them with information and referrals to facilitate their access to programs and services; reviewing and addressing complaints arising from the Veterans Bill of Rights and decisions on benefits and services for which there is no right to appeal to the Veterans Review and Appeal Board; reviewing systemic issues related to the Veterans Review and Appeal Board; and identifying and reviewing emerging and systemic issues related to the provisions of the Department's programs and services and providing information and recommendations to the Minister in relation to those issues. This program is delivered through operating funds.

### **Strategic outcome 4**

The following program supports all strategic outcomes within this organization.

#### **Program 4.1—Internal Services**

See introductory text.

## **Veterans Review and Appeal Board**

### **Strategic outcome 1**

An independent and fair appeal process for disability pension, award and allowance decisions made by Veterans Affairs Canada.

#### **Program 1.1—Review and Appeal**

The Veterans Review and Appeal Board's program delivers the independent review and appeal process for disability pension and disability award decisions made by Veterans Affairs Canada. It provides two levels of appeal for Veterans, Canadian Armed Forces members, Royal Canadian Mounted Police applicants, and their families who are dissatisfied with their disability pension and disability award decisions. The Board conducts hearings and issues written decisions. The Board's other key functions include hearing reviews and appeals of special award decisions made by Veterans Affairs Canada relating to attendance allowances, exceptional incapacity allowances and clothing allowances; hearing the final level of appeal for War Veterans Allowance decisions; and adjudicating compassionate award applications.
