## 6.1 Introduction

As of fiscal year 2018 to 2019 and under the new Treasury Board Secretariat [Policy on Results](#), most of the departments will be implementing the new Departmental Results Framework. This framework, which replaces the Program Alignment Architecture (PAA), consists of departmental core responsibilities and their related program inventory. These codes are used to reflect the resources allocated to the achievement of government objectives.

### Example:

ZZZ00 - represents a core responsibility. The first three digits are capital letters and the last two digits are zeros.

ZZZ01 - this five digits alphanumeric code represents an individual program from the program inventory. The first 3 digits identify the core responsibility to which the program corresponds and the last two numbers is a combination between 01 and 99.

**Please note** that the following departments will still be using the old Program Alignment Architecture (PAA) in fiscal year 2018 to 2019 consisting in program codes (PROG):

- Royal Canadian Mounted Police
- Royal Canadian Mounted Police External Review Committee
- Civilian Review and Complaints Commission for the Royal Canadian Mounted Police

The format of these PROG is indential to the core responsibility format.

BSI00 Acquiring and preserving documentary heritage

**Description:** Library and Archives of Canada (LAC) acquires documentary heritage of historical value and preserves it for current and future generations, as mandated in the *Library and Archives of Canada Act*. LAC's collection is made up of documentary heritage in a variety of media and formats that provides a picture of Canada over time. LAC advises the Government of Canada and its institutions on the management of information and ensures that records of historical value are transferred to its collection. Through legal deposit, all materials submitted by Canadian publishers become part of the collection, as well as sampling of Internet content. Other records of national significance created by individuals and organizations are acquired to document Canadian society. LAC uses state-of-the-art techniques and infrastructure to restore the collection and provide optimal conditions for long-term preservation. LAC also builds its capacity and expertise to store information digitally to ensure the enduring availability of digital records.

Financial audits assess if the annual financial statements of the government and Crown corporations are presented fairly, consistent with applicable accounting standards. Performance audits assess if government manages with due regard for economy, efficiency, and environmental impact and measures its effectiveness. Special examinations assess if Crown corporation systems and practices provide reasonable assurance that assets are safeguarded, resources are managed economically and efficiently, and operations are managed effectively.

## Canadian Centre for Occupational Health and Safety

### BFZ00 National Occupational Health and Safety Resource

**Description:**The goal of this public service program is to provide free information on occupational health and safety to support Canadians in their efforts to work safely and create healthy and safe workplaces. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively, they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost recovery products and services and is supported financially by contributions from various stakeholders. Through health and safety information development, the Canadian Centre for Occupational Health and Safety collects, processes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, development of policy and best practices, improvement of health and safety programs, achieving compliance, and for personal use. When the product or service provided by the Canadian Centre for Occupational

Health and Safety is offered to identifiable external recipients with benefits beyond those enjoyed by the general public, the product or service becomes part of the cost-recovery program and a fee is charged. The Canadian Centre for Occupational Health and Safety promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non-financial contributions to the programs by partners and stakeholders and result in advancement of the health and safety initiatives.

### BUA00 Conditional Release Decisions

**Description:** Conditional release is based on the principle that community safety is enhanced by the gradual release of offenders to the community when appropriate. Quality decisions based on the risk of re-offending in conjunction with effective programs and treatment, and effective community supervision all contribute to the process. Through this core responsibility, Parole Board of Canada (PBC) staff provides timely, accurate information for Board member decision-making, and develops training and policies that are essential tools for risk assessment and decision-making.

## BUC00 Record Suspension Decisions/Clemency Recommendations

**Description:**A record suspension is designed to support the successful reintegration of an individual into society where appropriate. It is a formal attempt to remove the stigma of a criminal record for people found guilty of a federal offence and who, after satisfying their sentence and specified waiting period, have shown themselves to be responsible law-abiding citizens. Record suspensions can be revoked or cease to have effect if an individual is convicted of a new indictable offence, or in some cases a summary offence, found to no longer be of good conduct, found to have made a false or misleading statement or hidden information. Through this core responsibility the Parole Board of Canada (PBC) screens applications for completeness and the eligibility of each applicant, collects information for decision-making and develops policy to guide decision processes. This program is also responsible for assessing requests and providing recommendations under the Royal Prerogative of Mercy (i.e. clemency) and providing advice to the Minister on the merits of each case. Clemency is granted in exceptional circumstances in deserving cases involving federal offences, where no other remedy exists in law to reduce severe negative effects of criminal sanctions.

## Royal Canadian Mounted Police External Review Committee

### BEN00 Appeal case reviews

**Description:**The Royal Canadian Mounted Police External Review Committee (ERC) is an independent administrative tribunal that contributes to fair and equitable labour relations and helps to reinforce accountability at all levels within the Royal Canadian Mounted Police (RCMP). Other than the courts, the ERC is the only independent review mechanism available to RCMP members and management for labour relations matters. The ERC conducts impartial reviews of appeals of certain conduct measures imposed on RCMP members and of written decisions regarding harassment complaints, revocations of appointments, discharges, demotions and ordered stoppages of pay and allowances. Case files dealing with these matters are referred to the ERC for review by the RCMP pursuant to sections 33 and 45.15 of the *Royal Canadian Mounted Police Act* and section 17 of the *Royal Canadian Mounted Police Regulations*. In conducting its reviews of referred case files, the ERC considers the entire file record that is provided by the RCMP which can include statements from members (complainants, respondents and others), video or audio records and testimony from witnesses, historical human resources file materials and other documentation. Once a review has been completed, the ERC provides findings and recommendations to the Commissioner of the RCMP (as the final decision maker) and to the parties. The ERC's findings and recommendations are directed at ensuring that the general principles of administrative law and labour law are respected and that the requirements of the *RCMP Act* and other relevant legislation, such as the *Canadian Human Rights Act*, are adhered to in decision making. In some cases, the ERC makes recommendations for broader change or for actions that might be taken to address issues raised in a file (e.g., changes in RCMP policies or management practices, or additional or new training for RCMP members or managers). Access to summaries of ERC findings and recommendations and to ERC reports and discussion papers is provided to RCMP members and the public through the ERC's

website and publications, and through presentations or other outreach to RCMP members.

**Civilian Review and Complaints Commission for the Royal Canadian Mounted Police**

AYX00 Civilian review of Royal Canadian Mounted Police members' conduct in the performance of their duties

**Description:** The Civilian Review and Complaints Commission for the RCMP (CRCC) is an independent agency created by Parliament to provide fair and independent civilian review of RCMP members' conduct in the performance of their duties. The CRCC accomplishes this by receiving complaints from the public about the conduct of RCMP members and monitoring the RCMP's investigation of such complaints. Where a complainant is not satisfied with the outcome of the RCMP's response to a complaint, a request can be made to the CRCC for an independently review of the members' conduct and the RCMP's handling of the matter. In reviewing complaints, the CRCC may find that it is satisfied with the

RCMP handling of the complaint or it may make findings and recommendations to the RCMP Commissioner and the Minister of Public Safety with respect to matters addressed in the complaint. The CRCC also conducts reviews of specified RCMP activities, reports to provinces which contract RCMP services, conducts research, program outreach and public education, and provides independent observers to investigations of serious incidents involving RCMP members.

- This department is not required to use specific program codes to allocate the internal service expenses between the following groups: Management and Oversight Services; Communications Services; Legal Services; Human Resources Management Services; Financial Management Services; Information Management Services; Information Technology Services; Real Property Services; Materiel Services; Acquisition Services; and Other Administrative Services. # Footnotes

1. Most departments and agencies are to substitute the letter A by a zero (0). **However**, in rare cases, where a department or agency has more than one vote per kind of vote (Program, Operating, Capital Expenditures), or another department or agency is allowed to function within a host departmental financial system and the accounting is included in the host department's Central Financial Management and Reporting System (CFMRS) trial balance, the A would be substituted sequentially by 1 for the first vote/organization and by 2 for the second vote/organization, etc.
2. The note related to the ISSA0 code applies.
3. This department is not required to use specific program codes to allocate the internal service expenses between the following groups: Management and Oversight Services; Communications Services; Legal Services; Human Resources Management Services; Financial Management Services; Information Management Services; Information Technology Services; Real Property Services; Materiel Services; Acquisition Services; and Other Administrative Services. This department will exclusively use the internal services code.
