5.1 Introduction

This section provides an explanation of the authority classification which, for government-wide reporting purposes, identifies the authority codes required for accounting transactions.

The primary purpose of the authority codes is to identify expenditure transactions for accountability and reporting in the *Public Accounts of Canada* according to the specific votes and other authorities in the Estimates, other authorities included in specific statutes; and in addition, to identify the nature of revenue, by tax and non-tax revenue. Other authority codes (non-appropriated authorities) are also established by central agencies to facilitate the identification of various accounting transactions that do not require the use of appropriations.

An appropriation is an authority of Parliament to pay money out of the Consolidated Revenue Fund (CRF) and as such, provides parliamentarians with control over most expenditures of the government. As a general rule, transactions are recorded against an appropriation on an expenditure basis; however, there are certain expenditures that are not charged to an appropriation until a payment is required.

The authority code identify expenditures transactions as follows:

- **Statutory expenditures**

Statutory expenditures are those that Parliament has approved through legislation (other than Appropriations Act) that set out the purpose of the expenditures and the terms and conditions under which they may be made.

- **Non-statutory expenditures**

Non-statutory expenditures are those that Parliament approves annually through an *Appropriation Act*. Once approved the vote wording and the expenditure authority attributable to each vote become the governing conditions under which these expenditures may be made.

- **Non-appropriated transactions**

Non-appropriated authority codes identify accounting transactions that do not require the use of appropriations (i.e., expenditure or revenue are already recognized or expenditure is not charged to appropriations until the payment is required).

5.1.1 Classification for the authority codes

The authority codes are designed to identify accounting transactions as being:

- **Budgetary expenditures** Budgetary expenditures that are made in accordance with specific votes or other authorities in the Estimates, or to statutory appropriations or other authorities included in various statutes and elsewhere. Budgetary expenditures consist of the cost of servicing the public debt; operating and capital expenditures; transfer payments to

other levels of government, organizations or individuals; and payments to Crown corporations.

- **Budgetary revenue** Budgetary revenue related to tax revenue and user charges, payable or charged based on specific legislation, regulations or contracting authority. All tax revenue are statutory and the non-tax revenue authority codes identify the basis under which departments charge users for the provision of products or services and includes goods, regulatory and optional services, information products, use of public facilities and rights and privileges (licences, permits, patents, copyrights, etc.).
- **Non-budgetary authorities** Non-budgetary authorities that comprise assets and liabilities transactions for loans, investments and advances, or specified purpose accounts, that have been established under specific statutes or under non-statutory authorities in the Estimates and elsewhere. Non-budgetary transactions are those expenditures and receipts related to the government's financial claims on, and obligations to, outside parties. These consist of transactions in loans, investments and advances; in cash and accounts receivable; in public money received or collected for specified purposes; and in all other assets and liabilities. Other assets and liabilities, not specifically defined in G to P authority codes are to be recorded to an R authority code, which is the residual authority code for all other assets and liabilities.
- **Non-appropriated authorities** Non-appropriated authorities are established as central agency requirements to facilitate the identification of transactions that do not require the use of appropriations (for example, amortization expenses for capital assets or the allowance for severance pay which is not charged to an appropriation until a payment is required).

5.2 Authority codes Detailed for 2021 to 2022

^1 Budgetary

^11 Expenditures

A Statutory expenditures

A1 Standard

Description:"Standard" means that the same breakdown should be used by all departments, unless otherwise restricted to a specific department.

A11 Operating budget related items

Description:These amounts are included as operating expenditures in the Financial Reporting accounts(FRA). Each of these codes are restricted to the departments concerned.

A111 Minister's salary and motor car allowance (including Prime Minister and secretaries of state)

Description:The legislative basis of the statutory expenditure authority is the *Salaries Act*, 1985, section 3 and the *Parliament of Canada Act*, 1985, P-1.

A112 Other statutory salaries and allowances

Description:Relate to salaries of specific offices such as Governor General.

A12 Special statutory items

A121 Court awards - *Crown Liability and Proceedings Act*

Description:This statutory authority (pursuant to section 30(1) of the *Crown Liability and Proceedings Act* provides for the payment of judgements against the Crown upon the receipt of a certificate of judgement, from either a federal or provincial court. Money paid from the Consolidated Revenue Fund as a result of the use of this authority will eventually be accounted for either by transferring funds from a departmental appropriation or by seeking supplementary funding. Costs awarded against the Crown by a judgement and expenses for Crown witness, travel and legal fees and other expenses are charged to the appropriation of the relevant department. Additional information is available in the [Directive on Payments](#).

A122 Refunds of previous years revenue

Description:This account needs to be a separate statutory expenditure authority, but it is to be netted to other revenue under accrual accounting (in the Financial Reporting Accounts). The legislative basis of the statutory expenditure authority is the *Financial Administration Act* Section 20.

A123 Collection agency fees under section 17.1 of the *Financial Administration Act*

Description:This statutory authority (pursuant to section 17.1 of the *Financial Administration Act*) provides for the payment of collection agency fees when they are successful in the collection of debts due the Crown. Expenses where the collection is unsuccessful or fees for other services such as tracing credit assessment and cheque verification are to be charged to program or operating votes and not to this statutory authority.

A124 Court awards - Supreme Court

Description:This statutory authority (pursuant to section 98 of the *Supreme Court Act*) provides for the payment of judgements against the Crown, upon the receipt of a certificate of judgement from the Supreme Court.

A125 Court awards - Tax Court of Canada

Description:The legislative basis of the statutory expenditure authority is the *Tax Court of Canada Act*, section 16.3.

A126 Losses on foreign exchange

Description:This statutory authority provides for the recording of the net loss resulting from the year end revaluation of financial assets and liabilities denominated in foreign currencies. Departments must revalue foreign denominated financial assets or liabilities to the Canadian dollar equivalent using the closing rate of exchange for March 31. If the net revaluations result in a gain authority code D343 would be used. The legislative basis of the statutory expenditure authority is the *Currency Act* and *Bretton Woods and Related Agreements Acts*.

A127 Payment pursuant to section 24(1) of the *Financial Administration Act*

B Non-Statutory expenditures

Description: Non-statutory expenditures are those vote authorities that Parliament approves annually through an *appropriation Act*. Once approved, the vote wording attributable to each vote become the governing conditions under which expenditures may be made. The listed authority codes are to be used (as appropriate) for coding non-statutory expenditures.

B1 Standard

B11 Program expenditures or operating expenditures vote-All departments

B119 Program expenditures or operating expenditures vote - Reorganization

Note(s):

- A department must obtain the approval from the Receiver General before using this code.

B11A Program expenditures or operating expenditures vote

Description:This specified purpose account authority code is to be used by departments to record transactions in connection with collaborative arrangements, such as cost-sharing, joint projects or partnership arrangements where funds are received in advance from external parties. Departments are accountable to those that provided the funds, so detailed accounting records, by specific obligation, must be maintained within their Departmental Financial Management System. The arrangements are to be consistent with the scope of departmental authorities and must comply with the Treasury Board Directive on Specified Purpose Accounts. Details on the government-wide accounting entries for a cost-sharing and joint project agreement is available in the Treasury Board of Canada Secretariat FIS Accounting Manual sub-section 9.1.4. **Note:** Departments (where applicable) are to continue to use the specific authority codes already created under the N7 N8 P7 or P8 *Other specified purpose accounts* groups.

Appendix B – Endnotes

1. Specific revolving funds involved to be determined.
2. Not to be used for travellers cheques issued on a consignment basis.
3. In their departmental systems, departments will need to note the statutes under which all their user charges are made and collected.
4. The breakdown of the codes to be used for user charges is the same for all departments.
5. Any Specified Purpose Account set up in accordance with a specific statute or other requirement must be recorded in the accounts in departmental systems to meet the specified reporting requirements. To assist in the transition to the revised reporting requirements for Specified Purpose Accounts (SPAs), all SPA's are being listed in the L, M, N and P codes in the CFMRS. In particular the SPA's are in codes L2, M1, N3, N5 to N8 and P2 to P8.
6. Departments are to substitute the A with a 0 if they only have one program. However, for a department that has more than one program, the A would be substituted sequentially, by 1 for the first program and 2 for the second program etc.
