Transfer payments

The following statement presents the total amount spent in 1994-95 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed by program under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the aggregate of all payments (i.e. cash payments and accrual charges) to a recipient that totals \$100,000 or over. This detail shows the name and location of the recipient, together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes. Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 8 of Volume II (Part II) of the 1994-95 Public Accounts presents the total amount spent as transfer payments, by department and agency under each ministry.

* Includes cash payments and accrual charges.

Federal contributions in respect of provincial and territorial health care services are included under the Established Programs Financing arrangements found in Part V of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. Total entitlements of each province are based on an equal per capita amount determined in accordance with the legislation amounting to \$523.39 in 1994-95. The tax contribution of \$8.0 billion is the current value of a legislatively prescribed number of tax points (and the Fiscal Equalization associated with them). Cash payments are the difference between total entitlements and the tax contribution plus adjustments related to prior years payments. The equalization associated with the tax transfer is paid under the Fiscal Equalization Program administered by the Department of Finance. The amount of these cash and tax transfers in 1994-95 is shown above.

The cash portion of the contributions is also subject to various provisions of the Canada Health Act. In order that a full cash contribution may be made, provinces must satisfy program criteria respecting public administration, comprehensiveness, universality, portability and accessibility throughout the fiscal year, and must agree to provide the Minister of Health with required information and must give recognition to the contributions and payments made by Canada under the Canada Health Act. A discretionary process for deductions from cost contributions is described in the Act for violations of the program criteria.

The Act additionally requires that the provinces must not permit extra-billing by a medical practitioner or a dentist (for surgical dental services requiring hospitalization) and user charges. Should a province fail to comply with these latter conditions, the Act provides for automatic deductions from cash contributions. Only British Columbia has had deductions totalling \$1,982,000 during 1994-95 for extra-billing.

The New Horizons Program was established in 1972 to encourage and enable retired Canadians to become more actively involved in the life of their community. This objective is accomplished by providing professional assistance and financial contributions to help groups of seniors to plan and develop projects in keeping with their interests and talents. These projects help participating seniors to remain socially active and provide them with an opportunity to become involved in community service projects which help many seniors to prolong an independent life-style.

1994	377	36,040	36,217
1993	336	31,075	7,860

Children's Special Allowances are paid in respect of children maintained by federal or provincial departments, agencies or institutions. The benefit amount equals one twelfth of the basic child tax benefit determined each July by the indexing provisions contained in the Income Tax Act. Effective July 1, 1994 the monthly rate per child is \$85. The legislation provides for annual escalation of the allowance in July of every year in accordance with increases in the Consumer Price Index in excess of 3 percent.

	20,511	19,903	19,106	18,393	17,131

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, each is considered to have one half of their combined income.

Spouse's Allowance is payable to the spouse of a pensioner if the spouse is aged 60 to 64 and to widows and widowers aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 1995 were as follows:

Monthly benefits	\$
OAS (basic)	388.52
GIS (maximum)

The Canada Assistance Plan Act authorizes the Government to enter into agreements with provinces and territories for sharing the costs of social assistance provided to persons in need and welfare services to persons in need or likely to be in need.

(1) The Province of Quebec has opted to receive special funding in lieu of cost sharing under the Canada Assistance Plan, in accordance with Part VII for Special Welfare programs of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. Under these provisions, the Province of Quebec is entitled to receive a combination of cash and tax abatement units equivalent to the transfer payments which would have been made had it opted to participate in the Canada Assistance Plan.

The amounts received by Quebec were:

	1994-95	1993-94
	(in thousands of dollars)	
Cash payments	2,030,544	2,013,935
5 tax abatement units (estimated value)	668,050	661,375

Federal contributions in respect of post-secondary education are included under the Established Programs Financing arrangements found in Part V of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act. Total entitlements of each province are based on an equal per capita amount determined in accordance with the legislation amounting to \$211.30 in 1994-95. The tax contribution of \$3.8 billion is the current value of a legislatively prescribed number of tax points (and the Fiscal Equalization associated with them). Cash payments are the difference between total entitlements and the tax contribution plus adjustments related to prior years payments. The equalization associated with the tax transfer is paid under the Fiscal Equalization Program administered by the Department of Finance. The amount of these cash and tax transfers in 1994-95 is shown above.
