## **Transfer payments**

The following statement presents the total amount spent in 1997-98 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed by program under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the aggregate of all payments (i.e. cash payments and accrual charges) to a recipient that totals \$100,000 or over. This detail shows the name and location of the recipient together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes. Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 8 of Volume II (Part II) of the 1997-98 Public Accounts of Canada presents the total amount spent as transfer payments in the current fiscal year by department and agency under each ministry.

Canada Health and Social Transfer (CHST) is a block-fund transfer to provinces and territories to provide financial support for the provision of health, post-secondary education, social assistance and social services. The contributions are a combination of cash and tax point transfers. The tax contribution of \$12.8 billion is the current value of a legislatively prescribed number of tax points (and the Fiscal Equalization associated with them). Cash payments of \$12.4 billion are the difference between total entitlements and the tax contribution. The equalization associated with the tax transfer is paid under the Fiscal Equalization Program administered by the Department of Finance. The amount of these cash and tax transfers in 1997-98 is shown on the above table.

The cash portion of the contributions is also subject to various provisions of the Federal-Provincial Fiscal Arrangements Act and the Canada Health Act. In order that a full cash contribution may be made, provinces must satisfy program criteria respecting public administration, comprehensiveness, universality, portability and accessibility throughout the fiscal year, and must agree to provide the Minister of Health with required information and must give recognition to the contributions and payments made by Canada under the Canada Health Act. Also, the Federal-Provincial Fiscal Arrangements Act requires provinces to provide social assistance without any minimum residency requirements on social assistance applicants. Under both Acts, a process for deductions from cash contributions is described for violations of the program criteria.

The Canada Health Act additionally requires that the provinces must not permit extra-billing by a medical practitioner or a dentist (for surgical dental services requiring hospitalization) nor user charges. Should a province fail to comply with these latter conditions, the Act provides for automatic deductions from cash contributions. Newfoundland, Nova Scotia, Manitoba have had deductions totalling \$722,000 during 1997-98 for extra-billing. Deductions for extra-billing are administered by the Department of Health Canada.

The New Horizons Program was established in 1972 to encourage and enable retired Canadians to become more actively involved in the life of their community. This objective is accomplished by providing professional assistance and financial contributions to help groups of seniors to plan and develop projects in keeping with their interests and talents. These projects help participating seniors to remain socially active and provide them with an opportunity to become involved in community service projects which help many seniors to prolong an independent life-style. The New Horizons Program ended March 31, 1997.

Contributions forecasted under the New Horizons Program in the "Health Canada 1997-98 Estimates -- Part III" were transferred to the Population Health Fund after the introduction of the Fund in May 1997. This new funding program supports the population health approach adopted by Health Canada to integrate action on a broad range of determinants that affect the health of Canadians. The Population Health Fund is based on a life cycle framework, organized in three life stages including later life (i.e., senior years). Community-based projects for seniors and aging issues continue to receive support through the Fund.

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, each is considered to have one half of their combined income.

Spouse's Allowance is payable to the spouse of a pensioner if the spouse is aged 60 to 64 and to widows and widowers aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 1998 were as follows:

| Monthly benefits   | \$     |
|--|--------|
| OAS (basic)  | 407.15 |
| GIS (maximum)  |        |
| Single person or a married person whose spouse is not in receipt of OAS or SPA | 483.86 |
| Married couple, both pensioners — Each   | 315.17 |
| Spouse's Allowance (maximum)   | 722.32 |
| Widowed recipients   | 797.45 |

In March 1998, there were 3,635,437 Old Age Security pensioners, of whom 1,376,304 or 37.9 percent were also receiving a Supplement; the average Supplement paid was \$288. In addition, there were 99,244 spouses of pensioners in receipt of Spouse's Allowance. The average Spouse's Allowance benefit was \$329.

Children's Special Allowances are paid in respect of children maintained by federal or provincial departments, agencies or institutions. The benefit amount equals one twelfth of the basic child tax benefit determined each July by the indexing provisions contained in the Income Tax Act. Effective July 1, 1994, the monthly rate per child is \$85. The legislation provides for annual escalation of the allowance in July of every year in accordance with increases in the Consumer Price Index in excess of 3 percent.
