

## 2011 Simplified Federal Child Support Tables

These Simplified Tables are based on the updated Federal Child Support Tables that came into force on December 31, 2011.

There are two Simplified Tables for each province and territory:

- One table shows monthly child support payments for 1 to 4 children;
- The other table shows monthly child support payments for 5 or more children.

Make sure that the table you use matches the province or territory where the paying parent lives and the number of children being supported.

To use the table, find the income that is closest to the paying parent's income. If the paying parent's income is \$150,000 or less, the child support amount will be shown on the same line as the income, in the column for the number of children being supported. If the paying parent's income is over \$150,000, please refer to the chart at the end of the simplified table to find out how much child support should be paid.

If you prefer, there are two other tools you can use to help you find out how much child support should be paid. These are:

- a convenient **online Look-up**; or
- the **official (legal) version of the Federal Child Support Tables**.

Both these tools, as well as the Simplified Tables, can be found on the Department of Justice Canada's web site.

The results you get using the Simplified Tables may not be exactly the same as the results you would get using the online Look-up or the official Federal Child Support Tables. That is because child support amounts in the Simplified Tables are based on incomes rounded to the nearest \$100. However, the results will be very close.

Note: Of the three tools for determining child support, only the official tables are a legal document. The Simplified Tables and the online Look-up just provide general information to help you and the other parent work out a child support agreement.
