Scars to be marked and indicated with an arrow (->).  
If no markings, mark this as (0).

I, the undersigned Official Veterinarian, duly authorized by the Government of Canada, hereby certify that after due enquiry and to the best of my knowledge and belief, the animals described below comply with the following requirements:

1. The animals originate from Canada, a country which has had no outbreak of African horse sickness, Venezuelan

equine encephalomyelitis, dourine, glanders, equine piroplasmosis or vesicular stomatitis during the two (2) years preceding exportation and vaccination against the aforesaid diseases is not practised in Canada.

2. There has been no outbreak of rabies, contagious equine metritis, equine infectious anemia, equine piroplasmosis, anthrax, epizootic lymphangitis, horse pox, equine viral arteritis, mange, salmonella abortus equi, Surra or strangles on the premises of origin during the six (6) months preceding exportation nor have the animals to be exported been on premises where such diseases have occurred during this time.

3. i) The animals to be exported have been isolated for a minimum of seven (7) days in an approved pre-embarkation quarantine facility. During this period, the animals have been examined and found to be healthy with no clinical evidence of infectious or contagious disease\* and have had no contact with animals not similarly qualified for export to the Republic of Korea.

\*Disease in this context includes the following: equine influenza, equine Japanese encephalitis, contagious metritis, Getah virus infection, rabies, horse pox, mange, Surra, strangles, epizootic lymphangitis, Salmonella abortus equi, equine rhinopneumonitis, equine viral arteritis, equine piroplasmosis, equine encephalomyelitis, glanders, equine infectious anemia, equine vesicular stomatitis, dourine, African horse sickness and tetanus.

ii) The horses had no contact with any horses except those of the same health status during the quarantine period.

4. The animals to be exported have been subjected to tests for the following diseases with negative results during the pre-export isolation period and such testing was performed at a laboratory approved by the Canadian Food Inspection Agency (CFIA).

**DATE OF TEST**

i) equine Infectious Anemia - AGID \_\_\_\_\_

\*\* ii) equine encephalomyelitis (Eastern and Western) - Haemagglutination inhibition test or complement fixation test \_\_\_\_\_

iii) equine viral arteritis - serum neutralization test \_\_\_\_\_

iv) Salmonella abortus equi - serum agglutination test \_\_\_\_\_

\*\* for unvaccinated horses, a single HI or CF test will suffice. In the event the animal has been vaccinated (inactivated vaccine only) two tests performed with an interval of fourteen (14) days is required with no demonstrable rise in titre.

5. The animals to be exported have/have not been subjected to vaccinations against the following diseases: **(Delete as appropriate).**

i) equine influenza  
 Date of vaccination \_\_\_\_\_ Manufacturer \_\_\_\_\_  
 Name of vaccine \_\_\_\_\_ Type of vaccine \_\_\_\_\_

ii) tetanus - antiserum inoculation recommended within seven (7) days of shipment  
 Date of vaccination \_\_\_\_\_ Manufacturer \_\_\_\_\_  
 Name of vaccine \_\_\_\_\_ Type of vaccine \_\_\_\_\_

iii) equine Japanese encephalitis  
 Date of vaccination \_\_\_\_\_ Manufacturer \_\_\_\_\_  
 Name of vaccine \_\_\_\_\_ Type of vaccine \_\_\_\_\_

iv) Getah virus infection  
 Date of vaccination \_\_\_\_\_ Manufacturer \_\_\_\_\_  
 Name of vaccine \_\_\_\_\_ Type of vaccine \_\_\_\_\_

v) equine rhinopneumonitis  
 Date of vaccination \_\_\_\_\_ Manufacturer \_\_\_\_\_  
 Name of vaccine \_\_\_\_\_ Type of vaccine \_\_\_\_\_

6. All fodder, litter and other materials supplied for the horses during the period of pre-embarkation quarantine and all

REFERENCE NUMBER: \_\_\_\_\_

transportation is sanitary, free from agents of animal infectious diseases and originates from the area of origin of the horses.

7. All equipment, containers, vehicles and the vessel or aircraft to be used for transportation of the horses have been cleaned and disinfected in an approved manner. The horses had no contact with other animals which were not quarantined simultaneously.

8. i) Date of pre-embarkation quarantine period \_\_\_\_\_

ii) Location of approved pre-embarkation quarantine premises \_\_\_\_\_
