**ADDRESS:** \_\_\_\_\_

I, the undersigned, being an official veterinarian designated by the competent central authority of Canada, certify that after due enquiry and to the best of my knowledge and belief, the animals described below meet the following requirements:

1. No infectious or contagious disease has occurred on the premises where the horse(s) was/were kept during the thirty (30) days prior to the date of exportation.
2. The horse(s) is/are free of any clinical signs of Potomac horse fever, Contagious equine metritis, equine rhinopneumonitis, equine infectious arthritis, mange and dermatophilosis.
3. The animal(s) has/have been vaccinated for:
  - i) Eastern and Western Equine Encephalomyelitis - at least twenty (20) days prior to shipment;  
Date of Vaccination \_\_\_\_\_
  - ii) Equine Influenza - using an inactivated multi-strain vaccine (A1 and A2) within two (2) months of exportation;  
Date of Vaccination \_\_\_\_\_
4. Within sixty (60) days of departure, the animal(s) has/have been subjected to testing for equine infectious anemia with negative results as determined by the use of the immunodiffusion test (Coggin's test) in a laboratory approved for that purpose by the Government of Canada.  
Date of Test \_\_\_\_\_
5. The animals have been examined and found to be healthy with no clinical evidence or symptoms of infectious or contagious disease.
6. The animals have been treated for internal and external parasites. Date \_\_\_\_\_  
Medication Used: \_\_\_\_\_
