

**VETERINARY HEALTH CERTIFICATE
EXPORT OF PORCINE SEMEN TO TRINIDAD**

NAME OF BOAR	BREED	
REGISTRATION NO.	DATE OF BIRTH	EARTAG/TATTOO
OWNER OF BOAR	MAINTAINED AT (NAME OF AI UNIT)	
CONSIGNOR	ADDRESS	
CONSIGNEE	ADDRESS	
NO. OF AMPOULES	DATE(S) OF COLLECTION	

I, the undersigned Official Veterinarian, duly authorized by the Government of Canada do certify that:

1. The semen was derived from a boar standing at an approved A.I. Centre which is under the direct control and supervision of a veterinary surgeon approved by the Ministry of Agriculture.
2. The donor boar is not known to be affected with, or vaccinated against, foot and mouth disease, swine fever, swine vesicular disease (SVD), brucellosis, transmissible gastroenteritis (TGE), Aujeszky's disease, or porcine reproductive and respiratory syndrome (PRRS).
3. During the six (6) months prior to the collection of the semen, no case of swine vesicular disease or transmissible gastroenteritis has occurred at the A.I. Centre.
4. During the twelve (12) months immediately preceding the collection of semen, the pigs at the A.I. Centre showed no clinical evidence of tuberculosis, brucellosis, leptospirosis, Aujeszky's disease, teschen disease, rabies, or PRRS.
5. Insofar as can be determined, since entering the semen production centre, the donor boar has not been in direct or indirect contact with animals affected with, or vaccinated against, foot and mouth disease, classical swine fever (hog cholera), African swine fever, SVD, TGE, Aujeszky's disease (pseudorabies), brucellosis, or PRRS.
6. Foot and mouth disease, hog cholera, and African swine fever did not exist in Canada at the time of collection.
