

## Attestation for Importation of Japanese Food and Feed Products, Including Ingredients

**Note to Importers:** For purposes of the current Border Lookout issued March 24, 2011, the CFIA has certain legislated and regulated powers, including inspection, seizure and detention of imported products. One or more of the documents that are being requested will be taken into account in the CFIA's exercise of its discretion in enforcing its legislation.

1. Shipment and Product Identification (e.g., Bill of Lading, Transaction Number, Confirmation of Sale) that links the attestation to the product and shipment:

\_\_\_\_\_

\_\_\_\_\_

2. Estimated Date of Arrival in Canada: \_\_\_\_\_.

3. Destination: \_\_\_\_\_

\_\_\_\_\_

4. Point/Port of Entry: \_\_\_\_\_.

5. Importer Name \_\_\_\_\_

Address \_\_\_\_\_

Telephone Number \_\_\_\_\_

Fax Number \_\_\_\_\_

E-mail Address \_\_\_\_\_

Check whichever box applies to this shipment, print name, sign and date below.

To expedite release of shipments, this declaration for each consignment should be received with all other documentation in advance of the shipment reaching Canada.

1.  I attest that the food and/or feed products, including ingredients were not produced (grown, processed, packaged or stored) in one of the Listed Prefectures\*.
2.  I attest that the food and/or feed products, including ingredients were produced (grown, processed, packaged or stored) in one of the Listed Prefectures\* prior to March 11, 2011, and that they have been transported and stored outside of those prefectures until they arrived in Canada.
3.  I attest that food and/or feed products, including ingredients were produced (grown, processed, packaged or stored) in one of the Listed Prefectures\* after March 11, 2011, and that they have been tested by an ISO-accredited laboratory, Japanese federal government laboratory, or other laboratory acceptable to the Government of Canada and found to have residual levels of radioactivity below Canadian action levels.  
(The attestation must be accompanied by a certificate of analysis that clearly links the results to the shipment.)

**\*Note:** Listed Prefectures include Fukushima, Gunma, Ibaraki, Tochigi, Miyagi, Yamagata, Niigata, Nagano, Yamanashi, Saitama, Tokyo and Chiba.
