| | | | |
| Total | | | |

(If necessary, reproduce this table on a separate sheet with the certificate number and official stamp on each page plus the Official Veterinarian's signature on the last page)

I, the undersigned *Official Veterinarian*, do hereby certify that ⁽⁴⁾:

A the above-listed products have been obtained, prepared, handled and stored in accordance with the exporting country's health requirements for production and control as provided for by the *exporting country's* legislation and are therefore deemed fit for human consumption;

B the above-listed products or their packages bear an official health marking certifying that they were entirely produced and inspected at the establishments stated in section 9.3, which are authorised to export by the exporting country;

C the modes of transport and loading conditions meet the exporting country's legal requirements in terms of food safety;

D the above-listed products have been preserved from any direct or indirect contamination by products, goods or any objects that do not show the same guarantees in terms of animal health or food safety.

Official stamp and signature

Notes

(1) Complete the certificate by entering only such animal health details as are required for the batch specified on this page. A single, separate certificate must be provided for the animal products exported from a single zone listed at the appendix to this certificate and shipped in the same aircraft or vessel to the same destination.

(2) Single number issued by the appropriate authority.

(3) Delete the inapplicable.

(4) All terms in bold italics refer to definitions under the Terrestrial Animal Health Code of the World Organisation for Animal Health (OIE)

(5) In a colour other than the printed text's.
