I, the undersigned Official Veterinarian, duly authorized by the Government of Canada, hereby certify that after due enquiry, and to the best of my knowledge and belief that:

- The products originate from a country or a part of a country that has been free of foot-and-mouth disease (FMD), Rinderpest, bovine contagious pleuropneumonia, African swine fever, Newcastle disease and highly pathogenic avian influenza (HPAI) prior to export.
- In Canada, bovine spongiform encephalopathy (BSE) is a reportable disease.
- ⁽³⁾ EITHER *
The products contain animal ingredients that were derived from cattle, sheep, goats or other animals susceptible to BSE, which were imported from _____ (country) that is free from BSE;
OR *
The products contain animal ingredients that were exclusively derived from animals not susceptible to BSE which were either from Canadian origin or legally imported into Canada;
OR *
The products contain no ingredients of animal origin⁽⁴⁾.
*** Delete as appropriate.**
- The products and raw material were not contaminated by pathogen of BSE while manufacturing and processing.
- The products have been manufactured in Canada.

⁽¹⁾ According to Quarantine Requirements for the Importation of Animal Feeds Preparations of Taiwan, the "animal feed preparations" is referred to the preparations which are to provide reasonable and balanced daily nutrition for animals or to provide supplementary feed for farm animals. The products include the following:

- Preserved feed ingredients, Calf milk replacer, Piglet milk replacer, Other stock feedstuff, Poultry feedstuff, Fish feedstuff, Other preparation for animal feeding.
- Other products designated by the central competent authority of agriculture.

⁽⁴⁾ In the case of products containing plant derived protein, issuance of an animal health certificate does not preclude issuance of a phytosanitary certificate if required.
