I, the undersigned official full-time salaried veterinary officer of the Government of Canada, hereby certify that following due enquiry and to the best of my knowledge and belief, the animals identified below comply with the following requirements:

1. Canada is officially recognized to be free from infectious and contagious diseases such as foot-and-mouth disease, rinderpest, contagious bovine pleuropneumonia, lumpy skin disease, Rift Valley fever, heartwater disease and bovine brucellosis in accordance with the guidelines of the World Organisation for Animal Health (OIE).
2. With regard to bovine spongiform encephalopathy (BSE):
  - a) BSE is a compulsorily reportable disease in Canada.
  - b) Canada has in place an eradication and a national surveillance program for BSE in accordance with the OIE recommendations.
  - c) Canada has a mandatory national cattle identification program that allows traceability of cattle.
  - d) Regulations prohibiting the feeding of ruminant origin meat and bone meal to ruminants has been enforced in Canada since August 4, 1997.
  - e) The exported animals were born after the implementation of the ruminant feeding ban regulation in Canada.
3. The animals originate from Canada, are less than two (2) years old and are completely castrated.
4. The animals were transported directly from Canada, or via the United States, to any port of the Arab Republic of Egypt.
5. The animals were subject to a veterinary inspection before departure and found to be free from evidence of communicable disease.
