SECTION II - ORIGIN AND DESTINATION OF ANIMAL

The horse was shipped from

_____ directly to _____
(place of shipment)
(place of destination)

by train/truck/plane/boat ⁽¹⁾ _____
(Indicate means of transport and registered mark, name or flight number, as appropriate.)

Name of Consignor: _____

Address _____

Name of Consignee: _____

Address _____

SECTION III - HEALTH INFORMATION

I, the undersigned, certify that the animal described above meets the following requirements:

- a) It comes from a country where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders, equine encephalomyelitis (all forms including VEE), infectious anaemia, vesicular stomatitis, rabies and anthrax.
- b) It has been examined today and shows no clinical signs of disease ⁽²⁾.
- c) It is not intended for slaughter under a national program of infectious or contagious disease eradication.
- d) During the last forty (40) days immediately preceding the exportation, it has been resident on holdings under veterinary supervision in Canada, and/or the United States of America, and/or the European Union.
- e) It comes from Canada where:
 - i) Venezuelan equine encephalomyelitis has not occurred during the last two (2) years;
 - ii) dourine has not occurred during the last six (6) months;
 - iii) glanders has not occurred during the last six (6) months;
 - iv) vesicular stomatitis has not occurred during the last six (6) months,

or ⁽¹⁾
were tested on a sample of blood taken within ten (10) days of export on _____ (date)
by a virus neutralization test for vesicular stomatitis with negative results at a dilution of 1 in 12;
- f) It does not come from a territory considered infected by African horse sickness (Canada is free) and:
either ⁽¹⁾
was not vaccinated against African Horse sickness;

or ⁽¹⁾
was vaccinated against African Horse sickness on _____ (date);

- g) It does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to prohibition for animal health reasons:
 - i) during six (6) months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;
 - ii) in the case of infectious anaemia, until the date on which the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins test carried out three months apart;
 - iii) during six (6) months in the case of vesicular stomatitis;
 - iv) during one (1) month from the last case, in the case of rabies;
 - v) during fifteen (15) days from the last recorded case, in the case of anthrax;

or

If all the animals of species susceptible to the disease located on the holding have been removed and the premises disinfected, the time period of prohibition shall be thirty (30) days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition is fifteen (15) days;

- h) To the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the fifteen (15) days prior to this declaration;
- i) It was subjected to the following test carried out with negative results in a sample of blood taken within thirty (30) days of export on _____ (date),

- a Coggins test for infectious anaemia;

- j) **Either** ⁽¹⁾
it was not vaccinated against Venezuelan equine encephalitis;

or ⁽¹⁾
was vaccinated on _____ (date) at least 6 months prior to pre-export isolation;

- k) During the ninety (90) days immediately prior to export, but not within fourteen (14) days of export, the horse received :
either ⁽¹⁾
two primary vaccinations against equine influenza in accordance with the manufacturer's recommendations,

Dates of vaccination: _____ and _____

Type of vaccine: _____ Batch numbers: _____

or ⁽¹⁾
a booster dose to a certified previous course of primary vaccination;

Date of booster vaccination: _____

Type of vaccine: _____ Batch number: _____

- l) It has not been, during the last thirty (30) days, in any State/Province in which vesicular stomatitis has been diagnosed in the previous six (6) months; has not been in contact with livestock that has been, during the last thirty (30) days, in any State/Province in which vesicular stomatitis has been diagnosed in the last six (6) months; has not been in contact with livestock that has been resident on infected holdings in the last 60 days.

- m) During the thirty (30) days immediately prior to export,
either ⁽¹⁾
a) It has not been resident in any State/Province in which evidence of West Nile virus (WNV) has been found in the previous six months,

or ⁽¹⁾
b) i) it has not been resident on any premises where clinical cases of West Nile fever have been identified during this time,
and
ii) it has been treated with an insect repellent, effective against WNV vectors, in accordance with the manufacturers instructions, during any period, in the fifteen (15) days immediately prior to export if the horse was in a State in which evidence of West Nile Virus has been found in the previous six (6) months.

Name of product: _____

Active Ingredient(s): _____

SECTION IV

I have a written Declaration signed by the Owner or the representative stating that:

The animal will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equine animals not accompanied by such a certificate, in a vehicle cleansed and disinfected in advance, with a disinfectant officially recognized in the country of dispatch.

The conditions of point III (d) are fulfilled.

DECLARATION

I, the undersigned _____ (insert name in block capitals)
(Owner or representative of animal described above)

Declare:

1. The horse will not be resident inside the United Arab Emirates for a period longer than thirty (30) days.
2. I agree with the statement indicated in paragraph IV.
3. The animals has either remained in the United States of America / Canada since birth or entered the country on _____ (date) from _____ (country of origin).

Place and date

Signature of Owner or Representative

SECTION V

This certificate is valid for ten (10) days. In the case of transport by ship, the time is prolonged by the duration of the voyage.

Date

Signature of Official Veterinarian ⁽³⁾
Canadian Food Inspection Agency
Government of Canada

Official export stamp ⁽³⁾

Name of Official Veterinarian (in block letters)

- (1) Delete unused option.
- (2) This certificate must be issued on the day of loading of the animals for dispatch to the United Arab Emirates, or in the case of a registered horse, on the last working day before embarkation.
- (3) The colour of signature and stamp must be different to that of printing.
