**SECTION III - HEALTH INFORMATION**

I, the undersigned Official Veterinarian duly authorized by the Canadian Food Inspection Agency, certify that the horse described above meets the following conditions:

1. Canada is free from African horse sickness, dourine, glanders, piroplasmiasis, vesicular stomatitis, contagious equine metritis and Venezuelan equine encephalomyelitis.
2. During the twenty-one (21) days prior to shipment, the horse was tested with negative results for Equine Infectious Anemia, using the ELISA test.
3. The horse was vaccinated against equine influenza within twelve (12) months and at least thirty (30) days prior to shipment.
4. The horse was vaccinated against Western and Eastern equine encephalomyelitis (WEE and EEE) using an inactivated vaccine, within six (6) months and at least thirty (30) days prior to shipment.
5. The horse has undergone a full vaccination program against West Nile Virus, within the twelve (12) months preceding export, using a registered, inactivated vaccine according to the manufacturer's directions with the last dose administered at least thirty (30) days prior to shipment.
6. The animals have not received:
  - any thyrostatic substances;
  - any estrogenic, androgenic, gestagenic or  $\beta$ -agonist substances for purposes other than therapeutic or zootechnic treatment.
7. The animals were not treated with genetically modified materials.
8. The horse was examined before shipment and showed no clinical signs of diseases.
