ADDRESS: _____

DESTINATION: _____

I, the undersigned Official Inspector, duly authorized by the Government of Canada, hereby certify, after due enquiry and to the best of my knowledge and belief, that the bees included in this shipment meet the following requirements:

1. The apiary from which the bumblebees originate is under official control by authorized inspectors of the Canadian Food Inspection Agency.
2. The colony is free of evidence of acariosis, American foulbrood, European foulbrood, nose matosis, varroasis (Varroa jacobsoni) and tracheal mites.
3. During pre-export inspection, the bees have been either surveyed and found free of the Small Hive Beetle (Aethina tumida) *

or

The bees were treated with a product approved by the government of Canada at least seven days prior to shipping. *

Name of product: _____

Name of active ingredient: _____

*** Delete as appropriate**

4. No African and/or Africanized bees has been included in this shipment.
5. Packaging material and the accompanying products are new and have not been in contact with diseased bees and/or bumblebees, or hives, and all precautions were taken to avoid its contamination or infestation with agents causing diseases on bumblebees.
