- iv) **Name of Consignor:** _____
Address: _____

- v) **Name of Consignee:** _____
Address: _____

- i) **Name of A.I. Centre (where semen collected):** _____
Address: _____

SECTION II

I, the undersigned Official Veterinary Officer duly authorized by the Government of Canada, hereby certify that:

1. Canada is officially recognized to be free of foot and mouth disease, rinderpest, contagious bovine pleuropneumonia and that vaccination against these diseases is prohibited.
2. The semen was collected from a bull maintained in an artificial insemination centre which is officially approved and licensed by the CFIA and under the supervision of a centre veterinarian.
3. There has been no evidence of brucellosis, infectious bovine rhinotracheitis/infectious pustular vulvovaginitis, enzootic bovine leucosis, anthrax, tuberculosis, paratuberculosis, trichomoniasis, campylobacteriosis, leptospirosis or other diseases suspected of being disseminated in semen during the previous two years at the centre of origin.
4. The donor bull has not been vaccinated against brucellosis or infectious bovine rhinotracheitis (IBR).
5. The donor bull has been tested with negative results for the following diseases prior to semen collection:
 - a) brucellosis - serum agglutination test
 - b) tuberculosis - intradermal tuberculin test
 - c) enzootic bovine leucosis - agar gel immunodiffusion or ELISA test
 - d) leptospirosis - microagglutination lysis test
 - e) bluetongue - agar gel immunodiffusion or ELISA test
 - f) epizootic haemorrhagic disease - agar gel immunodiffusion test
 - g) campylobacter - culture
 - h) trichomonas foetus - direct microscopic or culture
 - i) infectious bovine rhinotracheitis - serum neutralization or ELISA test
 - j) bovine virus diarrhoea - immunoperoxidase test
 - k) paratuberculosis - complement fixation or ELISA test
6. All the time of collection of the semen, the donor bull was healthy and free of evidence of disease.
