Address: _____

SECTION II

- i) **Name of A.I. Centre (where semen collected):** _____

- Address:** _____

SECTION III

I, the undersigned official veterinarian, duly authorized by the Government of Canada, do hereby certify that:

1. The semen was collected from a bull maintained in an artificial insemination centre which is under official veterinary control.
2. At the time of the collection of the semen, the donor bull was healthy and free of evidence of disease and had not been exposed to IBR/IPV in the previous six months.
3. All of the animals maintained at the artificial insemination centre, including the donor bull, are recognized to be free of tuberculosis, brucellosis, leptospirosis, paratuberculosis, bluetongue enzootic bovine leucosis, campylobacteriosis and trichomoniasis.
4. The donor bull has been subjected to the following tests with negative results:
 - a) Tuberculosis - intradermal;
 - b) Brucellosis - serum agglutination and CF;
 - c) Leptospirosis - microagglutination lysis;
 - d) Paratuberculosis - complement fixation or ELISA;
 - e) Leucosis - agar gel immunodiffusion or ELISA;
 - f) Bluetongue - ELISA;
 - g) Campylobacteriosis - culture;
 - h) Trichomoniasis - direct microscopic examination or culture;
5. There were no outbreaks of foot and mouth disease or vesicular stomatitis within one hundred and sixty (160) km of the premises on which the donor bulls were kept within a period of one (1) year prior to semen collection.
6. The liquid nitrogen in which the semen is transported is supplied direct from the manufacturer and not used for storage or transport of other biological materials previously.
