

Affidavit for Hon. Justice J.C Major, Commissioner,
Commission on Air India Flight 182.

1 I, Arnold Guetta, a mathematician resident of 69 Centennial Blvd. Ottawa, Ontario
K1S0M8, telephone and fax 6132343196, e-mail arnetta@rogers.com do affirm that the
following statements are true .

Summary: This Commission coincides chronologically with Canadian Judicial Council
(CJC) process 05-0626 in which three recoveries of \$350,000 each are claimed from
6 preceding delinquent Commissioners. who have conducted false process, with lawyers of
known misconduct producing false reports and processes which shelter the same
delinquent agencies as are to be reviewed or assessed by this Commission.

Eight or so pages of indictment from CJC 05-0626 have been made available to this
Commission on or before 2006 July 5.

11 It is essential (literally vital for honest police and public servants) for the Crown that
both this Commission and CJC 05-0626 expose unchallenged fact and
testimony for the Crown from within Police, Law Societies and Judiciaries which have
been concealed/silenced/excluded, transcripts/monies illegally seized in secret "trials"
and other scandalous abuse of process in British Columbia and elsewhere.

16 Detail: I have with others rejected, exposed and reported failures (and proposed better
ways) in law-enforcement, police inquiries, judicial processes and subsequent
Commissions continuously since the Glassco Commission, 1963, (witness Yeomans).
So to Hon. Justices LeSage, O'Connor and Gomery Commissions through to
remedial proposals in current Canadian Judicial Council (acknowledge Conseil de la
21 Magistrature du Quebec) file 05-0626 (\$6.2 billions recoverable, two Courts, two years).

7 This has continued through Air India 182 process where I hold relevant written admission
and written evidence of (Law Society of British Columbia, and B.C. public servants et al)
waste and exploitation of public purses. I also hold written Cabinet support also minority
Royal Canadian Mounted Police executives (requesting Royal Commission
exposure and protection) proving criminal negligence within RCMP, failure to enforce
6 law, and protect citizens, and with Canadian Security and Intelligence Service (CSIS)
concealing and/or exploiting the evidence of corrupt spending disclosed to it, with
instances of fatal consequences for principled public servants. These records cover 1963
(Glassco Commission) through Air India 182 and other false judicial process to current
fraudulent Commissions, and false police and other committee minutes .

11 Earlier applications (copies on file) direct to Chief Justice McLachlin (who presides over
the Canadian Judicial Council) were unacknowledged together with some eight exhibits
(approx 400 pages) personally delivered. Currently however after the Conseil de la
Magistrature du Quebec wrote to the Canadian Judicial Council (Chief Justice B.
McLachlin presiding) following error-filled Commissions, the aforementioned CJC
16 opened its file 05-0626 in which application is made for recovery of \$350,000 from each
of Justices Gomery, LeSage and O'Connor, to form a Trust fund for the Crown.

This Trust will fund recoveries of \$6.2 billions more or less, for the Crown in two Courts,
two years, on the principle (generally reversed for forty five years) that delinquent Bar
and Bench should fund their own retribution and correction rather than yet more funds
21 from public purses only to again conceal the truth, protecting next generation of
delinquent Bar and Bench.

This file and complaint process CJC 05-0626 therefore moves parallel in time to that of
Air India 182. Mme. McLachlin has not yet been heard to stand aside from these matters.

1 File 05-0626 cites judicial errors, deceit and delinquencies with direct bearing on and assistance to your Commission, which errors include:

Eight applications to a Commission unacknowledged, a ninth termed "too late".

An application acknowledged only by notification of its destruction.

6 Knowledgeable witnesses, honest testimony and exhibits replaced by law students, criminal delinquents, fraudulent auditors, misinformed academics, Employment of legal counsel (at an alleged \$800.00 per hour) repeatedly acknowledged by bar associations as criminally delinquent.

False testimony, police and other committees maintaining false minutes.

11 Silencing of honest witnesses, theft of transcripts (and monies paid) concerning the above and honest minority RCMP/executive testimony and other deceit

I believe CSIS to be flawed and unreliable in its performance since its creation and particularly in its Air India 182 performance

Witnesses uncalled, reports unquoted and unentered in the British Columbia and national investigation/judicial Air India 182 processes explain some eighteen years, and

16 \$175 millions of fruitless endeavour, extension of pointless process, greed, abuse and exploitation of public funds and frustration to victims' families and to taxpayers.

Aforementioned written evidence including admissions of guilt by Law Society and public servants in British Columbia will be presented.

I wish to speak to the above and to the future events over which you will preside, and so apply

21 here for Standing before your distinguished Commission of Inquiry in accordance with and following upon my Commissions elsewhere.

Affirmed and signed in Ottawa this 4 day of July 2006
