Thank you Pat, I will delete this in case I ever get ATIP'd - You are so funny, we will miss your candour!! That was my chuckle of the day. Talk to you later. Julie

Julie; I have already seen it earlier this morning. I have a call with the WSP team at 10:00 to go over a response I drafted this morning. I sent a copy to Mr. Sprout. Assholes.

Bilal just sent me the attached BN from the Marine Conservation Caucus (MCC). They had sent it to a BC MP.

Bilal asks that we ensure we have backgrounders, talking points, Qs&As, etc. that can be distributed to Parliamentarians to counter what he anticipates to be a vocal campaign by the MCC as we get closer to finalizing the Wild Salmon Policy. Are these products in the works already? If not, we should prepare them asap.

Bilal also asked for a briefing on the WSP next week while he is in Ottawa. I think the plan was already to do something at the Min. briefing on Monday? Please confirm so I can figure out whether something additional will be needed.

Finally, note that the message sent to the MP by the MCC indicated "Minister Regan wants to announce this on May 30".

Thanks,
Scott
