

CASE NUMBER: 03F-25-A2.3-7

DATE: May 11, 2003

MORPHOLOGIC DIAGNOSES:

Slide 79, A2.3-7-1:

There are no overt lesions within the spleen, kidney, liver, peripheral nerves or peripheral vasculature.

Slide 80, A2.3-7-2:

1). Spleen, lymphocytes: Lymphocytolysis, mild, multifocal, random, acute

There are no overt lesions within the liver, kidney, peripheral nerves or peripheral vasculature.

Slide 81, A2.3-7-3:

There are no overt lesions within the liver, spleen, kidney, peripheral nerves or peripheral vasculature.

COMMENTS:

There are no apparent lesions within the examined tissues which may adversely affected growth or performance of this stock; the acute lymphoid necrosis noted in slide 80 is suggestive of possible antigenemia, stress, or some other process and likely would not have contributed to impaired, immune function.

FINAL REPORT
