

CASE NUMBER: 03F-63-A3.3-37

DATE: Aug 16, 2003

**MORPHOLOGIC DIAGNOSES:**

Slide 37, A3.3-37-1:

There are no significant lesions in the anterior kidney, spleen, heart, liver, peripheral vasculature, or peripheral nerves.

Slide 38, A3.3-37-2:

There are no significant lesions in the kidney, spleen, heart, liver, peripheral vasculature, or peripheral nerves.

Slide 39, A3.3-37-3:

There are no significant lesions in the kidney, spleen, heart, liver, peripheral vasculature, or peripheral nerves.

Slide 40, A3.3-37-4:

1). Kidney: Cholangiohepatitis, mild, multifocal, subacute

There are no significant lesions in the heart, anterior kidney, spleen, peripheral vasculature, or peripheral nerves.

Slide 41, A3.3-37-5:

There are no significant lesions in the anterior kidney, spleen, heart, liver, peripheral vasculature, or peripheral nerves.

**COMMENTS:**

There are no significant lesions within the examined tissues which may adversely affect overall stock performance or growth; the cholangiohepatitis noted in slide 40 is low grade and is not considered pathologically significant.

**\*FINAL REPORT\***
