

CASE NUMBER: 04F-24-A2.3-9

DATE: Mar 22, 2004

**HISTOPATHOLOGY:**

Slide 150, A2.3-9-1:

1). Heart, spongy ventricle: Myocarditis, mild, multifocal, fibrinous, granulomatous, necrotising, chronic

There are no overt lesions within the spleen, kidney, liver, or heart.

Slide 151, A2.3-9-2:

There are no overt lesions within the spleen, kidney, liver, or heart.

Slide 152, A2.3-9-3:

There are no overt lesions within the spleen, kidney, liver, or heart.

**COMMENTS:**

There are no apparent lesions within either of the 3 examined sections; the myocarditis noted in slide 150 is considered incidental and of limited pathologic significant.

**\*FINAL REPORT\***
