Subject: FW: Grieg Seafood- Esperanza Site

yesterday, the rcmp made a request to c&p for assistance in gold river. reportedly rcmp assets are tied up with the olympic venue and were unable to respond. given officers were on days off, c&p was unable to muster and provide assistance.

Subject: Grieg Seafood- Esperanza Site

Hi Jason,

This is Brice McCannel the site manager from Esperanza sea site we met Thursday with Brian Barker when you were out, I had left a message with you earlier in regards to some unauthorized Visitors at our sea site today and just wanted to follow it up with a email because I know the phone lines out here are not the best. Mia Parker our Sr. regulatory affairs manger asked me to let you know we were having problems with Alex Morton. Today while we were harvesting she showed up with 4 others in a boat and drove inside the system coming up almost against the harvest boat while we were loading and started sampling lice and video taping everything. I asked them to stay outside the yellow canbouys and system because its a occupational health and safety issue and against bio security protocol and at that time they never went back to the harvest boat, however they continued in with there routine off the end of the system still getting up close to the site with there lice nets and equipment. I did phone the Rcmp first to file the complaint as directed by Mia but unfortunately I missed the call back while I was outside, I just want everything to be documented because my experience with her is this could be a ongoing issue with her disregarding site biosecurity, as well as unauthorized site entry trying to discredit the industry. Hopefully its a one time affair.

This is the company email and the site number is 250 830 2296

Thanks,

Brice
