Dear Ms. Morton:

Thank you for your email and attached reports of April 28, 2011, regarding infectious salmon anaemia virus. We received two emails with seven of the listed attachments and request that another attempt please be made to send all the reports.

The Government of Canada is committed to preventing the introduction and spread of infectious diseases of aquatic animals. Effective disease control activities by the Canadian Food Inspection Agency (CFIA), in collaboration with federal/provincial/territorial partners, ensure that Canadians and our trading partners have confidence in Canada's fish and seafood products.

Please be assured that CFIA will fully consider the information you have provided and will take appropriate steps as merited by the analysis of the reports.

Again, thank you for writing on this important issue.

Yours sincerely,

Carole Swan
