Subject: RE: ISAV Proficiency Panel
Attach: 2011P-ISA-01 2011-08-30.mxp

Hi Laura,

After review of your ISA proficiency panel, we have determined that you have passed. Congratulations! However, we did observe that the threshold was not set in the linear part of the curve. We would suggest that the threshold be placed a bit above the background within the 3rd lower part of the linear curve, as well as above any irregularities in the curve.

Please see attached Mxpro data file for reference.

<<...>>

We also have a few questions regarding proficiency panel Ct value determination. We would like to make sure that the criteria used to determine the accepted value range are similar or identical to yours.

How many assays are done on the proficiency panel samples to determine the accepted range of values? Do the assay include one single extraction, and multiple PCR testing on that same panel, or are multiple extractions done in one batch (or multiple batches)??

Also, what would be the criteria used to determine the accepted range of values? (i.e standard deviation, etc)

Thank you,

Have a great weekend,

Crystal & Mélanie

Hi Crystal,
Attached is the result form and the MxPro file for ISA proficiency panel 2011P-ISA-01.

Cheers,
Laura

Hi Laura,

Thank you for the email.
I am very happy that the samples arrived to you in good condition.
Have a great end of week,

CC

Hi Crystal,

Just got the ISAV panels, all in good shape. Hopefully I can have a panel processed and results back to you by the end of next week. I've attached the form with the shipping section filled out and will complete the remainder when I have results

Thanks,
Laura

Hi Laura,

I have sent the ISAV panels.Attached you will find a Proficiency testing form ,I ask that you fill out the information and email me back the form.I have also sent a paper copy with the shipment.

If you have any questions please do not hesitate to ask.(You should be receiving the sample tommorow,as I sent them via express post)Please let me know when you receive the samples, and in what condition they have arrived.

Hi Laura,

I will be sending you two ISAV proficiency panels by the end of the day , you should receive them tommrow, may I have your contact information (complete mailing adresse and phone number)?

Thanks,
Crystal

Subject: ISAV Proficiency Panel

Hi Nellie,

Would it be possible to get two ISAV proficiency panels (next week or so)? In reading the ISAV protocol I noticed a statement that different RNA extraction protocols can be used if proven proficient. My plan is to do one proficiency panel following GFC extraction protocol and another following our extraction protocol. Hopefully both will yield equivalent results, which would give me the option to do either extraction method when ISAV testing is of interest.

I have been looking at the protocol and SOPs that are in Q-pulse, please also email if there are any changes to the protocols/SOPs that may not have made it to Q-pulse yet.

Thank you,
Laura
