Subject: Recreational Sockeye Management
Attach: rec_sox_background_060623.doc

Folks, attached is a 2006 Information Note which outlines an approach for managing recreational fisheries for sockeye coastwide. This approach was reviewed and implemented in 2006 and subsequent years. I have reviewed the document and believe the principles are still valid and the approach is appropriate for 2009. I would like to confirm that the approach outlined in the note will be our management approach for 2009. I am not sure when the next FRIMT meeting/call is scheduled for but perhaps, if it is not too late, we could confirm our approach at that meeting.

Debra
