---

Brian,

Have we done any sampling that would counteract the findings of Alexandra's sockeye research near the Discovery Islands? Or do we have any data on the impact of sea lice on sockeye juveniles? I'm considering whether there is any ammunition for a letter to the editor re the attached article. It gives us a good sense of where the seas lice issue may move to, particularly if the ENGOs get involved in a potential class action with FNs.

Terry
