

# **Robert C. Bocking, B.Sc., MRM, R.P. Bio.**

## **Vice-President, Fisheries**

### **EDUCATION**

1980	B.Sc. (Honours) Marine Biology, University of British Columbia
1987	M.R.M. (Masters) Natural Resource Management, Simon Fraser University

### **PROFESSIONAL EXPERIENCE**

Ongoing	Fisheries Advisor to the Maa-nulth First Nations for implementing the Maanulth Final Agreement
	Fisheries Advisor to the Huu-ay-aht First Nation for implementing the Maanulth Final Agreement
	Fisheries Advisor to the Sliammon First Nation for negotiating the Sliammon Final Agreement
	Fisheries Advisor to the Nisga'a Lisims Government and member of the Joint Technical Committee
	Fisheries Advisor to the Council of the Haida Nation and member of the Joint Salmon Technical Committee
2008-2010	Senior Fisheries Biologist for the assessment of potential impacts of net pen rearing of pink salmon near Sidney British Columbia
	Senior Fisheries Biologist for the assessment of underwater noise from oil and gas development on fish in the north Caspian Sea
	Senior Fisheries Biologist assisting with the assessment of acoustic effects on fish in Hecate Strait from the Naikun wind farm
	Senior Fisheries Biologist for the assessment of angler and recreational use in the Peace River near Site C
	Senior Fisheries Advisor for the assessment of burbot movements in Arrow Lake using acoustic and radio telemetry
	Senior Fisheries Advisor for the assessment of sockeye movements in Alouette reservoir using acoustic and radio telemetry
	Senior Fisheries Biologist and author of mark recapture estimates for Chinook salmon in the Nass River drainage
	Senior Fisheries Biologist (on behalf of Nisga'a Lisims Government) for the review of the Environmental Assessment Application for the Northwest Transmission Line
	Senior Fisheries Biologist (on behalf of Nisga'a Lisims Government) for the review of baseline study terms of reference for the Seabridge mine developments in the Taku and Nass watersheds

Senior Fisheries Biologist for and co-author of report on Responsible Fishing in Canada's Pacific Region Salmon Fisheries

Senior Fisheries Biologist providing technical support to the Independent Skeena Review Panel

Senior Fisheries Biologist providing input on behalf of Nisga'a Lisims Government to the South Nass Sustainable Resource Management Plan

Senior Fisheries Biologist and co-author of report on Aquatic Habitat Monitoring Partnership Opportunities in Haida Gwaii

Senior Fisheries Biologist for the assessment of shellfish contamination in Sliammon First Nation traditional territory

Senior Fisheries Biologist and co-author of report on the Potential Impact of Coal Bed Methane Extraction on Salmon and Salmon Habitat in the Skeena River Headwaters

Senior Fisheries Biologist for the development of a master plan for the Colville Tribe for enhancement of Kokanee salmon in the San Poil River, Lake Roosevelt

Senior Fisheries Biologist for the assessment of eulachon habitat in the vicinity of the Port Mann Bridge, lower Fraser River

Senior Fisheries Biologist for assessment of sturgeon migrations below Revelstoke Dam using DIDSON

2006-present Senior Fisheries Biologist for assessment of migrations of Bulltrout, walleye, mountain whitefish, arctic grayling and rainbow trout in the vicinity of Site C, Peace River

2005- 2007 Senior Fisheries Biologist for ongoing assessment of the migration of juvenile sockeye from the Alouette Reservoir

Fisheries Advisor to the Winalagalis First Nations for negotiating a Final Treaty settlement with Canada and British Columbia

Author of various treaty papers on fisheries for the Hul'qumi'num Treaty Group

Senior Scientist and Project Manager for the testing of marine echosounding of sockeye salmon in Rivers Inlet

Senior Scientist for baseline fisheries studies on the Peace River including habitat assessment and fish migration studies using telemetry

Senior Fisheries Biologist for development of a recovery plan for salmonids and shellfish in the Cowichan River and Cowichan Estuary

Senior Fisheries Advisor to the Nicola Watershed Stewardship Fisheries Association for Coldwater smolt enumerations

Senior Fisheries Biologist for study of salmon net fishing induced mortality of Fraser River white sturgeon

Advisor to the British Columbia Government on science issues related to offshore oil and gas exploration, including seismic

Senior Fisheries Biologist for an environmental impact assessment of the effects of seismic exploration on the central coast of British Columbia (Queen Charlotte Basin)

Senior Fisheries Biologist for Environmental Assessment of US Navy Expansion of Activities at Keyport, Washington

Senior Fisheries Advisor for updating of natural resources review for an Environmental Impact Assessment for Canadian Department of Defense, Esquimalt, British Columbia

Senior Fisheries Biologist and Project Manager responsible for an Environmental Assessment (BCEA) for the Meager Creek Geothermal Project

Senior Fisheries Biologist and Project Manager for a review of the state of knowledge of valued marine and shoreline areas of the Queen Charlotte Basin, BC

2000-2004 Senior Fisheries Biologist and advisor for fish studies at Coquitlam Reservoir as part of initiative to investigate the feasibility of restoring sockeye salmon to the watershed

Senior Fisheries Biologist and advisor for the development of adult salmon enumeration system for the Okanagon River using underwater video technology

Senior Fisheries Biologist and advisor for the development of adult salmon enumeration facilities for the Colville Tribes in Washington State

Senior Fisheries Advisor for ongoing research on coho salmon production in Norton Sound, Alaska

Senior Fisheries Biologist and Project Manager responsible for enumeration of out-migrating juvenile pink salmon from two rivers in the Broughton Archipelago, BC

Senior Fisheries Biologist for the testing of acoustic deterrents for fish under ice in the Mackenzie delta area

Senior Fisheries Biologist for a feasibility assessment of the potential reintroduction of salmon to the Alouette Reservoir

Senior Fisheries Biologist and Project Manager responsible for the assessment of the feasibility of restoring sockeye salmon above the Coquitlam hydroelectric dam

Senior Fisheries Biologist responsible for developing a habitat-based procedure for establishing coho salmon escapement goals in Fisheries and Oceans Statistical Area 3, BC

Senior Fisheries Biologist responsible for the development and evaluation of sockeye salmon production goals for Meziadin Lake, BC

Senior Fisheries Biologist for the development of the Pacific Salmon Endowment Fund. Worked with a team of professional biologists to establish technical components of the PSEF and program delivery

Senior Fisheries Biologist responsible for Environmental Impact Assessment of construction of the proposed Ekwon gas pipeline in North Eastern BC

Senior Fisheries Biologist and Project Manager responsible for the mitigation of impacts from a marina construction in Sidney, BC; including creation of new habitat for *Salicornia sp.*

- 1996-1999 Senior Fisheries Biologist responsible for project management and technical direction of Watershed Assessments in numerous watersheds within BC (for British Columbia Watershed Restoration Program). See report list for specific watersheds
- Senior Fisheries Biologist responsible for development of a coho monitoring program for the Thompson River system
- Senior Fisheries Biologist responsible for Level 2 Stream Assessments in selected tributaries of the San Juan Watershed (for British Columbia Watershed Restoration Program)
- Senior Fisheries Biologist responsible for assessment of trout habitat in the Sooke Lake watershed and design of compensation and monitoring program for habitat loss due to raising of the reservoir level (for British Columbia Watershed Restoration Program)
- Senior Fisheries Biologist responsible for developing stream and riparian rehabilitation projects in the Goldstream River Watershed (for British Columbia Watershed Restoration Program)
- Senior Fisheries Biologist responsible for developing stream and riparian rehabilitation projects in the Willow River Watershed (for British Columbia Watershed Restoration Program)
- Senior Fisheries Biologist responsible for developing stream and riparian rehabilitation projects in the Big Creek, Gaspard Creek, and Churn River watersheds (for British Columbia Watershed Restoration Program)
- Senior fisheries biologist and overall coordinator for Nass River fisheries inventory studies
- Senior Fisheries Biologist responsible for developing stream and riparian rehabilitation projects in the Sarita River Watershed (for British Columbia Watershed Restoration Program)
- Senior Fisheries Biologist responsible for developing stream and riparian rehabilitation projects in the Little Zeballos River Watershed (for British Columbia Watershed Restoration Program)
- Senior fisheries biologist for development of a habitat model for steelhead production in the Nass River, BC
- Senior fisheries biologist retained by the Te'mexw Treaty Association to advise on fisheries issues and develop programs
- 1991-1995 Project Manager for a study evaluating the use of aerial video imagery to measure riverine habitat characteristics on the Ishkeenickh River, BC
- Program Manager and senior researcher for multi-faceted salmon research program on the Nass River, BC
- Co-author of report evaluating the Skeena Steelhead Habitat and Production Model
- Project Manager, data analyst and report writer for Kitsumkalum and Quinsam-Campbell chinook keystone reports, 1989-90

- Researched and developed a methodology for evaluating fishways in British Columbia
- Project Manager for sampling of Chinook salmon at several BC salmon farms
- Analyst and author of several reports evaluating the impacts of the Exxon Valdez oil spill on Alaskan salmon and herring fisheries
- 1984-1990 Project Manager and principal investigator for chinook escapement enumeration and chinook key stream report at Stamp River, 1990
- Continuing project manager and principal investigator for instream coho escapement indexing sampling design
- Project Manager for coho smolt enumerations and coded-wire tagging at Black Creek, French Creek and Trent River
- Data analyst and reporting for Quinsam-Campbell key stream report 1986-1988
- Assisted with research and development of Cook Inlet salmon stock reconstruction model
- Coordinated pink salmon coded-wire tagging at Quinsam Hatchery as part of a study to examine effects of oil on salmon
- Project Manager for the collection of inventory and biological data on chinook salmon at salmon farms as part of the Chinook Broodstock Development Program
- Primary researcher into the costs and benefits of salmon escapement enumeration methods for Hobiton Lake sockeye
- Project coordinator for the enumeration of 400,000 chinook salmon being reared at salmon farms in BC using video techniques
- Project coordinator for Georgia Strait Chinook Genetic Stock Identification Program
- Project Supervisor for a study of instream escapement indexing sampling design focusing on coho salmon
- Assisted in the organization and execution of a study to provide biological and physical information on the adult salmonid resources of Smith Inlet, BC

## REPORTS AND PUBLICATIONS

- Plate, E., Bocking, R. and English, K. 2009. Responsible Fishing in Canada's Pacific Region Salmon Fisheries. Vancouver, BC: Prepared for the Pacific Fisheries Resource Conservation Council.
